The International Journal of Sociotechnology and Knowledge Development (IJSKD) wishes to publish papers that offer a detailed analysis and discussion on sociotechnical philosophy and practices which underpin successful organizational change thus building a more promising future for today's societies and organizations. It will encourage interdisciplinary texts that discuss current practices as well as demonstrating how the advances of and changes within - technology affect the growth of society (and vice versa). The aim of this journal is to bring together the expertise of people who have worked practically in a changing society across the world for people in the field of organizational development and technology studies including information systems development and implementation.

**Topics Covered:**

- Applied ergonomic
- Computer-supported cooperative work
- Critical success factors (and key performance indicators) for organizations and technological implementation
- Culture and trust within organizations and their relevance to technological artifacts
- Design and technology development issues including requirements and stakeholder participation
- E-government and democracy as affected by technological change
- Empowerment and team development
- HRM issues for innovation and knowledge sharing
- Human-Computer Interaction
- Implementation issues of change and technology
- Influence of human factors on operational efficiency
- Information systems development
- Knowledge communication
- Knowledge management systems
- Learning organizations
- Managing organizational knowledge as a strategic asset
- Organizational Change
- Performance and quality of working life
- Quality assessment of computer information systems
- Relevance of the worker's perspective
- Social aspects of automation
- Sociotechnical systems
- Technological forecasting and social change
- Technology and its role in society and organizations
- Using knowledge management principles to solve organizational performance problems

**SUBMISSION INFORMATION**

Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL’S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://www.igi-global.com/journals/guidelinesforsubmission.aspx PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:
José Abdelnour Noceca, jose.abdelnour-noceca@uw.ac.uk and Constance Kampf, cka@ash.dk

All manuscript submissions to IJSKD should be sent through the online submission system: http://www.igi-global.com/authoreditors/titlesubmission/newproject.aspx
EDITOR-IN-CHIEF BIO

Constance Kampf is Associate Professor in the Business Communication Department, Business and Social Sciences, Aarhus University, Denmark. She is a member of IEEE, AoIR, and ACM SigDoc Europe and is the Assistant Editor-in-Chief of the IEEE Transactions on Professional Communication. Her research interests focus on Project Management Processes, Knowledge Communication, and Corporate Communication. She is a member of the Centre for Corporate Communication and the research group for Knowledge Communication at Aarhus University. She is also working on developing the notion of a macro level for socio-technical design connecting global Internet based business, society, and technology. In pursuing these interests, she has been involved as researcher in projects in Denmark and overseas in the domains of digital artists interacting with business and knowledge communication through Project Management tools and methodologies. Dr. Kampf gained an MA in Teaching English as a Second Language and Educational Technology from the University of Minnesota, USA, and a PhD in Rhetoric and Scientific & Technical Communication from the University of Minnesota. She has taught Project Management at the MA and PhD levels at Aalto School of Economics, Aalto University in Finland, and has been a visiting scholar at Aalto School of Economics, is an adjunct PhD committee member for the Professional Communication PhD program, East Carolina University, USA, and has given Engineering Communication Workshops at Universitat Politècnica de Catalunya, Barcelona, Spain.

José Abdelnour-Nocera is Reader in Sociotechnical Design and Head of The Sociotechnical Centre for Internationalisation and User Experience at the University of West London. He is also cochair of the sociotechnical specialist group for the British Computer Society. His interests lie in the sociotechnical and cultural aspects of systems design, development and use. In pursuing these interests, he has been involved as researcher and consultant in several projects in the UK and overseas in the domains of e-learning in social development, e-commerce, egovernance, and enterprise resource planning systems. Dr. Abdelnour-Nocera gained an MSc in Social Psychology from Simon Bolivar University in Caracas, Venezuela, and a PhD in Computing from The Open University, UK.
