Table of Contents

Preface

Section 1
Design of Content and Courses

Chapter 1
Instructional Design for Millennials: Instructor Efficiency in Streamlining Content, Assignments, and Assessments
William V. Loose, Azusa Pacific University, USA
Teri A Marcos, National University, USA

Chapter 2
The Online Course Maximizers of Visualization, Gaming, Analytics: Online Course Maximizers
George Beckwith, National University, USA

Chapter 3
The Adaptation of a Residential Course to Web-based Environment for Increasing Productivity
Hakan Tüzün, Hacettepe University, Turkey
Hatice Çıralı Sarıca, Hacettepe University, Turkey
Nihal Menzi Çetin, Hacettepe University, Turkey
Mehmet Kokoç, Karadeniz Technical University, Turkey
Gülşen Sert, Hacettepe University, Turkey
Arman Alır, Hacettepe University, Turkey

Chapter 4
A Review of Grade Appeals Informing Productivity and Efficiency in Teaching
Dina Pacis, National University, USA
Cindy Sytsma, National University, USA
Penelope Keough, National University, USA

Section 2
Communication

Chapter 5
Utilizing Social Media to Engage Students in Online Learning: Building Relationships Outside of the Learning Management System
Sara Bender, Central Washington University, USA
Patricia Dickenson, National University, USA
Chapter 6
Leveraging Online Collaboration to Optimize Faculty Efficiency, Student Engagement and Self-Efficacy: Self-Directed Learning at Scale
Sidneyeve Matrix, Queen’s University, CA

Chapter 7
Communicating with Students in Online Learning Environments: Using Tools to Communicate, Monitor, and Provide Feedback to your Online Students
Katrina Woolsey Jordan, Grambling State University, USA

Chapter 8
The Discussion Forum, Maximize Student Learning with Manageable Faculty Workload
Trish Harvey, Hamline University, USA
Vivian Johnson, Hamline University, USA

Section 3
Assignments and Assessment

Chapter 9
Assessment in the Online Classroom A Critical Review of Two Major Strategies: Online Quizzes/Tests and Discussion Boards
Mark Ryan, Loyola Marymount University, USA

Chapter 10
Real World Collaborative Projects Increasing Self-Directed Learning in Online Master’s Programs
Jennifer Courduff, Azusa Pacific University, USA
Jessica Cannaday, Azusa Pacific University, USA

Chapter 11
A Model of Designing Online Assignments Based on the Revision of Bloom's Taxonomy
Congwu Tao, Virginia Tech University, USA

Section 4
Advanced Design and Interaction

Chapter 12
Micro-Feedback via the Cloud: Sustainable Monitoring of Online Student Responses
Tyson DeShaun McMillan, Tarrant County College, USA

Chapter 13
Facilitating Game Design in the Online Classroom: Building efficiencies in teaching while students build games for learning
Nelson Altamirano, National University
Ben Radhakrishnan, National University
James Jaurez, National University, USA
Chapter 14
Authentic Online Branching Simulations: Promoting Discourse Around Problems of Practice
Eric Bernstein, University of Connecticut, USA
Sarah A McMenamin, University of Southern California, USA
Michael C Johanek, University of Pennsylvania, USA

Chapter 15
Advanced Feedback Using Dynamic Rubrics, Video, and Audio: Student Perception and Teacher Efficiency with Advanced Tools in Online Grading
James Jaurez, National University, USA
