Print + Free E-Access: $695.00
E-Access Only: $660.00

**Topics Covered:**
- Agile, lean, and resilient supply chain
- Banking and financing
- Best practices and benchmarking
- Business integrity and insurance
- Business process automation, management, re-engineering
- Cloud computing and grid computing
- Collaborative development, forecasting, and planning
- Computational logistics
- Cultural, organizational, and human resources issues
- Data engineering and decision support systems
- E-business, internet-enabled logistics, and supply chain practices
- Enterprise interoperability, integration, and management
- ERP, CRM, SRM, and WFM
- Facility logistics
- Financial issues
- Globalization and international issues
- Government
- GPS, GIS, and location-based systems
- Healthcare
- Impact and application domains
- Innovation, drivers, metrics, and management
- Innovation process and methodologies
- Internet Web Technologies
- Inventory and material management
- Knowledge discovery and data mining
- Manufacturing
- Marketing and advertisement
- Mobile computing
- Modeling and optimization methodologies
- Organizational innovations and issues
- Partnership formation
- Project Management
- Public communications
- Retail, distribution, and transportation
- Reverse logistics and returns management
- RFID and automation
- Security and risk management
- Sensor and wireless networks
- Service-science/service-oriented computing
- Social and environmental responsibility
- Sourcing and procurement management
- Sustainable supply chain networks
- Technology adoption
- Tourism
- Waste management, avoidance, and reduction

**SUBMISSION INFORMATION**
Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL’S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at [http://www.igi-global.com/journals/guidelines-for-submission.aspx](http://www.igi-global.com/journals/guidelines-for-submission.aspx) PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:
ZongWei Luo, eic.ijal@gmail.com
All manuscript submissions to IJAL should be sent through the online submission system:
http://www.igi-global.com/authorseditors/titlesubmission/newproject.aspx

EDITOR-IN-CHIEF BIO

ZongWei Luo is a Senior Researcher at the E-Business Technology Institute, The University of Hong Kong (China). Before that, he was working at the IBM TJ Watson Research Center in Yorktown Heights (NY, USA). He also served as the Affiliate Senior Consultant to ETI Consulting Limited. His research has been supported by various funding sources, and his research results have appeared in major international journals and leading conferences with 5 books and over 100 papers published, including an IEEE International Conference best paper award. He is the founding Editor-in-Chief of the International Journal of Applied Logistics and serves as an Associate Editor and Editorial Advisory Board member in many international journals. Dr. Luo’s recent interests include Internet of things and Cloud computing, service science and computing, innovation management and sustainable development, technology adoption and risk management, and e-business model and practices, especially for advanced manufacturing, structural health management, and logistics and supply chain management.
