Rocci Luppicini (University of Ottawa, Canada)

Our social, educational, professional, and political ethics play a significant role in every aspect of our life. As technology continues to influence our society, these principles need to be valued.

Moral, Ethical, and Social Dilemmas in the Age of Technology: Theories and Practice highlights the innovations and developments in the ethical features of technology in society. This comprehensive collection brings together research in the areas of computer, engineering, and biotechnical ethics. These theoretical studies and innovative methodologies are essential for researchers, practitioners and philosophers.

Topics Covered:

- Digital Divide
- Educational Technoethics
- Environmental Technoethics
- Information and Communication Technology
- Research Ethics
- Technoethical Assessment and Evaluation
- Technoethics and Society

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Rocci Luppicini is an associate professor in the Department of Communication at the University of Ottawa (Canada) and acts as the editor-in-chief for the International Journal of Technoethics. He is a leading expert in technology studies (TS) and technoethics. He has published over 25 peer reviewed articles and has authored and edited several books including, Online Learning Communities in Education (IAP, 2007), the Handbook of Conversation Design for Instructional Applications (IGI, 2008), Trends in Canadian Educational Technology and Distance Education (VSM, 2008), the Handbook of Research on Technoethics: Volume I & II (with R. Adell) (IGI, 2008, 2009), Technoethics and the Evolving Knowledge Society: Ethical Issues in Technological Design, Research, Development, and Innovation (2010), Cases on Digital Technologies in Higher Education: Issues and Challenges (with A. Haghi) (IGI, 2010), and Education for a Digital World: Present Realities and Future Possibilities (AAP, in press). His most recent edited work, the Handbook of Research on Technoethics: Identity in a Technological Society: Vol I & II (IGI, in press), to be released in fall 2012, provides the first comprehensive reference work in the English language on human enhancement and identity within an evolving technological society.
