Handbook of Research on Mobile Devices and Applications in Higher Education Settings

Part of the Advances in Mobile and Distance Learning Book Series

Laura Briz-Ponce (University of Salamanca, Spain), Juan Antonio Juanes-Méndez (University of Salamanca, Spain) and Francisco José García-Peñalvo (University of Salamanca, Spain)

Description:

Mobile phones have become an integral part of society, as their convenience has helped democratize and revolutionize communication and the marketplace of ideas. Because of their ubiquity in higher education, undergraduate classrooms have begun to utilize smartphones and tablets as tools for learning.

The Handbook of Research on Mobile Devices and Applications in Higher Education Settings explores and fosters new perspectives on the use of mobile applications in a classroom context. This timely publication will demonstrate the challenges that universities face when introducing new technologies to students and instructors, as well as the rewards of doing so in a thoughtful manner.

Readers:

This book is meant to present the latest research and become a source of inspiration for educators, administrators, researchers, app developers, and students of education and technology.

ISBN: 9781522502562  Release Date: June, 2016  Copyright: 2016  Pages: 450

Topics Covered:

- App-Based Teaching
- Educational App Development
- Information Sharing
- Mobile Communication
- Mobile Curriculum Design
- Mobile Learning
- Student Satisfaction
- Teacher Satisfaction
- Technology-Enhanced Learning

 Hardcover + Free E-Access: $300.00

Table of Contents

Preface

Acknowledgment

Chapter 1
Development Challenges of a Full Integrated app in Higher Education
Prof. Anabela Sousa Pereira, University of Aveiro, Portugal
Prof. António Moreira, University of Aveiro, Portugal
Dr. Paulo Chalé, University of Aveiro, Portugal
Prof. Luis Sancho, University of Aveiro, Portugal
Dr. Ana Varela, University of Aveiro, Portugal
Dr. Carla Oliveira, University of Aveiro, Portugal

Chapter 2
Do Mobile Technologies have a place in Universities? The TAM Model in Higher Education
José Carlos Sánchez Prieto, University of Salamanca, Spain
Susana Olmos-Miguélez, University of Salamanca, Spain
Francisco José García-Peñalvo, University of Salamanca, Spain

Chapter 3
Information Sharing and Communications with Mobile Cloud Technology-Applications and Challenges
Shantanu Pal, the University of St. Andrews, UK

Chapter 4
Framework to Develop a Learning Analytics System for Smartphone Blended Learning Environment
Mazharuddin Syed Ahmed, University of Canterbury, New Zealand

Chapter 5
Net Generation Features that Enhance Mobile Learning
María Soledad Padrón Mootcezuma, Sistema Educativo Estatal Regular, Mexico
Miguel Ángel Vásquez Ochoa, Universidad Estatal de Sonora, Mexico
María Soledad Montoya Ramírez, Tecnológico de Monterrey, Mexico

Chapter 6
Academic Libraries’ Mobile Initiatives and Research from 2010 to the Present: Identifying Themes in the Literature
Barbara Billmeyer, Center for Computing Sciences, US
Jeffrey M. Kenton, Towsen University, US

Chapter 7
The Global Change App: The Creative Transformation of Scientific Research
Stephanie B. Borrell, Auckland University of Technology, New Zealand
Dr. Stanley Friell, Auckland University of Technology, New Zealand
Dr. Roman Asshoff, Zentrum für Didaktik der Biologie, Germany
Dr. Sebastian Leuzinger, Auckland University of Technology, New Zealand

Chapter 8
Virtual Territorial Heritage in Education through Mobile Learning resources: Cities of Salamanca Spain and Santiago of Chile
Jorge Joo Nagata, Universidad Metropolitana de ciencias de la Educación, Chile
Dr. José Rafael García-Bermejo Giner, University of Salamanca, Spain
Dr. Fernando Martínez-Abad, University of Salamanca, Spain

Chapter 9
A research contribution to the analysis of mobile devices in higher education from medical students’ point of view
Laura Brix-Ponce, University of Salamanca, Spain
Juan Antonio Juanes-Méndez, University of Salamanca, Spain
Francisco José García-Peñalvo, University of Salamanca, Spain

Chapter 10
Bespoke Mobile Application Development: Facilitating Transition of Foundation Students to Higher Education.
Nevin Bermingham, Dublin Institute of Technology, Ireland
Dr. Mark Prendergast, Trinity College Dublin, Ireland

Chapter 11
The Effect of using Mobile Devices on Students’ Performance in Writing
Marielle Patronis, Zayed University, United Arab Emirates

Chapter 12
Student Use of Cell Phones to Conduct Real-Time Polling
Dr. Sheri Stover, Wright State University, US
Dr. Carol Pattu, Wright State University, US
Dr. Roxanne DuVivier, Wright State University, US

Chapter 13
Universities’ Point of view to Introduce Mobile Devices in their Classrooms: Re-defining Education using a Common Mobile Platform: The Journey through implementation
Dr. Victoria Cardullo, Auburn University, US
LeNessa L. Clark, Auburn University, US

Chapter 14
Mobile Journalism, Cellphilsms and the Use of the StoryMaker Multimedia Software at a Zimbabwean Media Training University
Nhoma Anthony Mhiripiri, Midlands State University, Zimbabwe
Osweled Uroke, Midlands State University and University of KwaZulu, Zimbabwe and South Africa

Chapter 15
STUMP: a model for the adoption, implementation and use of m-learning or e-learning platform.
Nana Kofi Annan, Wisconsin International University College, Ghana

Chapter 16
The Impact of Social Media on Instruction in Higher Education
Dr. Pamela A. Lemoine, Columbus State University, US
Dr. Paul Thomas Hackett, Columbus State University, US
Dr. Michael D. Richardson, Columbus State University, US

Chapter 17
Mobile Learning among Students and Lectures in the Developing World: Perceptions Using the UTAUT Model.
Lenandial Singh, University of Guyana, Guyana
Dr. Troy Devon Thomas, University of Guyana, Guyana
Kemuel O. Gaffar, University of Guyana, Guyana
Dwayne Renville, University of Guyana, Guyana

Chapter 18
Engaging Students to Learn Physics and Mathematics through Short High Quality M-Learning Resources: Design and Implementation Recommendations
Dr. Luis Neri, Tecnologico de Monterrey, Mexico
Dr. Julieta Nogues, Tecnologico de Monterrey, Mexico
Jessica Morales Whitney, Pitzer, Mexico
Gerardo Aguilar-Sanchez, Tecnologico de Monterrey, Mexico

Chapter 19
Applied competences for students by using m-learning devices in Higher Education: Knowledge, skills and attitudes
José Alberto Herrera, Tecnologico de Monterrey, Mexico
Dr. Darinka del Carmen Ramírez Hernández, Tecnologico de Monterrey, Mexico
Dr. Maria Soledad Ramírez, Tecnologico de Monterrey, Mexico

Chapter 20
Exploring the use of mobile devices and applications to support Field Experience in Teacher Education Courses
Dr. Yuichi Lai, The Hong Kong Institute of Education, China
Dr. Pui-wan Pamela LEUNG, The Hong Kong Institute of Education, China
Dr. Tak-wah WONG, the Hong Kong Institute of Education, China
Tze-leung Raymond YUEN, The Hong Kong Institute of Education, China

Chapter 21
Instructor Perceptions and Intentions to Use a Tablet PC for Mobile Learning in a Ghanaian University: An Exploratory Case Study
Dr. Stephen Asunka, Ghana Technology University College, Ghana

About the Contributors
Laura Briz Ponce has a Bachelor Degree of Engineering of Telecommunications from Technical University of Madrid. She also holds a Master Degree of Business Administration from IE Business School. Currently is conducting a research study in the University of Salamanca as part of her PhD Programme. She has developed her professional life in telecommunications sector, working as Project Manager and Product Manager. Her main research interests are m-learning, mobile technologies, Computers & Education, Medical Education, Higher Education and medical imaging technologies. In addition, she has participated in different congress and she is a reviewer of several international journals.

Juan Antonio Juanes Méndez is a permanent lecturer at the University of Salamanca, where he obtained his PhD in Medicine and Surgery, and a Software Technician by the Pontificia University of Salamanca. He is a member of the Experts' Board in ACADEMIA programme (Health Science Field), in the National Programme of Accreditation for Permanent Lecturers in Health Sciences, at the National Agency of Quality Assessment and Accreditation (ANECA). He is a professor of Human Anatomy and teaches at the Medicine, Psychology and Pharmacy Faculties. He teaches as well in different Master's programmes: Neurosciences, Clinical Neuropsychology and Communication and Information Technologies in Education. Moreover, he is also a teacher of the University Postgraduate Course on Dementia and Alzheimer diseases. Master en Física y Tecnología Médica. He has been invited to take part in the Scientific Committee on Information and Communication Technologies (ICTs) in the Spanish Review of Medical Radiology. He coordinates the official research group Advanced Medical Visualization Systems, at the University of Salamanca; and collaborated with the research group: Grup d'Anatomia Virtual i de Simulació, del Centre de Recursos per a l'Aprenentatge i la Investigació, at the University of Barcelona. He has participated as director and collaborator in more than 30 funded research and innovation projects. He has been awarded with 14 research and teaching awards from Royal Medicine Academies and other national institutions. He is a co-author of 20 books of teaching kind. He has collaborated in different projects involving diverse medical and university centres of Spain. He has published more than 170 articles in international and national academic journals, and has delivered more than 350 papers at international and national conferences. The moment being, he has supervised 30 doctoral theses. He has delivered more than 60 lectures in courses, days and symposia. He has been a chair in sessions and round tables at different Conferences and Simposia.

Francisco J. García-Peñalvo holds a PhD in Computer Science (2000, University of Salamanca). He works as a Professor in Computer Science Department of the USAL. He is the GRIAL Group head. He was Technology and Innovation pro-Chancellor of the USAL in charge of the definition, planning and development of the USAL technical management strategy based on Open Source solutions. He has leaded MIH, TRAILER and VALS European projects. Now, he is the Editor-in-Chief of the International Journal of Information Technology Research and the Education in the Knowledge Society Journal. Besides he is the coordinator of the multidisciplinary PhD Programme on Education in the Knowledge Society.
