Productivity Management
and Assessment
Technologies (IJPMAT)

ISSN: 2160-9837; EISSN: 2160-9845
Established 2012, Published Semi-Annually

Editor(s)-in-Chief: Bryan Christiansen (PryMarke, LLC, USA) and
Erkan Sezgin (Anadolu University, Turkey)

The International Journal of Productivity Management and Assessment Technologies (IJPMAT) publishes new research, innovations, developments, and ideas in the areas of productivity, efficiency, and performance measurement and management, including new techniques, approaches, and related reflective analysis designed to improve individual, group, and organizational performance. The journal provides an interactive and global discussion forum for academics, professionals, and practitioners working and interested in the research and practice of productivity, efficiency, and performance measurement and management. This multidisciplinary journal draws from the fields of economics, econometrics, management, statistics, production, information technology, marketing, accounting, supply chain, and organizational behavior.
