Digital Crime and Forensics (IJDCF)

ISSN: 1941-6210; EIISSN: 1941-6229
Established 2009; Published Quarterly

Editor(s)-in-Chief: Weiqi Yan (Auckland University of Technology, New Zealand)

The International Journal of Digital Crime and Forensics (IJDCF) provides state-of-the-art coverage in the development of legal evidence found in computers and electronic storage mediums. IJDCF addresses the use of electronic devices and software for crime prevention, investigation, and the application of a broad spectrum of sciences to answer questions of interest to the legal system. This fully refereed journal contains high quality theoretical and empirical research articles, research reviews, case studies, book reviews, tutorials, and editorials in this field.

Individual Pricing
Print + Free E-Access: $260.00
E-Access Only: $245.00

Institution Pricing
Print + Free E-Access: $725.00
E-Access Only: $685.00

Topics Covered:
- Computational approaches to digital crime prevention
- Computer Forensics
- Crime Scene Imaging
- Criminal investigative criteria and standard procedure on computer crime
- Cryptological techniques and tools for crime investigation
- Data carving and recovery
- Digital document examination
- Digital evidence
- Digital signal processing techniques for crime investigations
- Identity theft and biometrics
- Information Warfare
- Machine learning, data mining, and information retrieval for crime prevention and forensics
- Malicious Codes
- Network access control and intrusion detection
- Policy, standards, protocols, accreditation, certification, and ethical issues related to digital crime and forensics
- Practical case studies and reports, legislative developments, and limitations, law enforcement
- Small digital device forensics (cell phones, smartphone, PDAs, audio/video devices, cameras, flash drives, gaming devices, GPS devices, etc.)
- Steganography and steganalysis
- Terrorism knowledge portals and databases
- Terrorism related analytical methodologies and software tools
- Terrorist incident chronology databases
- Watermarking for digital forensics

SUBMISSION INFORMATION
Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL’S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://www.igi-global.com/journals/guidelinesforsubmission.aspx PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:
Weiqi Yan, weiqi.yan@aut.ac.nz

All manuscript submissions to IJDCF should be sent through the online submission system:
http://www.igi-global.com/authorseditors/titlesubmission/newproject.aspx
Dr. Weiqi Yan is a senior lecturer at the Auckland University of Technology in New Zealand. His research areas include intelligent forensics, intelligent surveillance, intelligent network and computing security, with publications that covered the majority of journals and conferences within his research area. Dr. Yan has supervised over 100 students including research visitors/postdoctoral fellows, he is a fellow of the Higher Education Academy (UK), a senior member of the IEEE, TC members of the IEEE, a member of the ACM, and an associate editor of two international journals. Dr. Yan’s TPC services covered the major conferences of his research area Dr. Yan is also a guest professor with PhD supervision of the State Key Laboratory of Information Security (SKLIS) China. Dr Yan has long-standing collaborations with those world famous computer scientists from USA, UK, Singapore, and China.
