Advancing Collaborative Knowledge Environments: New Trends in E-Collaboration

Ned Kock (Texas A&M International University, USA)

Effective technologies and tools for e-collaboration are central to the development and evolution of modern work and educational landscapes. Studies on the design, implementation, and evaluation of e-collaboration applications help individuals and businesses in their pursuit of effective tools for increasingly virtual modes of communication.

Advancing Collaborative Knowledge Environments: New Trends in E-Collaboration discusses the latest findings in knowledge-intensive, collaborative environments, focusing on frameworks and solutions for improving collaboration online. Uniting research on the effectiveness of instant messaging, the role of presence and awareness in real-time collaboration, and other key concepts, this reference is useful for those interested in frameworks for new collaboration technologies, as well as existing users of new technologies and applications.

Topics Covered:

- Collaborative Performance
- Collaborative Working Environments
- Distributed Collaboration
- Global Software Teams
- Knowledge-Intensive Work Processes
- Mobile Collaboration Technologies
- Real-Time Collaboration
- Self-Regulation in Instant Messaging
- Trust Development in Business
