Enterprise Information Systems: Concepts, Methodologies, Tools and Applications

Information Resources Management Association, USA

The continual development and refinement of enterprise information systems is essential for organizational advancement.

Enterprise Information Systems: Concepts, Methodologies, Tools and Applications investigates the creation and implementation of enterprise information systems. Covering a wide array of topics such as flow-shop scheduling, information systems outsourcing, ERP systems utilization, Dietz transaction methodology, and advanced planning systems, it is an essential reference source for researchers and professionals alike.

Topics Covered:

- Business process reengineering
- Customer relationship management (CRM)
- Design, development, and outsourcing of ERP projects
- E-Commerce (B2B and B2C) and ERP
- Enterprise resource planning
- Enterprise-wide client-server architecture
- ERP implementation and organizational and systems issues
- Knowledge-based systems engineering
- Modeling concepts and information integration tools
- Strategic management information systems

Print: US $1845.00 | Perpetual: US $2765.00 | Print + Perpetual: US $3690.00

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Information Resources Management Association (IRMA) is a research-based professional organization dedicated to advancing the concepts and practices of information resources management in modern organizations. IRMA’s primary purpose is to promote the understanding, development and practice of managing information resources as key enterprise assets among IRM/IT professionals. IRMA brings together researchers, practitioners, academicians and policy makers in information technology management from over 50 countries.
