Operations Research and Information Systems (IJORIS)

ISSN: 1947-9328; EISSN: 1947-9336
Established 2010; Published Quarterly

Editor(s)-in-Chief: John Wang (Montclair State University, USA)

IJORIS examines current, state-of-the art advances in the interactions, linkages, applications, and support of operations research with information systems. Covering emerging theories, principles, models, processes, and applications within the field, this journal provides practitioners, educators, and researchers with an international collection of all operations research facets.

Topics Covered:
- Computational intelligence
- Computing and information technologies
- Continuous and discrete optimization
- Decision analysis and decision support
- Education
- Engineering management
- Environment, energy, and natural resources
- Financial engineering
- Government
- Heuristics
- Industrial engineering
- Information management
- Information technology
- Inventory management
- Knowledge management
- Logistics and supply chain management
- Maintenance
- Manufacturing industries
- Marketing engineering
- Markov chains
- Mathematics
- Military and homeland security
- Networks
- Operations management
- Organizational behavior
- Planning and scheduling
- Policy modeling and public sector
- Political science
- Production management
- Psychology
- Queuing theory
- Revenue & risk management
- Services management
- Simulation
- Sociology
- Sports
- Statistics
- Stochastic models
- Strategic management
- Systems engineering
- Telecommunications
- Transportation

Individual Price:
- E-Journal: US $175.00
- Print: US $260.00
- Print + E-Journal: US $345.00

Institution Price:
- Print: US $725.00
- Online Access: US $725.00
- Print + Online Access: US $1,040.00
- Institution Online Access Backfile: US TBD

Prices are subject to change without notification.

EDITOR-IN-CHIEF BIO

John Wang is a professor in the Department of Information & Operations Management at Montclair State University, USA. Having received a scholarship award, he came to the USA and completed his PhD in operations research from Temple University. Due to his extraordinary contributions beyond a tenured full professor, Dr. Wang has been honored with a special range adjustment in 2006. He has published over 100 refereed papers and seven books. He has also developed several computer software programs based on his research findings.

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal’s guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
John Wang, journalswang@gmail.com
