Systems and Service-Oriented Engineering (IJSSOE)

ISSN: 1947-3052; EISSN: 1947-3060
Established 2010; Published Quarterly

Editor(s)-in-Chief: Dickson K.W. Chiu (The University of Hong Kong, Hong Kong)

IJSSOE brings together researchers from various fields, enriches their knowledge in related disciplines, and stimulates advancements in innovative findings and practices. Targeting theoreticians, educators, developers, researchers, practitioners, and professionals, this journal covers the challenges of system theories, model driven software engineering, and ontologies for software engineering into a systematic method for engineering service oriented systems.

Topics Covered:

Emerging technologies
- Cloud computing
- Emerging system architectures
- Grid, autonomous, and peer-to-peer systems
- Services and systems in new application domains
- Social and legal issues of emerging technologies
- Software as a service (SaaS) and utility computing
- Virtualization, virtual systems, and virtual communities
- Web X.0

Intelligence computing for systems and services
- Agent based technologies
- Computational intelligence and soft computing
- Genetic algorithms and evolutionary computing
- Intelligent in service management and operations
- Machine learning and cybernetics
- Ontology and Semantic Web services
- Planning and optimization
- Trust, reputation, security, forensic, and privacy

Knowledge engineering for systems and services
- Content, multimedia, and metadata management
- Decision support and strategic information systems
- Design management and engineering management
- Electronic education and training
- Integration of research and practice
- Knowledge acquisition, discovery, integration and engineering, and representation and architecture
- Service adoption and diffusion
- Service personnel and workforce management

Systems engineering and services engineering
- Communications, control, and integration
- Engineering processes and methodologies
- Exception handling, uncertainty, and risk management
- Infrastructure systems and services
- Mobile, ubiquitous, and pervasive systems and services
- Reliability and quality engineering
- Self-organizing systems and complex systems

Individual Price:
- E-Journal: US $175.00
- Print: US $260.00
- Print + E-Journal: US $345.00

Institution Price:
- Print: US $725.00
- Online Access: US $725.00
- Print + Online Access: US $1,040.00
- Institution Online Access Backfile: US TBD

Prices are subject to change without notification.

EDITOR-IN-CHIEF BIO

Dickson K.W. Chiu received the BSc (Hons.) degree in Computer Studies from the University of Hong Kong in 1987. He received the MSc (1994) and the PhD (2000) degrees in Computer Science from the Hong Kong University of Science and Technology (HKUST). He started his own computer company while studying part-time. He has also taught at several universities in Hong Kong. His research interest is in service computing with a cross-disciplinary approach, involving workflows, software engineering, information technologies, agents, information system management, security, and databases.

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal’s guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Dickson K.W. Chiu, dicksonchiu@gmail.com
