Information Technology and Web Engineering (IJITWE)

ISSN: 1554-1045; EISSN: 1554-1053
Established 2006; Published Quarterly

Editor(s)-in-Chief: Ghazi I. Alkhatib (Princess Sumaya University for Technology, Jordan)

Organizations are continuously overwhelmed by a variety of new information technologies, many are Web based. These new technologies are capitalizing on the widespread use of network and communication technologies for seamless integration of various issues in information and knowledge sharing within and among organizations. This emphasis on integrated approaches is unique to this journal and dictates cross platform and multidisciplinary strategy to research and practice.

Individual Pricing
Print + Free E-Access: $260.00
E-Access Only: $245.00

Institution Pricing
Print + Free E-Access: $725.00
E-Access Only: $685.00

Topics Covered:

- Case Studies Validating Web-Based IT Solutions
- Competitive/Intelligent Information Systems
- Data Analytics for Business and Government Organizations
- Data and Knowledge Capture and Quality Issues
- Data and Knowledge Validation and Verification
- Human Factors and Cultural Impact of IT-Based Systems
- Information Filtering and Display Adaptation Techniques for Wireless Devices
- Integrated heterogeneous and homogeneous workflows and databases within and across organizations, suppliers, and customers
- Integrated User Profile, Provisioning, and Context-Based Processing
- IT Education and Training
- Knowledge Structure, Classification, and Search Algorithms or Engines
- Metrics-Based Performance Measurement of IT-Based and Web-Based Organizations
- Mobile, Location-Aware, and Ubiquitous Computing
- Ontology and Semantic Web Studies
- Quality Of Service and Service Level Agreement Issues Among Integrated Systems
- Radio Frequency Identification (RFID) Research and Applications in Web Engineered Systems
- Security, Integrity, Privacy, and Policy Issues
- Software Agent-Based Applications
- Strategies for Linking Business Needs and IT
- Virtual Teams and Virtual Enterprises: Communication, Policies, Operation, Creativity, and Innovation
- Web systems architectures, including distributed grid computers and communication systems processing
- Web Systems Engineering Design
- Web Systems Performance Engineering Studies
- Web User Interfaces Design, Development, and Usability Engineering Studies

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL’S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://www.igi-global.com/journals/guidelines-for-submission.aspx PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:
Ghazi I. Alkhatib, Alkhatib@psut.edu.jo
All manuscript submissions to UJITWE should be sent through the online submission system:
http://www.igi-global.com/authorseditors/titlesubmission/newproject.aspx

EDITOR-IN-CHIEF BIO

Ghazi Alkhatib is an Assistant Professor of Software Engineering at the College of Computer Science and Information Technology, Applied Science University located in Amman, Jordan. In 1984, he obtained his Doctor of Business Administration from Mississippi State University in Information Systems with minors in Computer Science and Accounting. Since then, he has been engaged in teaching, consulting, training, and research in the area of Computer Information Systems in the US and Gulf countries. In addition to his research interests in databases and systems analysis and design, he has published several articles and presented many papers in regional and international conferences on software processes, knowledge management, e-business, Web services, and agent software, workflow, and portal/grid computing integration with Web services.
