Software Development Techniques for Constructive Information Systems Design

Khalid A. Buragga (King Faisal University, Saudi Arabia) and Noor Zaman (King Faisal University, Saudi Arabia)

Software development and information systems design have a unique relationship, but are often discussed and studied independently. However, meticulous software development is vital for the success of an information system.

Software Development Techniques for Constructive Information Systems Design focuses the aspects of information systems and software development as a merging process. This reference source pays special attention to the emerging research, trends, and experiences in this area which is bound to enhance the reader’s understanding of the growing and ever-adapting field. Academics, researchers, students, and working professionals in this field will benefit from this publication’s unique perspective.

Topics Covered:
- Life Cycle of Information Systems & Software Development
- Managing Software Development
- Project Planning
- Software and Systems Design
- Structural Testing
- Systems & Software Engineering
- Web Technologies & Engineering

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

Khalid A. Buragga is an Associate Professor of Information Systems department in the college of Computer Sciences and Information Technology at King Faisal University, Hofuf, Saudi Arabia. He received his B.Sc. in Computer Information Systems from King Faisal University. And, he received his M.Sc. in Computer Information Systems from University of Miami, USA, and the Ph.D. in Information Technology from George Mason University, USA. His research interests include software design, software development, software quality, software reliability, E-Commerce and web development, Business Process Re-engineering (BPR), communications, networking and signal processing, and integrating systems.
Section 1: Software Development Methodologies and Techniques

Chapter 1
Determining the Requirements for E-Selection in a Small Recruitment Company
Bonarouk Tanya (University of Twente, The Netherlands)
Rui Huah J. M. (Windsor University of Applied Sciences, The Netherlands)
Timmermann Paul (University of Twente, The Netherlands)

Chapter 2
A Constructive Approach for Conceptual Database Design
Locurato Elvira (ISTI Consiglio Nazionale delle Ricerche, Italy)

Chapter 3
A Survey on Secure Software Development Lifecycle
Fontana José (DEI/CISUC, University of Coimbra/UDI, Polytechnic Institute of Guarda, Portugal)
Vieira Marco (DEI/CISUC, University of Coimbra, Portugal)

Chapter 4
Quality Practice for Managing Software Development in Information Systems
Hani Syeda Emee (GSEEI, Hamdard University, Pakistan & Sir Syed University of Engineering & Technology, Pakistan)

Chapter 5
Project Management and Diagramming Software
Rapsing Rizal (King Faisal University, Kingdom of Saudi Arabia)

Chapter 6
Software Development Methodologies for Cloud Computing
Alsmadi Izzat (Yarmouk University, Jordan)

Chapter 7
Information System and System Development Life Cycle
Sethi Morika (Panjgh University, India)
Sharma Anju (Texas A&M University, USA)

Chapter 8
Towards a Theoretical "Cybernetic" Framework
Nikolaos Pellas (University of the Aegean, Greece)

Chapter 9
Information Systems and Software Development
Anish Ashad (Institute of Business Administration, Pakistan)

Chapter 10
Toward Agile Interactive Software Development Process Models for Crowd Source Projects
Alsmadi Izzat (Yarmouk University, Jordan)
Saeed Saqib (Bahria University, Pakistan)

Chapter 11
Software Development Techniques for Constructive Information Systems
Jesmin Runa (Imperial College London, UK & Harefield Hospital, UK)

Section 2: Advanced Topics in Software Engineering

Chapter 12
Software Security Engineering – Part I
Taoe Issa (University of Victoria, Canada)
Woungang Isaac (Ryerson University, Canada)

Chapter 13
Software Security Engineering – Part II
Taoe Issa (University of Victoria, Canada)
Woungang Isaac (Ryerson University, Canada)

Chapter 14
A Comparative Analysis of Software Engineering Approaches for Sequence Analysis
Ahmad Muneer (King Faisal University, Saudi Arabia)
Zaman Noor (King Faisal University, Saudi Arabia)

Chapter 15
Development of Enterprise Content Management Systems:
Alawia Jaffar Ahmad (Institute of Public Administration, Dammam, Saudi Arabia)

Chapter 16
Fault Tree Analysis (FTA) vs Binary Decision Diagram (BDD) for Information System Design
Mártinez Fausto Pedro García (University of Castilla-La Mancha, Spain)
Mangarín Alberto Pliego (University of Castilla-La Mancha, Spain)

Chapter 17
Developing Semantic Web Applications
Ilyas Qazi Madassar (King Faisal University, Saudi Arabia)

Chapter 18
Knowledge Management
Siddiqi Ashad (Institute of Business Administration, Pakistan)

Chapter 19
A Software Engineering Approach for Access Control to Multi-Level-Security Documents
Ahmad Muneer (King Faisal University, Saudi Arabia)
Zaman Noor (King Faisal University, Saudi Arabia)

Chapter 20
Trends in Information Security
Chakraborty Partha (Cognizant Technology Solutions, India)
Raghuraman Krishnamurthy (Cognizant Technology Solutions, India)

Chapter 21
Constructive Knowledge Management Model and Information Retrieval Methods for Software Engineering
Vout Zeyar (Masdar Institute of Science and Technology, UAE)
Nyunt Khane Khane (King Faisal University, Kingdom of Saudi Arabia)

Chapter 22
Modelling Transparency in Software Systems for Distributed Work Groups
Sagar A B (Hyderabad Central University, India)

Chapter 23
Ontology-Augmented Software Engineering
Ilyas Qazi Madassar (King Faisal University, Saudi Arabia)
