Handbook of Research on Public
Finance in Europe and the MENA Region

Part of the Advances in Public Policy and Administration Book Series

M. Mustafa Erdogdu (Marmara University, Turkey), Bryan Christiansen (PryMarke, LLC, USA)

Description:

Since the 1970s, globalization has created an economic environment of interdependency between nations. Now, many countries in European and the MENA (Middle East and Northern Africa) regions must grapple with the need to increase public revenue while maneuvering through a global “race-to-the-bottom” tax competition.

The Handbook of Research on Public Finance in Europe and the MENA Region explores economic development and public finance by providing critical insight into the use of public finance and policy and illuminating the intricacies of these topics through discussion of theory, empirical work, and policy objectives.

Readers:

This book is ideally designed for business professionals, policy makers, financers, students and researchers in the fields of public policy and economics.

Topics Covered:

- Financial Sustainability
- Good Governance
- Government Expenditure Growth
- Political Competition
- Public Investment
- Public Spending
- Shadow Economy
- Tax Administration
- Tax Reform
