Released: October 2013

Emerging Research and Trends in Interactivity and the Human-Computer Interface

Part of the Advances in Human and Social Aspects of Technology Book Series Book Series

Katherine Blashki (Noroff University, Norway) and
Pedro Isaias (Portuguese Open University, Portugal)

With a variety of emerging and innovative technologies combined with the active participation of the human element as the major connection between the end user and the digital realm, the pervasiveness of human-computer interfaces is at an all time high.

Emerging Research and Trends in Interactivity and the Human-Computer Interface addresses the main issues of interest within the culture and design of interaction between humans and computers. By exploring the emerging aspects of design, development, and implementation of interfaces, this book will be beneficial for academics, HCI developers, HCI enterprise managers, and researchers interested in the progressive relationship of humans and technology.

Topics Covered:

- Emerging Technologies
- Creativity Support Systems
- Design Approaches
- Human-Computer Interface
- Interactivity
- Sensory Applications
- Transmedia Applications

ISBN: 9781466646230; © 2014; 412 pp.

Print: US \$175.00 | Perpetual: US \$265.00 | Print + Perpetual: US \$350.00

Pre-pub Discount:*

Print: US \$165.00 | Perpetual: US \$250.00
