Improving Health Management through Clinical Decision Support Systems
Jane Moon and Mary Galea.

Table of Contents
Section 1
Chapter 1
   Jane Dominique Moon, University of Melbourne, Australia
   Mary Galea, University of Melbourne, Australia

Chapter 2
Online Spatial HIV/AIDS Surveillance and Monitoring System for Nigeria
   Peter Adebayo Idowu, Obafemi Awolowo University, Nigeria

Chapter 3
Pain Assessment through Facial Expression
   Sanjay Kumar Singh, Indian Institute of Technology, India
   S.K. Singh, Indian Institute of Technology, India
   V. Rastogi, Institute of Medical Science, India

Chapter 4
Developing SMS Health Messages for Pregnant Indigenous Australians, Using
   Persuasive Technology
   Reece George, University of Newcastle, Australia

Chapter 5
A Predictive Analytic Model for Maternal Morbidity
   Edgardo Palza, Esan University, Peru
   Jorge Sanchez, Universidad Peruana Union, Peru
   Guillermo Mamani, Universidad Peruana Union, Peru
   Percy Pacora, Hospital Nacional Docente Madre Niño “San Bartolomé,” Peru
   Alain Abran, Universite du Quebec, Canada
   Jane Moon, University of Melbourne, Australia

Chapter 6
St. Stephen’s Hospital Hervey Bay – Study of Developing a Digital Hospital
   Constance A. Harmsen, Uniting Care Health, Australia
   Richard N. Royle, Uniting Care Health, Australia
Chapter 7
Developing a National Registry for Hemochromatosis
  Janelle Guerrero, Griffith University, Australia
  Michael J. Simmonds, Griffith University, Australia
  Indu Singh, Griffith University, Australia

Section 2
Chapter 8
Integration of Automation and Clinical Decision Support Systems
  Ronnel Nallas, Austin Health, Australia
  Jane Moon, University of Melbourne, Australia

Chapter 9
From the Margins to the Mainstream: Clinical Costing for Clinical Improvement
  Ronald Ma, Austin Health, Australia

Chapter 10
Clinical Decision Support: Right Approaches Ensure Improved Clinical, Cost and Efficiency Gains
  Steven Shaha, Center for Policy and Public Administration, USA

Chapter 11
Leverage Healthcare Data Assets with Predictive Analytics: The example of an Australian Private Hospital
  Nilmini Wickramasinghe, RMIT University, Australia
  Hoda Moghimi, Epworth HealthCare and RMIT University, Australia
  Jonathan L. Schaffer, Cleveland Clinic, USA

Section 3
Chapter 12
Mining Electronic Health Records to Guide and Support Clinical Decision Support Systems
  Jutendra Jonnagaddala, University of New South Wales, Australia
  Hong-Jie Dai, Graduate Institute of Biomedical Informatics, Taiwan
  Pradeep Ray, University of New South Wales, Australia
  Slaw-Teng Liaw, University of New South Wales, Australia

Chapter 13
  Jalel Akaichi, University of Tunis, Tunisia
Chapter 14
Data-Driven and Practice-Based Evidence: Design and Development of Efficient and Effective Clinical Decision Support System
   Hamzah Osop, Queensland University of Technology, Australia
   Tony Sahama, Queensland University of Technology, Australia

Chapter 15
Strategic Approach towards Clinical Information Security
   Sangseo Park, University of Melbourne, Australia
   Jane Moon, University of Melbourne, Australia
