# Table of Contents

1. Nanobiotechnology and Therapeutics
2. Polymeric nanoparticles for vaccine delivery
3. Nanomedicine as a newly emerging approach against Multidrug-resistant tuberculosis (MDR-TB)
4. Biomedical Applications of Gold Nanoparticles, Recent Advances and Future Prospects:
5. Microbial Nanotechnology: Mycofabrication of nanoparticles and their novel applications
6. NANOENCAPSULATION OF FOOD INGREDIENTS
7. The Impact of Nanotechnology on Environment
8. Applications of Gold nanoparticles in cancer
9. New horizons of nanotechnology in agriculture and food processing industry
10. Setting priorities for the development of medicinal plants sector in J & K (Kashmir) and their progress towards nanotechnology
11. Role of Bioinformatics in Nanotechnology: An Initiation towards Personalized Medicine
