

Handbook of Research on ePortfolios

Edited by:

Ali Jafari,
Indiana Univ.-Purdue
Univ. Indianapolis, USA

Catherine Kaufman,
ePortConsortium, USA

Key Features

- Authoritative contributions by 104 internationally renowned experts
- A single source for comprehensive information on an expansive field
- In-depth definitions of more than 370 key terms
- Organized by topic and indexed, making it a convenient method of reference for all IT/IS scholars and professionals
- Over 825 references to existing literature and research on ePortfolios
- More than 50 figures depicting critical issues in the field

The **Handbook of Research on ePortfolios** is the single source for comprehensive coverage of the major themes of ePortfolios, addressing all of the major issues, from concept to technology to implementation. It is the first reference publication to provide a complete investigation on a variety of ePortfolio uses through case studies and supporting technologies, and also explains the conceptual thinking behind current uses and potential uses not yet implemented. Over 100 international experts with countless years of experience lend this handbook the credibility that assures its readers of its extensive, recent, and reliable content. The **Handbook of Research on ePortfolios** is the first handbook to investigate commercial and academic ePortfolio systems—homegrown, off the shelf, and open source—and to supply proof-of-concept evidence of successful systems.

Topics Covered

- Career ePortfolios
- Challenges of implementing a successful ePortfolio system
- Development issues
- ePortfolios as collaborative learning spaces
- ePortfolios for knowledge and learning
- ePortfolios in teacher education
- Health professional educators
- Implementing ePortfolios
- Necessary elements for successful implementation
- Opportunities, challenges, and future prospects
- Opportunities offered upon successful implementation
- Professional development
- Using ePortfolios for peer assessment
- Web-based ePortfolios in UK schools
