Topics Covered

- Corporate training with technology
- Decision-making applications of technology
- Identification, harvesting, and application of technology for learning
- Impact of technology integration
- Instructional systems design
- Social implications of technology integration
- Technology employment for human interaction
- Technology in curriculum development
- Technology integration for collaboration
- Technology integration for literacy
- Technology integration for teaching

About the Editor:

Lawrence A. Tomei is the associate vice president of academic affairs and associate professor of education at Robert Morris University. Born in Akron, Ohio, he earned a BSBA from the University of Akron (1972) and entered the US Air Force, serving until his retirement in 1994 as a lieutenant colonel. Tomei completed his MPA and MEd at the University of Oklahoma (1975, 1978) and his EdD from USC (1983). His articles and books on instructional technology include: *Professional Portfolios for Teachers* (1999); *Teaching Digitally: Integrating Technology Into the Classroom* (2001); *Technology Facade* (2002); *Challenges of Teaching with Technology Across the Curriculum* (2003); and *Taxonomy for the Technology Domain* (2005).

Excellent addition to your library! Recommend to your acquisitions librarian.
