

**New Release November 2008****Knowledge Management, Organizational Memory and  
Transfer Behavior: Global Approaches and Advancements**

**Edited by: Murray E. Jennex, San Diego State  
University, USA**

13-digit ISBN: 978-1-60566-140-7

496 pages; 2009 Copyright

Price: US \$195.00 (hardcover\*)

Pre-pub price<sup>§</sup>: US \$180.00

Perpetual Access: US \$295.00

Print +Perpetual Access: US \$390.00

Illustrations: figures, tables (8 1/2" x 11")

Translation Rights: World

\*Paperback is not available. <sup>§</sup>Pre-pub price is good through one month after publication.

**“This is the third volume in the Advances in Knowledge Management Research book series, which is dedicated to publishing top knowledge management (KM) research on an annual basis.”**

**-Murray E. Jennex, San Diego State  
University, USA**

As the business community trends toward placing a greater priority and value conception on organizational knowledge management and memory, organizations worldwide are sharing an increasing urgency in the need for proven technologies and research-based practices to guide their efforts to preserve and realize competitive advantage from their organizational knowledge assets.

**Knowledge Management, Organizational Memory and Transfer Behavior: Global Approaches and Advancements** is a comprehensive, international collection of first-rate research into the field of knowledge management. This book captures an in-depth knowledge base for academia and industry on the most current and useful concepts, applications, and processes relevant to the successful management of knowledge assets.

**Subject:**

Knowledge Management; Business Information Systems; Web Technologies

**Market:**

This essential publication is for all academic and research libraries, as well as all those responsible for developing solutions to improve organizational performance. Researchers, academicians, practitioners, and enterprise managers will also benefit from this authoritative reference, which presents the latest research that focuses on how knowledge management applies in various disciplines.

**Excellent addition to your library! Recommend to your acquisitions librarian.**

# Knowledge Management, Organizational Memory and Transfer Behavior: Global Approaches and Advancements

Edited by: Murray E. Jennex, University of San Diego, USA

## Table of Contents

*Chapter I: Reflections on Knowledge Management Research and Practice*

Murray E. Jennex, University of San Diego, USA

*Chapter II: Knowledge Fusion: A Framework For Extending The Rigor and Relevance of Knowledge Management*

Peter Keen, Nanyang Technological University, Singapore

Margaret Tan, Nanyang Technological University, Singapore

*Chapter III: Tapping Tacit Knowledge*

Hazel Taylor, University of Washington, USA

*Chapter IV: Advances in Knowledge Management: Mapping Ideas that Shape Practice*

Andrea Hornett, Penn State Great Valley, USA

Eric W. Stein, Penn State Great Valley, USA

*Chapter V: Knowledge Chain Activity Classes: Impacts on Competitiveness and the Importance Of Technology Support*

Clyde W. Holsapple, The University of Kentucky, USA

Kiku G. Jones, The University of Tulsa, USA

*Chapter VI: Developing A Knowledge-Based Organizational Performance Model for Improving Knowledge Flows In Discontinuous Organizations*

Rahinah Ibrahim, Universiti Putra Malaysia, Malaysia

Mark Nissen, Naval Postgraduate School, USA

*Chapter VII: Accountability and Ethics in Knowledge Management*

Frank Land, London School of Economics, UK

Urooj Amjad, London School of Economics, UK

Sevasti-Melissa Nolas, London School of Economics, UK

*Chapter VIII: Social Capital and Knowledge Sharing in Knowledge-based Organisations: An Empirical Study*

Chay Yue Wah, SIM University, Singapore

Thomas Menkhoff, Singapore Management University, Singapore

Benjamin Loh, Fitzwilliam College, UK

Hans-Dieter Evers, University of Bonn, Germany

*Chapter IX: A Structured Method for Evaluating the Management of a Knowledge Management System Implementation*

Charlie C. Chen, Appalachian State University, USA

Rong-An Shang, Appalachian State University, USA

Albert Harris, Appalachian State University, USA

Zhi-Kai Chen, ASUSTek Computer, Inc., Taiwan

*Chapter X: Towards a Consensus Knowledge Management Success Definition*

Murray E. Jennex, University of San Diego, USA

Stefan Smolnik, European Business School, Germany

David T. Croasdell, University of Nevada, Reno, USA

*Chapter XI: An Evaluation of Factors that Influence the Success of Knowledge Management Practices in US Federal Agencies*

Elsa Rhoads, Pension Benefit Guaranty Corporation, USA

Kevin J. O'Sullivan, New York Institute of Technology, USA

Michael Stankosky, The George Washington University, USA

*Chapter XII: Interdepartmental Knowledge Transfer Success during Information Technology Projects*

Kevin Laframboise, Concordia University, Canada

Anne-Marie Croteau, Concordia University, Canada

Anne Beaudry, Concordia University, Canada

Mantas Manovas, Concordia University, Canada

*Chapter XIII: Improving KMS Acceptance: The Role Of Organizational And Individuals' Influence*

Claudio Vitari, CETIC Università Carlo Cattaneo, Italy

Jennifer Moro, CETIC Università Carlo Cattaneo, Italy

Aurelio Ravarini, CETIC Università Carlo Cattaneo, Italy

Carlo Cattaneo, CETIC Università Carlo Cattaneo, Italy

Isabelle Bourdon, CETIC Università Carlo Cattaneo, Italy

*Chapter XIV: An Empirical Assessment of the Performance Impacts of IS Support for Knowledge Transfer*

Michael J. Zhang, Sacred Heart University, USA

*Chapter XV: Chinese Culture and Virtual Knowledge Sharing in a Multi-national Corporation*

Wei Li, University of Illinois, USA

Alexandre Ardichivili, University of Minnesota, USA

Martin Maurer, University of Illinois, USA

Tim Wentling, University of Illinois, USA

Reed Stuedemann, Caterpillar University, USA

*Chapter XVI: Selecting the Right Knowledge Management Tools: Software Trends and Key Evaluation Criteria*

Gilles Balmisse, KnowledgeConsult, France

Denis Meingan, KnowledgeConsult, France

Katia Passerini, New Jersey Institute of Technology, USA

*Chapter XVII: Knowledge Patterns and Knowledge Refactorings for Increasing the Quality of Knowledge*

Jörg Rech, Fraunhofer Institute for Experimental Software Engineering, Germany

Björn Decker, Fraunhofer Institute for Experimental Software Engineering, Germany

Eric Ras, Fraunhofer Institute for Experimental Software Engineering, Germany

Andreas Jedlitschka, Fraunhofer Institute for Experimental Software Engineering, Germany

Raimund L. Feldmann, Fraunhofer USA, Center for Experimental Software Engineering, USA

*Chapter XVIII: Knowledge Elicitation And Mapping: Ontology As An Instrument Of Design And Organizational Learning*

Paul Jackson, Edith Cowan University, Australia

Ray Webster, Murdoch University, Australia

*Chapter XIX: Helping to Develop Knowledge Management Systems by Using a Multi-Agent Approach*

Aurora Vizcaíno, University of Castilla-La Mancha, Spain

Juan Pablo Soto, University of Castilla-La Mancha, Spain

Javier Portillo-Rodríguez, University of Castilla-La Mancha, Spain

Mario Piattini, University of Castilla-La Mancha, Spain

*Chapter XX: Adopting the Grid Computing & Semantic Web Hybrid for Global Knowledge Sharing*

Mirghani Mohamed, New York Institute of Technology, USA

Michael Stankosky, The George Washington University, USA

Vincent Ribière, Graduate School Bangkok University, Thailand

*Chapter XXI: The Effect of Knowledge Process Capabilities and Knowledge Infrastructure Capabilities on Strategy Implementation Effectiveness*

Sineenad Paisittanand, Bangkok University, Thailand

L. A. Digma, University of Nebraska, USA

Sang M. Lee, University of Nebraska, USA

## About the Editor:

**Murray E. Jennex** is an associate professor at San Diego State University, editor in chief of the *International Journal of Knowledge Management*, editor in chief of IGI Global book series, co-editor in chief of the *International Journal of Information Systems for Crisis Response and Management*, and president of the Foundation for Knowledge Management (LLC). Dr. Jennex specializes in knowledge management, system analysis and design, IS security, e-commerce, and organizational effectiveness. Dr. Jennex serves as the knowledge management systems track co-chair at the Hawaii International Conference on System Sciences. He is the author of over 100 journal articles, book chapters, and conference proceedings on knowledge management, end user computing, international information systems, organizational memory systems, e-commerce, security, and software outsourcing. He holds a BA in chemistry and physics from William Jewell College, an MBA and a MS in software engineering from National University, an MS in telecommunications management, and a PhD in information systems from the Claremont Graduate University. Dr. Jennex is also a registered professional mechanical engineer in the state of California and a Certified Information Systems Security Professional (CISSP).
