Ubiquitous and Pervasive Knowledge and Learning Management: Semantics, Social Networking and New Media to Their Full Potential

Table of Contents

Foreword.......................................................................................................vii
Preface..........................................................................................................x

Chapter I
Pervasive Computing: What is it Anyway? ................................................... 1
   Emerson Loureiro, Federal University of Campina Grande, Brazil
   Glauber Ferreira, Federal University of Campina Grande, Brazil
   Hyggo Almeida, Federal University of Campina Grande, Brazil
   Angelo Perkusich, Federal University of Campina Grande, Brazil

Chapter II
“Neomillennial” Learning Styles Propagated by Wireless Handheld Devices.................................................................................. 35
   Edward Dieterle, Harvard Graduate School of Education, USA
   Chris Dede, Harvard Graduate School of Education, USA
   Karen Schrier, MIT Alumni, USA
Chapter III
Mobile Education: Lessons Learned.............................................................. 67
   Holger Nösekabel, University of Passau, Germany

Chapter IV
Ubiquitous Computing Applications in Education...................................... 94
   Kostas Kolomvatsos, National & Kapodistrian University of Athens,
   Greece

Chapter V
Using Multimedia and Virtual Reality for Web-Based Collaborative
Learning on Multiple Platforms.................................................................118
   Gavin McArdle, University College Dublin, Ireland
   Teresa Monahan, University College Dublin, Ireland
   Michela Bertolotto, University College Dublin, Ireland

Chapter VI
Using Emotional Intelligence in Personalized Adaptation....................... 158
   Violeta Damjanovic, Salzburg University, Austria
   Milos Kravcik, Open University Nederland, The Netherlands

Chapter VII
Accessing Learning Content in a Mobile System: Does Mobile Mean
Always Connected? .....................................................................................198
   Anna Trifonova, University of Trento, Italy

Chapter VIII
A Choreographed Approach to Ubiquitous and Pervasive Learning ..... 216
   Sinuhé Arroyo, Digital Enterprise Research Institute, Innsbruck, Austria
   Reto Krummenacher, Digital Enterprise Research Institute, Innsbruck,
   Austria

Chapter IX
Semantic Knowledge Mining Techniques for Ubiquitous Access
Media Usage Analysis ...................................................................................236
   John Garofalakis, University of Patras, Greece
   Theodoula Giannakoudi, University of Patras, Greece
   Yannis Panagis, University of Patras, Greece
   Evangelos Sakkopoulos, University of Patras, Greece
   Athanasios Tsakalidis, University of Patras, Greece
Chapter X
To Ease the Dilemma of Help Desk: The Application of Knowledge Management Techniques in Manipulating Help Desk Knowledge......... 263
  Nelson Leung, University of Wollongong, Australia
  Sim Kim Lau, University of Wollongong, Australia

Chapter XI
Discursive Context-Aware Knowledge and Learning Management Systems .......................................................................................................................... 293
  Caoimhín O’Nualláin, DERI Galway, Ireland
  Adam Westerski, DERI Galway, Ireland
  Sebastian Kruk, DERI Galway, Ireland

About the Authors ..........................................................................................................................311
