# Table of Contents

Foreword .............................................................................................................................................. xvi

Preface .................................................................................................................................................. xix

Acknowledgment ............................................................................................................................... xxix

Chapter 1
A Survey on Research Initiatives for Healthcare Clouds................................................................. 1
  Rahul Ghosh, IBM, USA
  Ioannis Papapanagiotou, Purdue University, USA
  Keerthana Boloor, IBM TJ Watson Research Center, USA

Chapter 2
Not Just Meaningful Data but Coordinated Data! Can Cloud Computing Promote Down-to-Earth
E-Valuation of Disease and Healthcare? ............................................................................................ 19
  Vahé A. Kazandjian, Johns Hopkins University, USA

Chapter 3
Big Data in Healthcare ......................................................................................................................... 35
  Yiannis Koumpouros, Technological Educational Institute of Athens, Greece

Chapter 4
Wiki-Health: A Big Data Platform for Health Sensor Data Management ..................................... 59
  Yang Li, Imperial College London, UK
  Chao Wu, Imperial College London, UK
  Li Guo, University of Central Lancashire, UK
  Chun-Hsiang Lee, Imperial College London, UK
  Yike Guo, Imperial College London, UK
Chapter 5
Interoperability in Healthcare ................................................................. 78
  Luciana Cardoso, Minho University, Portugal
  Fernando Marins, Minho University, Portugal
  César Quintas, Centro Hospitalar do Porto, Portugal
  Filipe Portela, Minho University, Portugal
  Manuel Santos, Minho University, Portugal
  António Abelha, Minho University, Portugal
  José Machado, Minho University, Portugal

Chapter 6
Efficient Healthcare Integrity Assurance in the Cloud with Incremental Cryptography and Trusted Computing ................................................................. 102
  Wassim Itani, Beirut Arab University, Lebanon
  Ayman Kayssi, American University of Beirut, Lebanon
  Ali Chehab, American University of Beirut, Lebanon

Chapter 7
Auditing Privacy for Cloud-Based EHR Systems ............................................. 116
  Jonathan Sinclair, RepKnight Ltd., UK
  Benoit Hudzia, Stratoscale Ltd., UK
  Alan Stewart, Queen’s University Belfast, UK

Chapter 8
Sharing Medical Information by Means of Using Intelligent Agents and Cloud Computing .......... 140
  Mauricio Paletta, Universidad Nacional Experimental de Guayana (UNEG), Venezuela

Chapter 9
Cloud Computing Location-Based Services for Quality Health Care Services Delivery ............ 171
  Jalel Akaichi, ISG-University of Tunis, Tunisia

Chapter 10
Message-Oriented Middleware on the Cloud for Exchanging E-Health Data............................. 186
  Piero Giacomelli, Spac SPA, Italy

Chapter 11
CoSeMed: Cooperative and Secure Medical Device Sharing .............................................. 201
  Andreas Kliem, Technische Universität Berlin, Germany
Chapter 12
Cloud Computing for BioLabs ................................................................. 228
  Abraham Pouliakis, University of Athens, Greece
  Aris Spathis, University of Athens, Greece
  Christine Kottaridi, University of Athens, Greece
  Antonia Mourtzikou, University of Athens, Greece
  Marilena Stamouli, Naval and Veterans Hospital, Greece
  Stavros Archondakis, 401 General Army Hospital, Greece
  Efrossyni Karakitsou, National Technical University of Athens, Greece
  Petros Karakitsos, University of Athens, Greece

Chapter 13
Cloud Computing for Cytopathologists ............................................ 250
  Abraham Pouliakis, University of Athens, Greece
  Stavros Archondakis, 401 Military Hospital, Greece
  Efrossyni Karakitsou, National Technical University of Athens, Greece
  Petros Karakitsos, University of Athens, Greece

Chapter 14
A Case Study of the Health Cloud ....................................................... 272
  Roma Chauhan, IILM Graduate School of Management, India

Chapter 15
Demystifying Quality of Healthcare in the Cloud .............................. 284
  Anastasius Mountzoglou, Hellenic Society for Quality and Safety in Healthcare, Greece & P.
  & A. Kyriakou Children’s Hospital, Greece

Compilation of References .................................................................... 302

About the Contributors .......................................................................... 333

Index ........................................................................................................ 341
