Acknowledgment

The authors who contributed to this book deserve our heartfelt thanks for their contribution, patience and co-operation throughout the process of compiling this book. All the chapter contributors are listed with biographical sketches in a section of the book. To those who contributed to the publication with a profile we thank you for the very personal insight into your life, education, career choices and hopes for the future. We hope these profiles will serve as an inspiration to readers. Sincere thanks also to Sheri Graner Ray for writing the Foreword and for her valuable contribution to the field of gender and computer games.

Sincere thanks to our reviewers and members of the editorial advisory board; we know the authors were very appreciative of the valuable comments provided by the reviewers. We sincerely thank the reviewers for taking the time to read and comment on the submissions. This was an essential role and their contribution has improved the content and presentation of the chapters and thus the overall content of the book.

We would also like to thank the staff at IGI Global for their support during the entire process from original proposal to final publication.
