Table of Contents

Preface ................................................................................................................................................... xix

Introduction .......................................................................................................................................... xxvii

Chapter 1
Origin-Destination Data Collection Technology ....................................................................................... 1
  Stacey G. Bricka, Texas A&M Transportation Institute, USA
  Richard “Trey” Baker, Texas A&M Transportation Institute, USA
  Christopher L. Simek, Texas A&M Transportation Institute, USA
  Nicholas Wood, Texas A&M Transportation Institute, USA

Chapter 2
Behavioural Data Collection Using Mobile Phones ................................................................................... 17
  Yasuo Asakura, Tokyo Institute of Technology, Japan
  Eiji Hato, The University of Tokyo, Japan
  Takuya Maruyama, Kumamoto University, Japan

Chapter 3
Horses for Courses: Designing a GPS Tracking Data Collection ............................................................. 36
  Kristian Hegner Reinau, Aalborg University, Denmark
  Henrik Harder, Aalborg University, Denmark
  Christian Hansen Overgård, Technical University of Denmark, Denmark

Chapter 4
Collecting Activity-Travel and Planning Process Data Using GPS-Based Prompted Recall
Surveys: Recent Experience and Future Directions ...................................................................................... 53
  Joshua Auld, Argonne National Laboratory, USA
  Abolfazl (Kourosh) Mohammadian, University of Illinois at Chicago, USA

Chapter 5
Space-Time Behavior Survey for Smart Travel Planning in Beijing, China .............................................. 79
  Yanwei Chai, Peking University, China
  Zifeng Chen, Peking University, China
  Yu Liu, Peking University, China
  Tana, Peking University, China
  Xiujun Ma, Peking University, China
Chapter 6
Understanding Trip Misreporting Behavior Using Global Positioning System-Assisted Household Travel Survey ................................................................. 91
   Xia Jin, Florida International University, USA
   Hamidreza Asgari, Florida International University, USA
   Md Sakoat Hossan, Florida International University, USA

Chapter 7
Multi-Week Travel Surveys Using GPS Devices: Experiences in The Netherlands .................. 104
   Tao Feng, Eindhoven University of Technology, The Netherlands
   Harry Timmermans, Eindhoven University of Technology, The Netherlands

Chapter 8
The Annotation of Global Positioning System (GPS) Data with Activity Purposes Using Multiple Machine Learning Algorithms ................................................................. 119
   Sofie Reumers, Hasselt University, Belgium
   Feng Liu, Hasselt University, Belgium
   Davy Janssens, Hasselt University, Belgium
   Geert Wets, Hasselt University, Belgium

Chapter 9
A New Algorithm for Mode Detection in Travel Surveys: Mobile Technologies for Activity-Travel Data Collection and Analysis ................................................................. 134
   Birgit Kohla, University of Natural Resources and Life Sciences Vienna, Austria
   Regine Gerike, University of Natural Resources and Life Sciences Vienna, Austria
   Reinhard Hössinger, University of Natural Resources and Life Sciences Vienna, Austria
   Michael Meschik, University of Natural Resources and Life Sciences Vienna, Austria
   Gerd Sammer, University of Natural Resources and Life Sciences Vienna, Austria
   Wiebke Unbehaun, University of Natural Resources and Life Sciences Vienna, Austria

Chapter 10
A Real Time Topological Map Matching Methodology for GPS/GIS-Based Travel Behavior Studies ................................................................. 152
   Carola A. Blazquez, Universidad Andres Bello, Chile
   Pablo A. Miranda, Pontificia Universidad Catolica de Valparaiso, Chile

Chapter 11
Using Smartphones to Capture Personal Travel Behavior ................................................................. 171
   Sheila Ferrer, Universitat Politècnica de València, Spain
   Tomás Ruiz, Universitat Politècnica de València, Spain

Chapter 12
Individual Mobility Analysis Using Smartphone Data ................................................................. 187
   Evanthia Kazagli, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
   Jingmin Chen, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
   Michel Bierlaire, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
Chapter 13
Smartphone-Based Travel Survey: A Pilot Study in China ................................................................. 209
Xianyu Jianchuan, Shanghai Jiao Tong University, China
Juan Zhicai, Shanghai Jiao Tong University, China
Xiao Guangnian, Shanghai Jiao Tong University, China
Fu Xuemei, Shanghai Jiao Tong University, China

Chapter 14
Using Call Detail Records of Mobile Network Operators for Transportation Studies .................. 224
Erki Saluveer, Positium LBS, Estonia
Rein Ahas, University of Tartu, Estonia

Chapter 15
The Application of Venue-Side Location-Based Social Networking (VS-LBSN) Data in Dynamic Origin-Destination Estimation ........................................................................................................... 239
Fan Yang, University of Wisconsin – Madison, USA
Peter J. Jin, Rutgers University, USA
Meredith Cebelak, University of Texas – Austin, USA
Bin Ran, Southeast University, China & University of Wisconsin – Madison, USA
C. Michael Walton, University of Texas – Austin, USA

Chapter 16
Obtaining Public Transport Level-of-Service Measures Using In-Vehicle GPS Data and Freely Available GIS Web-Based Tools ................................................................. 258
Julián Arellana, Universidad del Norte, Colombia
Juan de Dios Ortúzar, Pontificia Universidad Católica de Chile, Chile
Luis I. Rizzi, Pontificia Universidad Católica de Chile, Chile
Felipe Zuñiga, LAN Airlines, Chile

Chapter 17
Measuring Travel Behavior Changes to Variably Priced Carsharing Using Mobile Applications..... 276
Sisinnio Concas, University of South Florida, USA
Sean J. Barbeau, University of South Florida, USA
Philip L. Winters, University of South Florida, USA
Nevine Labib Georggi, University of South Florida, USA

Chapter 18
GPS Travel Diaries in Rural Transportation Research: A Focus on Older Drivers ............................ 293
Trevor Hanson, University of New Brunswick, Canada
Eric Hildebrand, University of New Brunswick, Canada
Chapter 19
A Role for GPS Data in Qualitative Research: Exploring Links between Walking Behaviour, the Built Environment, and Crime Perception in South Africa

Christoffel Venter, University of Pretoria, South Africa
Nyasha Minora, University of Pretoria, South Africa
Kory Shukrani, University of Pretoria, South Africa
Jacques du Toit, University of Pretoria, South Africa

Chapter 20
Using a GPS Active Logger to Implement Travel Behaviour Change Programs

Italo Meloni, University of Cagliari, Italy
Benedetta Sanjust, University of Cagliari, Italy

Chapter 21
Characterizing Urban Structure Using Taxi GPS Data

Zhong Zheng, Eindhoven University of Technology, The Netherlands
Suhong Zhou, Sun Yat-sen University, China
