Table of Contents

Foreword .................................................................................................................................................... xv

Preface ........................................................................................................................................................ xvii

Section 1
Technology Integration for Second Language Research

Chapter 1
Computer-Assisted Character Learning Using Animation and Visual Chunking ................................. 1
Yi Xu, University of Pittsburgh, USA
Li-Yun Chang, University of Pittsburgh, USA

Chapter 2
Enhancing Grammatical Accuracy and Linguistic Fluency: English Article Tutor .............................. 23
Helen Zhao, The Chinese University of Hong Kong, Hong Kong

Section 2
Technology Integration for Second Language Teaching

Chapter 3
Using Turnitin to Support Students’ Understanding of Textual Borrowing in Academic Writing: A Case Study ......................................................................................................................... 44
Ilka Kostka, Northeastern University, USA
Miriam Eisenstein Ebsworth, New York University, USA

Chapter 4
Computer-Assisted vs. Classroom Instruction on Developing Reference Tracking Skills in L2 Chinese .................................................................................................................................................. 72
Liu Li, Ball State University, USA

Chapter 5
Investigating Optimal Computer-Mediated Cultural Instruction to Foster Intercultural Sensitivity in Online Peer Discussions ........................................................................................................... 97
Paula Garrett-Rucks, Georgia State University, USA
Chapter 6
Offline Peer Dialogue in Asynchronous Computer-Mediated Communication Activities for L2 Teacher Development ................................................................. 114
Keiko Kitade, Ritsumeikan University, Japan

Section 3
Technology-Mediated Second Language Learning Processes

Chapter 7
Pragmatic Development through Blogs: A Longitudinal Study of Telecollaboration and Language Socialization......................................................... 137
Noriko Ishihara, Hosei University, Japan
Yumi Takamiya, Gettysburg College, USA

Chapter 8
(Dis)Engagement in Internet Linguistic Practices among Sojourners in China .................... 162
Wenhao Diao, University of Arizona, USA

Chapter 9
Using Skype to Focus on Form in Japanese Telecollaboration: Lexical Categories as a New Task Variable.............................................................. 181
Yuka Akiyama, Georgetown University, USA

Chapter 10
Innovative Wiki Ways: Engaging Students in Collaborative Writing Processes .................. 210
Mimi Li, Marshall University, USA
Julie Dell-Jones, University of South Florida, USA

Section 4
Beliefs and Attitudes toward Technology Integration

Chapter 11
Teachers’ Perceptions and Use of Information and Communication Technologies (ICTs) in Chinese Language Education........................................ 237
Dongbo Zhang, Michigan State University, USA
Shouhui Zhao, University of Bergen, Norway
Li Li, Nanyang Technological University, Singapore

Chapter 12
Use of Computer Technology for Writing Consultations: Tutors’ Opinions and Implications .... 257
Cynthia Lee, University of Hong Kong, Hong Kong

Chapter 13
Theory and Practice in Computer-Assisted Vocabulary Learning: A Case Study .................... 276
Peter Prince, University of Aix-Marseille, France
Section 5
Systematic Review of CALL Research

Chapter 14
Vocabulary CALL for Young ESL/EFL Learners: A Systematic Review of the Research Evidence 299

Zoe Handley, York University, UK
