Table of Contents

Preface........................................................................................................................................xviii
Acknowledgment.........................................................................................................................xix

Section I
Emerging Issues and Debate

Chapter I
Vive la Différence: Communicating Across Cultural Boundaries in Cross-Gender
Online Collaborative Discussions.................................................................................................. 1
  David Gefen, Drexel University, USA
  Nitza Geri, The Open University of Israel, Israel
  Narasimha Paravastu, Metropolitan State University, USA

Chapter II
Toward an Organizational View of E-Collaboration .................................................................. 13
  Lior Fink, Ben-Gurion University of the Negev, Israel

Chapter III
The Drivers for the Adoption and Use of M-Services: A Consumer Perspective....................... 28
  Patricia McManus, University of Western Sydney, Australia
  Susan Standing, Edith Cowan University, Australia
  Craig Standing, Edith Cowan University, Australia
  Heikki Karjaluoto, University of Jyväskylä, Finland

Chapter IV
A Comparative Analysis of E-Collaboration Research Funding in the European
Union and the United States ......................................................................................................... 40
  Ned Kock, Texas A&M International University, USA
  Pedro Antunes, University of Lisboa, Portugal
Section II
Virtual Team Leadership

Chapter V
Perceived Behaviors of Emergent and Assigned Leaders in Virtual Groups ......................... 50
   Kathryn R. Wickham, LiveOps, Inc., USA
   Joseph B. Walther, Michigan State University, USA

Chapter VI
Supporting Facilitators in Communities of Practice via Design and Technology .................. 65
   Halbana Tarmizi, University of Nebraska at Omaha, USA
   Gert-Jan de Vreede, University of Nebraska at Omaha, USA
   Ilze Zigurs, University of Nebraska at Omaha, USA

Chapter VII
Virtual Team Leadership: Perspectives from the Field .......................................................... 84
   Laura A. Hambley, University of Calgary, Canada
   Thomas A. O’Neill, University of Western Ontario, Canada
   Theresa J.B. Kline, University of Calgary, Canada

Chapter VIII
Web-Based Template-Driven Communication Support Systems: Using ShadownetWorkspace to Support Trust Development in Virtual Teams ........................................... 105
   Herbert Remidez, Jr., University of Arkansas at Little Rock, USA
   Antonie Stam, University of Missouri, USA
   James M. Laffey, University of Missouri, USA

Chapter IX
Exploring the Virtual Team Leaders’ Perspective: Efficient Work Roles and Leadership Functions .......................................................... 121
   Udo Konradt, University of Kiel, Germany
   Julia E. Hoch, University of Technology Dresden, Germany

Chapter X
Leadership and Performance in Virtual Teams: Exploring Brokerage in Electronic Communication .......................................................... 137
   Johannes Glückler, Catholic University of Eichstätt, Germany
   Gregor Schrott, University of Frankfurt, Germany
Section III
Collaborative Production and Engineering

Chapter XI
Intelligent Agents for Supporting Supply Chain Collaborative Technologies
Walter Rodriguez, Florida Gulf Coast University, USA
Janusz Zalewski, Florida Gulf Coast University, USA
Elias Kirche, Florida Gulf Coast University, USA

Chapter XII
Collaborative Engineering for Enhanced Producibility by Ontology-Based Integration of Design and Production
Fredrik Elgh, Jönköping University, Sweden
Staffan Sunnersjö, Jönköping University, Sweden

Chapter XIII
An Ontology-Based Competence Model for Collaborative Design
Vladimir Tarasov, Jönköping University, Sweden
Kurt Sandkuhl, Jönköping University, Sweden
Magnus Lundqvist, Jönköping University, Sweden

Chapter XIV
Functional Product Development Challenges Collaborative Work Practices
Magnus Löfstrand, Luleå University of Technology, Sweden

Chapter XV
Managing Operational Business Processes with Web-Based Information Technologies
Ned Kock, Texas A&M International University, USA

Chapter XVI
Vision, Trends, Gaps and a Broad Road Map for Future Engineering
Jan Goossenaerts, Eindhoven University of Technology, The Netherlands
Frank Possel-Dölken, RWTH Aachen University, Germany
Keith Popplewell, Coventry University, UK

Section IV
Advanced Conceptual and Theoretical Issues

Chapter XVII
The Ape that Used E-Mail: An Evolutionary Perspective on E-Communication Behavior
Ned Kock, Texas A&M International University, USA
Vanessa Garza, Texas A&M International University, USA
Chapter XVIII
Metaphors for E-Collaboration: Nonprofit Theatre Web Presence

Julie E. Kendall, Rutgers University, USA

Chapter XIX
User Satisfaction with E-Collaborative Systems

Jeffrey Wong, University of Nevada, USA
Kevin Dow, Kent State University, USA
Ofir Turel, California State University, USA
Alexander Serenko, Lakehead University, Canada

Chapter XX
Organizational Sense of Community and Listserv Use: Examining the Roles of Knowledge and Face-to-Face Interaction

Anita Blanchard, University of North Carolina at Charlotte, USA

Chapter XXI
Agile IT Outsourcing

Boris Roussev, University of the Virgin Islands, USA

Chapter XXII
Applying Pattern Theory in the Effective Management of Virtual Projects

Ilze Zigurs, University of Nebraska at Omaha, USA
Deepak Khazanchi, University of Nebraska at Omaha, USA
