# Table of Contents

Preface...................................................................................................................................................... xvi

## Section 1
### Standardisation and Innovation

**Chapter 1**  
Infrastructural Innovation and Generative Information Infrastructures........................................... 1  
*Ole Hanseth, University of Oslo, Norway*  
*Petter Nielsen, Telenor Research and Future Studies, Norway*

**Chapter 2**  
Responsible Innovation and Standard Selection ................................................................................... 24  
*Geerten van de Kaa, Delft University of Technology, The Netherlands*

## Section 2
### Looking Inside Standards Setting Organisations

**Chapter 3**  
Analysis of Various Structures of Standards Setting Organizations (SSOs) That Impact Tension among Members.................................................................................................................................... 33  
*DongBack Seo, Chungbuk National University, Korea*

**Chapter 4**  
*Niclas Meyer, Fraunhofer Institute for Systems and Innovations Research ISI, Germany*

**Chapter 5**  
The Evolution and Specialization of IETF Standards.............................................................................. 66  
*Mehmet Gencer, Istanbul Bilgi University, Turkey*

**Chapter 6**  
Assessing IPR Disclosure within Standard Setting: An ICT Case Study........................................... 86  
*Anne Layne-Farrar, Charles River Associates, USA*
Section 3
Focus on Individual Standards and Sectors

Chapter 7
Co-Evolutionary Analysis of Cognitive Radio Systems
Vladislav V. Fomin, Vytautas Magnus University, Lithuania
Arturas Medeisis, Vilnius Gediminas Technical University, Lithuania

Chapter 8
Standards for ICT: A Green Strategy in a Grey Sector
Tineke Egyedi, DIRoS, The Netherlands
Sachiko Muto, Delft University of Technology, The Netherlands

Chapter 9
The Rise of MP3 as the Market Standard: How Compressed Audio Files Became the Dominant Music Format
Simon den Uijl, Erasmus University Rotterdam, The Netherlands
Henk J. de Vries, Erasmus University Rotterdam, The Netherlands
Deniz Bayramoglu, Technische Universität Darmstadt, Germany

Chapter 10
Simone Wurster, Berlin University of Technology, Germany

Chapter 11
Achieving Standardization: Learning from Harmonization Efforts in E-Customs
Stefan Henningsson, Copenhagen Business School, Denmark

Section 4
Standardisation and Asia

Chapter 12
Standards Development as Hybridization and Capacity Building
Xiaobai Shen, University of Edinburgh, UK
Ian Graham, University of Edinburgh, UK
Robin Williams, University of Edinburgh, UK

Chapter 13
Are Asian Countries Ready to Lead a Global ICT Standardization?
DongBack Seo, Chungbuk National University, Korea
Section 5
About People

Chapter 14
The Role of the Individual in ICT Standardisation: A Literature Review and Some New Findings
Kai Jakobs, RWTH Aachen University, Germany

Chapter 15
How to Implement Standardization Education in a Country
Henk J. de Vries, Erasmus University, The Netherlands
