The editor would like to acknowledge the help of all involved in the collation and review process of the book, without whose support the project could not have been satisfactorily completed. A further special note of thanks goes also to all the staff at Idea Group Publishing, whose contributions throughout the whole process—from inception of the initial idea to final publication—have been invaluable.

Most of the authors of chapters included in this book also served as referees for papers written by other authors. Thanks go to all those who provided constructive and comprehensive reviews.

Special thanks also go to the publishing team at Idea Group Publishing and, in particular, to Mehdi Khosrow-Pour, whose enthusiasm initially motivated me to accept his invitation for taking on this project, and to Michele Rossi, who continuously prodded via e-mail to keep the project on schedule.

In closing, I wish to thank all of the authors for their insights and excellent contributions to this book. I also want to thank all of the people who assisted in the reviewing process. In particular, I’d like to thank Taiyu Lin, Ali Fawaz Shareef, and Michael Verhaart from Massey University, New Zealand, and Jarkko Suhonen from University of Joensuu, Finland. In addition, this book would not have been possible without the ongoing professional support from Mehdi Khosrow-Pour and Jan Travers at Idea Group Publishing.
