### PART I. WEB-BASED LEARNING (WBL) ............................................................. 1

**Chapter I. Web-Based Education** .............................................................................. 2  
*Anil Aggarwal, University of Baltimore, USA*  
*Regina Bento, University of Baltimore, USA*

**Chapter II. Opportunities in Web-Based Teaching: The Future of Education** ............................................................................. 17  
*Orasa Tetiwat, Claremont Graduate University, USA*  
*Magid Igbaria, Claremont Graduate University, USA*

**Chapter III. Web-Based Teaching: Infrastructure Issues in the Third World** ...................................................................................... 33  
*Dushyanthi Hoole, The Open University of Sri Lanka*  
*S. Ratnajeevan Hoole, University of Peradeniya, Sri Lanka*

### PART II. WBL-ENHANCING TECHNOLOGIES ................................................ 42

**Chapter IV. Selecting Software and Services for Web-Based Teaching and Learning** ................................................................................ 43  
*Jane Klobas, The University of Western Australia*  
*Stefano Renzi, Bocconi University, Italy*

**Chapter V. Asynchronous Learning Tools- What is Really Needed, Wanted, and Used?** .................................................................................... 60  
*James Novitzki, Johns Hopkins University, USA*

**Chapter VI. Web Learning With Nestor: The Building Of A New Pedagogical Process** ............................................................. 79  
*Liliane Esnault, E.M.LYON, France*  
*Romain Zeiliger, GATE - CNRS, France*
Chapter VII. Developing A Class Session Using Audio And Video Streaming ................................................................. 103
  
  Al Bento, University of Baltimore, USA

Chapter VIII. Desktop Distance Education: Personal Hosting of Web Courses ................................................................. 117
  
  Kent L. Norman, University of Maryland, USA

Chapter IX. Pedagogical Methodology in Virtual Courses ................................................................. 135
  
  Alan Rea, Western Michigan University, USA
  Doug White, Western Michigan University, USA
  Roger Mchaney, Kansas State University, USA
  Carol Sanchez, Grand Valley State University, USA

Chapter X. Modelling And Analysis Of Web-Based CourseWare Systems .................................................. 155
  
  Lam Chi-Yung, HongKong University of Science and Technology
  Cheung, Shing-Chi, HongKong University of Science and Technology

PART III. WBL ENVIRONMENT ................................................................. 174

Chapter XI. Web-Based Assessment in Student Learning ................................................................. 175
  
  A. Cucchiarelli, University of Ancona, Italy
  M. Panti, University of Ancona, Italy
  S. Valenti ,University of Ancona, Italy

Chapter XII. Distributed Web-Based Assignment Management ................................................................. 198
  
  Paul Darbyshire, Victoria University of Technology, Australia

Chapter XIII. Faculty Development For Web-Based Teaching: Weaving Pedagogy With Skills Training ................................................................. 216
  
  Paulette Robinson, University of Maryland, USA
  Ellen Yu Borkowski, University of Maryland, USA

Chapter XIV. Developing On-Line Collaboration ................................................................. 227
  
  Edwards R. Kemery, University of Baltimore, USA

Chapter XV. Web-Based Assessment: Techniques And Issues ................................................................. 246
  
  Sivakumar Alagumalai, Victoria University of Wellington, NZ
  Kok-Aun Toh, Nanyang Technological University, Singapore
  Jessie Y. Y. Wong, Nanyang Technological University, Singapore
PART IV. WBL CASE STUDIES ................................................................. 257

Chapter XVI. Web-Based Support Of A Programming Class .................. 258
Stephen D. Burd, University of New Mexico, USA

Chapter XVII. Health Communication Program: A Distance-Education Class Within The Johns Hopkins University School of Public Health Distance Education ........................................... 272
Phyllis T. Piotrow, Johns Hopkins University, USA
Omar A. Kahn, Johns Hopkins University, USA
Benjamin V. Lozare, Johns Hopkins University, USA
Salwa Khan, Johns Hopkins University, USA

Chapter XVIII. Web-Based Collateral Support For Traditional Learning: A Field Experiment .............................................................. 282
Tim Hill, San Jose State University, USA
Laku Chidambaram, Indiana University, USA

Chapter XIX. Using A Course Web Site To Enhance Traditional Lecture Style Courses: A Case Study And Approach For Site Development .......................................................... 293
Ross A. Malaga, University of Maryland, Baltimore Co., USA

Chapter XX. A Critical Inquiry Into Web-Mediated Collaborative Learning ................................................................................... 307
Dubravka Cecez-Kecmanovic, University of Western Sydney
Carolyn Webb, University of Western Sydney

Chapter XXI. A Case Study Of One-To-One Video Conferencing Education Over The Internet ................................................................. 327
Hock C. Chan, National University of Singapore
Bernard C.Y.Tan, National University of Singapore
Wei-Ping Tan, National University of Singapore

Chapter XXII. Web-Based Seminar Work ................................................... 347
Kalle Kangas, Turku School of Economics and Business Administration, Finland
Jussi Puhakainen, Turku School of Economics and Business Administration, Finland

About the Authors .................................................................................... 360

Index ........................................................................................................... 370
