Table of Contents

Preface ..................................................................................................................................................xvi

Chapter I
Strategic Outsourcing: Opportunities and Challenges for Telecom Operators......................... 1
Varadharajan Sridhar, Management Development Institute, India

Chapter II
Empirical Prediction of Computer-Network Evolution................................................................. 14
Sami J. Habib, Kuwait University, Kuwait

Chapter III
Suitability of IP Telephony in the Public Switched Telephone Network (PSTN): A Case Study.... 28
Hak Ju Kim, University of Houston–Clear Lake, USA

Chapter IV
A Framework for High-Speed Networking.................................................................................... 46
Abid Al Ajeeli, University of Bahrain, Bahrain
Yousif Al Bastaky, University of Bahrain, Bahrain

Chapter V
Updating on Gigabit Ethernet Implementation: The Case of a Large New Zealand Organization 62
Nurul I. Sarkar, AUT University, New Zealand
Catherine Byrne, Tonkin & Taylor Group Ltd., New Zealand
Nabeel A. Y. Al-Qirim, United Arab Emirates University, UAE

Chapter VI
Interaction Between MIMD-Poly & PIPD-Poly Algorithms and other TCP Variants in Multiple Bottleneck TCP Networks................................................................. 78
M. Chandrasekaran, Directorate of Technical Education, India
R. S. D. Wahida Banu, Government College of Engineering, India
Chapter XIV
Cooperative Data Caching and Prefetching in Wireless Ad Hoc Networks .............................................. 217
   Mieso K. Denko, University of Guelph, Canada

Chapter XV
   Essam Natsheh, King Faisal University, Saudi Arabia

Chapter XVI
Fuzzy Linguistic Knowledge for Active Queue Management in Wireless Ad-Hoc Networks........... 243
   Essam Natsheh, King Faisal University, Saudi Arabia

Chapter XVII
Risk Factors to Retrieve Anomaly Intrusion Information and Profile User Behavior ......................... 258
   Yun Wang, Yale University, Yale-New Haven Health Systems & Qualidigm, USA
   Lee Seidman, Qualidigm, USA

Chapter XVIII
Network Setup for Secure Routing in Inter-Vehicle Communication Networks................................. 272
   Rania Wehbi, American University of Beirut, Lebanon
   Ayman Kayssi, American University of Beirut, Lebanon
   Ali Chehab, American University of Beirut, Lebanon
   Zaher Dawy, American University of Beirut, Lebanon

Chapter XIX
Metropolitan Broadband Networks: Design and Implementation Aspects, and Business Models..... 286
   Antonios Alexiou, Research Academic Computer Technology Institute and University of Patras, Greece
   Christos Bouras, Research Academic Computer Technology Institute and University of Patras, Greece
   John Papagiannopoulos, University of Aegean, Greece
   Dimitrios Primpas, Research Academic Computer Technology Institute and University of Patras, Greece

Compilation of References .................................................................................................................. 302

About the Contributors ..................................................................................................................... 325
