Acknowledgment

We would like to acknowledge the help of all the people involved in this project. Without their support, this book would not have become a reality.

First, we wish to thank Prof. Lawrence Venuti for providing us advice and help about launching a successful Call for Chapters, and Prof. Edwin Gentzler, Dr. Julie McDonough Dolmaya, and Dr. Dror Abend-David for helping to spread the call for chapter proposals.

Second, we are grateful to the Editorial Advisory Board members for spreading the call for chapter proposals and reviewing the full chapters. They have made valuable contributions regarding the improvement of quality, coherence, and content presentation of the chapters. We also highly appreciate the help of the other reviewers.

Third, we would like to acknowledge the contributions of each one of the authors and the guidance and assistance provided by the publisher, IGI Global, at every stage of the development of this book project.
