Acknowledgment

I would like to acknowledge the help of all the people involved in this project and, more specifically, the authors and reviewers who took part in the review process. Without their support, this book would not have become a reality.

First, I would like to thank each one of the authors for their contributions. My sincere gratitude goes to the chapter authors who contributed their time and expertise to this book.

Second, I wish to acknowledge the valuable contributions of the reviewers regarding the improvement of quality, coherence, and content presentation of chapters. Most of the authors also served as referees; I highly appreciate their double task.

Third, I would like to express my thanks to the publishing team at IGI Global for their expert support and guidance, more precisely, to Erin O’Dea, Assistant Managing Editor of the Book Development Division.

This book is dedicated to my wife Márcia and my daughter Gabriela.
