Acknowledgment

The completion of this book could not have been possible without the participation and assistance of so many people from IGI Global. Two behind-the-scenes contributors, Jan Travers and Austin DeMarco, deserve our sincere appreciation for their valuable and timely guidance, kindness, and tolerance.

We would also like to express our deep sense of gratitude to Editorial Advisory Board (EAB) members. Their remarkable suggestions and supervision helped shape the book perfectly.

Special thanks go to individual chapter authors for their scientific contributions.

To all parents, daughters and relatives, colleagues, and others who in one way or another shared their support either morally or physically, thank you.
