# Table of Contents

Preface .................................................................................................................................................. xxii

## Section 1
### Aging and Innovations

#### Chapter 1
New Technologies and Neuropsychological Evaluation of Older Adults: Issues and Challenges ........ 1
   Stelios Zygouris, 3rd Department of Neurology, Aristotle University of Thessaloniki, Greece
   Magda Tsolaki, Greek Association of Alzheimer’s Disease and Related Disorders 3rd
   Department of Neurology, Aristotle University of Thessaloniki, Greece

#### Chapter 2
“Personal Training”: Can Genes Guide Us? ..................................................................................... 18
   Anthoula Tsolaki, Aristotle University of Thessaloniki, Greece & General Hospital “Agios
   Pavlos”, Thessaloniki, Greece

#### Chapter 3
Graceful Ageing: Exergaming as a Means to Delay Mental and Physical Decline among the Elderly 37
   Alexander Astaras, Aristotle University of Thessaloniki, Greece & American College of
   Thessaloniki, Greece

#### Chapter 4
Neuroimaging Approaches for Elderly Studies ................................................................................. 47
   Charis Styliadis, Aristotle University of Thessaloniki, Greece
   Panagiotis Kartsidis, Aristotle University of Thessaloniki, Greece
   Evangelos Paraskevopoulos, Aristotle University of Thessaloniki, Greece
Section 2
Gerotechnology for Dementia: Basic Aspects, Models/Prototypes, Specific Applications, and Pilots

Chapter 5
Cognitive Exercising for Patients with MCI Using Serious Games: Design of a Pilot Study............. 88
  Ioannis Tarnanas, Gerontechnology and Rehabilitation Group, ARTORG Center for Biomedical Engineering Research, University of Bern, Switzerland
  Apostolis Tsolakis, Aristotle University of Thessaloniki, Polytechnic School, Thessaloniki, Greece
  Magda Tsolaki, 3rd Department of Neurology, Medical School, Aristotle University of Thessaloniki, Greece

Chapter 6
A Review of Interventions with Assistive Technologies for Patients with Cognitive Impairment.............................................................. 118
  Panagiotis Georgakopoulos, Aristotle University of Thessaloniki, Greece
  Maria Chatzidimitriou, Alexandrion Educational Technological Institution of Thessaloniki, Greece
  Magda Tsolaki, Aristotle University of Thessaloniki, USA

Chapter 7
Implementing Cognitive Exercises in Electronic Form for Supporting Patients with Alzheimer’s Disease: The Greek Case ............................................................................................................ 130
  Agisilaos Chaldogeridis, Aristotle University of Thessaloniki, Greece
  Kleopatra Kyropoulou, Aristotle University of Thessaloniki, Greece
  Amaryllis-Chryssi Malegiannaki, Greek Association of Alzheimer’s disease and Related Disorders, Greece
  Evdokia Nikolaidou, Greek Association of Alzheimer’s disease and Related Disorders, Greece
  Thrasyvoulos Tsiatsos, Aristotle University of Thessaloniki, Greece

Chapter 8
Enabling Accessibility Features in Enhanced VR Environments for Supporting Spatial Abilities and Social Interaction in Elderly and MCI Patients................................................................. 147
  Sofia Segkouli, Informatics and Telematics Institute, Greece & Greek Association of Alzheimer’s Disease and Related Disorders, Greece
  Ioannis Paliokas, Informatics and Telematics Institute, Greece
  Thanos Tsakiris, Informatics and Telematics Institute, Greece
  Konstantinos Votis, Informatics and Telematics Institute, Greece
  Dimitrios Tzovaras, Informatics and Telematics Institute, Greece

Chapter 9
Integrated Care: Technologies for Diagnosis and Treatment......................................................................................................... 163
  Hadas Lewy, Maccabi Healthcare Services, Israel
Chapter 10
Decision Support in the Elderly Healthcare: Combing Short- and Long-Term Analysis Aspects .......................................................... 175
   Antonis S. Billis, Aristotle University of Thessaloniki, Greece
   Christos A. Frantzidis, Aristotle University of Thessaloniki, Greece
   Panagiotis D. Bamidis, Aristotle University of Thessaloniki, Greece

Chapter 11
Robot Programming and Tangible Interfaces for Cognitive Training ...................................................... 196
   Stavros Demetriadis, Aristotle University of Thessaloniki, Greece
   Vaitsa Giannouli, Aristotle University of Thessaloniki, Greece
   Theodosios Sapoundis, Aristotle University of Thessaloniki, Greece

Section 3
Assistive Technologies for Dementia in the Home and Environment

Chapter 12
An Ambient Intelligence System for the Monitoring, Empowerment, and Disease Evolution Prediction for Patients with Mild Cognitive Impairment................................................................. 225
   Konstantinos Votis, Information Technologies Institute, Greece
   Sofia Segkouli, Information Technologies Institute, Greece & Greek Association of Alzheimer’s disease and Related Disorders, Greece
   Anastasios Drosou, Information Technologies Institute, Greece
   Dimitrios Tzovaras, Information Technologies Institute, Greece
   Magda Tsolaki, Greek Association of Alzheimer’s disease and Related Disorders, Greece & Aristotle University of Thessaloniki, Greece

Chapter 13
Towards an HCI-Based Symbiotic Environment for Alzheimer’s Support......................................................... 240
   Leontios J. Hadjileontiadis, Aristotle University of Thessaloniki, Greece
   Dimitrios Mandiliotis, Aristotle University of Thessaloniki, Greece
   Konstantinos Toupnas, Aristotle University of Thessaloniki, Greece
   Aikaterini Kyprioti, Aristotle University of Thessaloniki, Greece

Chapter 14
Assistive Technologies for People with Dementia......................................................................................... 269
   Christos N. Xenakidis, G.M EuroCy Innovations Ltd, Cyprus
   Antonis M. Hadjiantonis, G.M EuroCy Innovations Ltd, Cyprus
   George M. Milis, G.M EuroCy Innovations Ltd, Cyprus
Chapter 15
Unobtrusive Smart Environments for Independent Living and the role of Mixed Methods in Elderly Healthcare Delivery: The USEFIL Approach

Alexander Astaras, Aristotle University of Thessaloniki, Greece & American College of Thessaloniki, Greece
Hadas Lewy, Maccabi Healthcare, Israel
Christopher James, University of Warwick, UK
Artem Katasonov, VTT Technical Research Center, Finland
Detlef Ruschin, Fraunhofer Heinrich Hertz Institute, Germany
Panagiotis D. Bamidis, Aristotle University of Thessaloniki, Greece

Chapter 16
Unobtrusive Low-Cost Physiological Monitoring Using Visual Information

Sergios Petridis, National Center for Scientific Research “Demokritos”, Greece
Theodoros Giannakopoulos, National Center for Scientific Research “Demokritos”, Greece
Stavros Perantonis, National Center for Scientific Research “Demokritos”, Greece

Chapter 17
Reviewing Home Based Assistive Technologies

Panagiotis D. Bamidis, Aristotle University of Thessaloniki, Greece
Evdokimos Konstantinidis, Aristotle University of Thessaloniki, Greece
Antonis S. Billis, Aristotle University of Thessaloniki, Greece
Anastasios Sioundas, Aristotle University of Thessaloniki, Greece

Chapter 18
Instrumenting the eHome and Preparing Elderly Pilots: The USEFIL Approach

Panagiotis E. Antoniou, Aristotle University of Thessaloniki, Greece
Evdokimos Konstantinidis, Aristotle University of Thessaloniki, Greece
Antonis S. Billis, Aristotle University of Thessaloniki, Greece
Giorgos Bamparopoulos, Aristotle University of Thessaloniki, Greece
Marianna S. Tsatali, Aristotle University of Thessaloniki, Greece
Anastasios Sioundas, Aristotle University of Thessaloniki, Greece

Chapter 19
Recognizing Physical Activities using Wearable Devices

Ali Mehmood Khan, Bremen University, Germany
Michael Lawo, Bremen University, Germany

Chapter 20
Unobtrusive Wearable Technology for Health Monitoring

James Amor, University of Warwick, UK
Christopher James, University of Warwick, UK
Section 4
Gerotechnology, Care Giver Support, Ethics, and Business Planning

Chapter 21
ICT Support to Those Providing Care to Elderly: Pilot Training Activities in Greece in the Realm of the DISCOVER Project

Efstatios A. Sidiropoulos, Aristotle University of Thessaloniki, Greece
Vasiliki I. Zilidou, Aristotle University of Thessaloniki, Greece
Maria A. Karagianni, Aristotle University of Thessaloniki, Greece
Lazaros I. Ioannidis, Aristotle University of Thessaloniki, Greece
Evangelia D. Romanopoulou, Aristotle University of Thessaloniki, Greece
Konstantina I. Karagiozi, Greek Association of Alzheimer’s Disease & Related Disorders, Greece
Niki Pandria, Aristotle University of Thessaloniki, Greece
Evangelos Paraskevopoulos, Aristotle University of Thessaloniki, Greece
Panagiotis D. Bamidis, Aristotle University of Thessaloniki, Greece

Chapter 22
Spinning Off Business Activities for Care Giver Support: The DISCOVER Attempt

Apostolos Vontas, VILABS, Greece
Vasiliki Moumtzi, VILABS, Greece
Gerry Urwin, Coventry University, UK

Chapter 23
Spinning Off Gerotechnology Business Activities: The LLM Care Best Practice Paradigm

Evangelia D. Romanopoulou, Aristotle University of Thessaloniki, Greece
Vasiliki I. Zilidou, Aristotle University of Thessaloniki, Greece
Panagiotis E. Antoniou, Aristotle University of Thessaloniki, Greece
