</table>
Cell Phone Conversation and Relative Crash Risk ................................................................. 1274
    Richard A. Young, Wayne State University, USA

Cell Phone Conversation while Driving ............................................................................... 1307
    Abu Sadat Nurullah, University of Alberta, Canada

Cell-Phones, Distracted Driving, Bans, and Fatalities ......................................................... 1319
    Leandro Rocco, University of Illinois – Urbana-Champaign, USA & Universidade Federal
do Ceará, Brazil
    Breno Sampaio, Universidade Federal de Pernambuco, Brazil
    Robson Tigre, Universidade Federal de Pernambuco, Brazil

Cellular Phones Contribute to Dangerous Driving ............................................................. 1330
    Chris S. Dula, East Tennessee State University, USA
    Benjamin A. Martin, East Tennessee State University, USA

Children, Risks, and the Mobile Internet .......................................................................... 1409
    Giovanna Mascheroni, Università Cattolica del Sacro Cuore, Italy
    Leslie Haddon, London School of Economics and Political Science, UK

Cognitive Phone for Sensing Human Behavior .................................................................. 1138
    Ling Pei, Shanghai Jiao Tong University, China
    Robert Guinness, Finnish Geodetic Institute, Finland
    Jyrki Kaistinen, University of Helsinki, Finland

Communication Privacy Management and Mobile Phone Use .......................................... 924
    Debra L. Worthington, Auburn University, USA
    Margaret Fitch-Hauser, Auburn University, USA

Connecting ‘Round the Clock: Mobile Phones and Adolescents’ Experiences of Intimacy .... 937
    Emily Weinstein, Harvard University, USA
    Katie Davis, University of Washington, USA

Consumer Acceptance of the Mobile Internet .................................................................... 151
    Joerg Koenigstorfer, Technische Universität München, Germany

Consumer Adoption of Mobile eWOM Messages ................................................................ 162
    Akinori Ono, Keio University, Japan
    Mai Kikumori, Keio University, Japan

Deaf Adolescents’ Textisms .............................................................................................. 1419
    Yoshiko Okuyama, University of Hawai‘i at Hilo, USA

Digital Mobile Games in Education .................................................................................... 454
    Xiaoming Liu, Towson University, USA
    Qing Li, Towson University, USA
Dimensions of Mobile Phone Behaviors in Environmental Communication
Yuan Xin Wang, Temple University, USA

Divorced Coparents’ Use of Communication Technology
Ashton Chapman, University of Missouri, USA
Lawrence H. Ganong, University of Missouri, USA
Marilyn Coleman, University of Missouri, USA

Educational Potentials of SMS Technology
Ilker Yengin, Institute of High Performance Computing (A*STAR), Singapore
Adem Karahoca, Bahcesehir University, Turkey

Emoticon Use in Mobile Communications :-)
Robert A. Nelson, Air Force Test Center, USA
Chad C. Tossell, United States Air Force Academy, USA
Philip Kortum, Rice University, USA

Empirical Research Methods for Evaluating Affective Satisfaction of Consumer Products
Jaehyun Park, Pohang University of Science and Technology (POSTECH), South Korea
Sung H. Han, Pohang University of Science and Technology (POSTECH), South Korea

Exploring the Use of Mobile Devices to Support Teacher Education
Jocelyn Wishart, University of Bristol, UK

Focus on Text Messages: A Review of Studies in French
Olga Volckaert-Legrier, Université Toulouse II – Le Mirail, France
Antonine Goumi, Université Paris Ouest Nanterre La Défense, France
Alain Bert-Erboul, Université de Poitiers (CeRCA-CNRS), France
Josie Bernicot, Université de Poitiers (CeRCA-CNRS), France

Generation Y and Mobile Marketing in India
Varsha Jain, Mudra Institute of Communications, India
Subhadip Roy, Indian Institute of Management Udaipur, India

Generation, Collection, and Recycling of Used and End-of-Life Mobile Phones
Yong-Chul Jang, Chungnam National University, South Korea
Seunghun Lee, Chungnam National University, South Korea
Hwidong Kim, Gannon University, USA

Harnessing Mobile Technology for Student Assessment
Jeffrey R. Stowell, Eastern Illinois University, USA
Jordan Tanner, Eastern Illinois University, USA
Erin Tomasino, Eastern Illinois University, USA
Health Effects of Mobile Phone Usage................................................................. 607
Angelo Levis, Padova University, Italy & Associazione Per la Protezione e la Lotta
tall’Elettrosmog (A.P.P.L.E), Italy
Laura Masiero, Associazione Per la Protezione e la Lotta all’Elettrosmog (A.P.P.L.E), Italy
Paolo Orio, Associazione Italiana Elettrosensibili (AIE), Italy
Susan Biggin, Institute of Physics (IOP), UK
Spiridione Garbisa, Padova University, Italy

Healthcare Applications for Smartphones .......................................................... 792
Abu Saleh Mohammad Mosa, University of Missouri, USA
Illhoi Yoo, University of Missouri, USA
Lincoln Sheets, University of Missouri, USA

Homophily and Online Politics............................................................................ 958
Kevin Wallsten, California State University – Long Beach, USA
Dilyana Toteva, California State University – Long Beach, USA

Human Resource Recruiting and Selection Using Cellphone Apps..................... 184
William Ross, University of Wisconsin – La Crosse, USA
Evan Newman, University of Wisconsin – La Crosse, USA
Jeng-Chung V. Chen, National Cheng Kung University, Republic of China

Impact of the Mobile Phone on Classical Radio.................................................... 1174
Brenda Barnes, University of Southern California, USA

Internet and Mobile Phone Addiction................................................................. 807
Vanessa Renau, Universitat Ramon Llull, Spain
Frederic Gil, Universitat Ramon Llull, Spain
Ursula Oberst, Universitat Ramon Llull, Spain
Xavier Carbonell, Universitat Ramon Llull, Spain

James E. Katz: An Intellectual Biography............................................................. 362
Yi-Fan Chen, Old Dominion University, USA & Western Connecticut State University, USA
Katie Lever, Old Dominion University, USA & Western Connecticut State University, USA

Keitai and Japanese Adolescents.......................................................................... 1431
Jack Jamieson, Ryerson University, Canada & York University, Canada
Jeffrey Boase, Ryerson University, Canada

Long-Term Mobile Phone Use Leads to Brain Tumors.......................................... 630
Lai Lei Lou, Ningbo University of Technology, China

mHealth in Maternal, Newborn, and Child Health Programs around the World........ 818
Briana Britton, Healthcare Innovation Technology Lab, USA
Laura Pugliese, Healthcare Innovation Technology Lab, USA
Stan Kachnowski, Healthcare Innovation Technology Lab, USA
