# Table of Contents

Foreword ............................................................................................................................................. xvi

Preface .................................................................................................................................................. xix

Acknowledgment ................................................................................................................................ xxiv

Chapter 1
iPods and iPads as AAC Devices for Children with Developmental Disorders .............................. 1
   Larah van der Meer, Victoria University of Wellington, New Zealand

Chapter 2
Implementing iPad and Mobile Technologies for Students with Intellectual Disabilities............... 27
   Cathi Draper Rodríguez, California State University – Monterey Bay, USA
   Iva Strnadová, University of New South Wales, Australia
   Therese M Cumming, University of New South Wales, Australia

Chapter 3
Using iPads and Mobile Technology for Children with Developmental Disabilities: Facilitating
Language and Literacy Development .................................................................................................. 45
   Lisa A. Proctor, Missouri State University, USA
   Ye Wang, Teachers College, Columbia University, USA

Chapter 4
Early Literacy and AAC for Learners with Complex Communication Needs ................................. 79
   Janis Doneski-Nicol, Northern Arizona University, USA
   Jody Marie Bartz, Northern Arizona University, USA

Chapter 5
The Use of Mobile Technologies for Students At-Risk or Identified with Behavioral Disorders
within School-Based Contexts ............................................................................................................. 114
   Frank J. Sansosti, Kent State University, USA
   Peña L. Bedesem, Kent State University, USA
Chapter 6
Recent Advances in Augmentative and Alternative Communication: The Advantages and Challenges of Technology Applications for Communicative Purposes .................................................. 128
Toby B. Mehl-Schneider, City University of New York, USA

Chapter 7
Selecting Computer-Mediated Interventions to Support the Social and Emotional Development of Individuals with Autism Spectrum Disorder .......................................................... 141
Kristen Gillespie-Lynch, City University of New York, USA
Patricia J. Brooks, City University of New York, USA
Christina Shane-Simpson, City University of New York, USA
Naomi Love Gaggi, City University of New York, USA
Deborah Sturm, City University of New York, USA
Bertram O. Ploog, City University of New York, USA

Chapter 8
Avatars, Humanoids, and the Changing Landscape of Assessment and Intervention for Individuals with Disabilities across the Lifespan .......................................................... 168
Emily Hotez, City University of New York – Hunter College, USA

Chapter 9
Microswitch-Based Programs (MBP) to Promote Communication, Occupation, and Leisure Skills for Children with Multiple Disabilities: A Literature Overview ........................................... 195
Fabrizio Stasolla, University of Bari, Italy
Viviana Perilli, Lega del Filo d’Oro Research Center, Italy

Chapter 10
Improving Students’ Academic Learning by Helping Them Access Text ........................................... 217
Michael Ben-Avie, SCSU Center of Excellence on Autism Spectrum Disorders, USA
Régine Randall, Southern Connecticut State University, USA
Diane Weaver Dunne, Connecticut Radio Information System, USA
Chris Kelly, Connecticut Radio Information System, USA

Chapter 11
Video Modeling for Learners with Developmental Disabilities ..................................................... 237
Peggy J. S. Whitby, University of Arkansas, USA
Christine R. Ogilvie, FSU CARD, USA
Krista Vince Garland, SUNY Buffalo State, USA

Chapter 12
Assistive Technologies at the Edge of Language and Speech Science for Children with Communication Disorders: VocalID™, Free Speech™, and SmartPalate™ ............................................. 255
Joséphine Anne Genèvieve Ancelle, Teachers College Columbia University, USA
Chapter 13
Telehealth Technology and Pediatric Feeding Disorders .......................................................... 278
  Taylor A. Luke, University of Texas – Austin, USA
  Rebecca R. Ruchlin, Monmouth University, USA

Chapter 14
Music and Developmental Disabilities .................................................................................. 292
  Michelle Renee Blumstein, Marymount Manhattan College, USA

Chapter 15
Dissemination of Assistive Technology Devices for Children with Disabilities through
Realabilities.................................................................................................................................. 310
  Senada Arucevic, Long Island University – Brooklyn, USA

Chapter 16
Using Technology to Support Social Competence ............................................................... 336
  Brenda Smith Myles, Ohio Center for Autism and Low Incidence, USA
  Jan Rogers, Ohio Center for Autism and Low Incidence, USA
  Amy Bixler Coffin, Ohio Center for Autism and Low Incidence, USA
  Wendy Szakacs, Ohio Center for Autism and Low Incidence, USA
  Theresa Earles-Vollrath, University of Central Missouri, USA
