Table of Contents

Foreword .................................................................................................................................................. xxiii
Preface .................................................................................................................................................. xxv
Acknowledgment ............................................................................................................................. xxxii

Volume I

Section 1

Chapter 1
The Impact of Digital Technologies in Mathematics Pre-Service Teacher Preparation over Four Decades ................................................................. 1
  Sarah B. Bush, Bellarmine University, USA
  Shannon O. Driskell, University of Dayton, USA
  Margaret L. Niess, Oregon State University, USA
  David Pugalee, University of North Carolina – Charlotte, USA
  Christopher R. Rakes, University of Maryland – Baltimore County, USA
  Robert N. Ronau, University of Cincinnati, USA

Chapter 2
Social Media in Teacher Education .................................................................................................... 28
  Jeffrey Paul Carpenter, Elon University, USA
  Daniel G. Krutka, Texas Woman’s University, USA

Chapter 3
An Online Course Design for Inservice Teacher Professional Development in a Digital Age: The Effectiveness of the Double-Layered CoP Model ............................................................... 55
  Kyungmee Lee, OISE/University of Toronto, Canada
  Clare Brett, OISE/University of Toronto, Canada
Chapter 4
Preparing Preservice Teachers to Become Self-Reflective of Their Technology Integration Practices

Julie M. Amador, University of Idaho, USA
Royce Kimmons, University of Idaho, USA
Brant G. Miller, University of Idaho, USA
Christopher David Desjardins, Science Institute-University of Iceland, Iceland
Cassidy Hall, University of Idaho, USA

Chapter 5
The Transference between Elementary Preservice Teachers’ Courses and Technology Use in Teaching

Debra R. Sprague, George Mason University, USA
Maria Katradis, George Mason University, USA

Chapter 6
University Reading and Mathematics Clinics in the Digital Age: Opportunities and Challenges with iPad Integration

Sheri Vasinda, Oklahoma State University, USA
Faryl Kander, Oklahoma State University, USA
Adrienne Redmond-Sanogo, Oklahoma State University, USA

Chapter 7
Do Your Classes Click? Interactive Remotes Foster Effective Pedagogy

Linda L. Forbringer, Southern Illinois University Edwardsville

Chapter 8
Digital Tools for Accelerating Preservice Teacher Effectiveness

Rachel Harrington, Western Oregon University, USA
Steve Rhine, Pacific University, USA

Chapter 9
Technology Tools, Proficiency, and Integration of Physical Education Teacher Educators

Helena Baert, SUNY Cortland, USA

Section 2

Chapter 10
“Pretty Good Practices” for the Design of Teacher Portfolio Courses

Spencer P. Greenhalgh, Michigan State University, USA
Matthew J. Koehler, Michigan State University, USA
Chapter 11
A Reconstruction of Rural Teachers’ Technology Integration Experiences: Searching for Equity.................. 281
Laura Helena Porras-Hernández, Universidad de las Américas Puebla, Mexico
Bertha Salinas-Amescua, Universidad de las Américas Puebla, Mexico

Chapter 12
Contextual Influences on Science Teachers’ TPACK Levels................................. 307
Kofi Acheaw Owusu, University of Cape Coast, Ghana
Lindsey Conner, University of Canterbury, New Zealand
Chris Astall, University of Canterbury, New Zealand

Chapter 13
TAP (Teacher Learning and Application to Pedagogy) through Digital Video-Mediated Reflections .......................................................... 334
Poonam Arya, Wayne State University, USA
Tanya Christ, Oakland University, USA
Ming Ming Chiu, Purdue University, USA

Chapter 14
Using Google Drive to Write Dialogically with Teachers........................................ 357
Ryan M. Rish, Kennesaw State University, USA
Kim Bylen, Clarksville High School, USA
Hannah Vreeland, North Forsyth High School, USA
Caitlin C. Wimberley, Fellowship Christian School, USA

Volume II

Chapter 15
Game Network Analysis: For Teaching with Games..................................................... 380
Arooutis N. Foster, Drexel University, USA
Mamta Shah, Drexel University, USA
Matthew Duvall, Drexel University, USA

Chapter 16
Taking Making Into the Schools: An Immersive Professional Development Approach .............. 412
Susan E. Crichton, University of British Columbia – Okanagan, Canada
Deb Carter, University of British Columbia – Okanagan, Canada

Section 3

Chapter 17
Context and Teaching with Technology in the Digital Age............................................. 440
Joshua M. Rosenberg, Michigan State University, USA
Matthew J. Koehler, Michigan State University, USA
Chapter 18
High Possibility Classrooms: A New Model for Technology Integration ........................................ 466
Jane Louise Hunter, University of Western Sydney, Australia

Chapter 19
Developing Technological Pedagogical Content Knowledge in Elementary Education Programs.... 493
Drew Polly, University of North Carolina at Charlotte, USA
Ian C. Binns, University of North Carolina at Charlotte, USA
S. Michael Putman, University of North Carolina at Charlotte, USA
Tracy C. Rock, University of North Carolina at Charlotte, USA
Amy J. Good, University of North Carolina at Charlotte, USA

Chapter 20
Evolution of a Course for Special Education Teachers on Integrating Technology into Math and
Science ................................................................................................................................................ 521
Irina Lyublinskaya, College of Staten Island, USA

Chapter 21
Exploring Technological Knowledge of Office Data Processing Teachers: Using Factor Analytic
Methods............................................................................................................................................... 548
Janet Bolaji Adegenro, University of South Africa, South Africa
Mishack T. Gumbo, University of South Africa, South Africa
Oludayo O. Olugbara, Durban University of Technology, South Africa

Chapter 22
Evolving Pedagogy and Practice: The 1:1 Mathematics Classroom through a TPACK Lens......... 577
Susan Hennessey, University of Vermont, USA
Mark W. Olofson, University of Vermont, USA
Meredith J. C. Swallow, University of Vermont, USA
John M. Downes, University of Vermont, USA

Chapter 23
A Framework for Supporting In-Service Teachers to Use Domain-Specific Technologies for
Instruction ........................................................................................................................................... 604
Louise Yarnall, SRI International, USA
Judith Fusco, SRI International, USA

Chapter 24
Engaging Google Docs to Support Collaboration and Reflection in Online Teacher Education ...... 635
Henry Gillow-Wiles, Oregon State University, USA
Margaret L. Niess, Oregon State University, USA

Chapter 25
Developing Teacher Knowledge about Gamification as an Instructional Strategy .......................... 663
Candace Figg, Brock University, Canada
Kamini Jaipal-Jamani, Brock University, Canada
Chapter 26  
Creativity, Digitality, and Teacher Professional Development: Unifying Theory, Research, and Practice

Punya Mishra, Michigan State University, USA  
Danah Henriksen, Michigan State University, USA  
Rohit Mehta, Michigan State University, USA
