# Table of Contents

Preface ........................................................................................................................................................................... xxii

**Volume I**

**Section 1**  
**Fundamental Concepts and Theories**

This section serves as a foundation for this exhaustive reference tool by addressing underlying principles essential to the understanding of Economics. Chapters found within these pages provide an excellent framework in which to position Economics within the field of information science and technology. Insight regarding the critical incorporation of global measures into Economics is addressed, while crucial stumbling blocks of this field are explored. With 13 chapters comprising this foundational section, the reader can learn and choose from a compendium of expert research on the elemental theories underscoring the Economics discipline.

**Chapter 1**  
Online Delivery of Introductory Economics Content in the United States ....................................................... 1  
*Thomas Scheiding, St. Norbert College, USA*

**Chapter 2**  
Technology Enhanced Learning and the Digital Economy: A Literature Review ................................................. 20  
*Patrick Schweighofer, University of Applied Science CAMPUS 02, Austria*  
*Stefan Grünwald, University of Applied Science CAMPUS 02, Austria*  
*Martin Ebner, Graz University of Technology, Austria*

**Chapter 3**  
Games in Entrepreneurship Education to Support the Crafting of an Entrepreneurial Mindset .................. 34  
*Leona Achtenhagen, Jönköping International Business School, Sweden*  
*Bengt Johannisson, Linnaeus University, Sweden & Jönköping International Business School, Sweden*

**Chapter 4**  
Introduction to Academic Entrepreneurship ............................................................................................................... 53  
*Mateusz Lewandowski, Institute of Public Affairs, Jagiellonian University, Poland*
Chapter 5
Historically Reading the Concept of Gender by the Dilemma of Heterodox-Orthodox Vision........ 82
Ilkben Akansel, Artvin Coruh University, Turkey

Chapter 6
How Knowledge, Technology, and Project Management Processes in Brazilian Universities Help
Innovation in Industry................................................................. 93
Patrícia Pellegrino de Souza, Associação Wylinka, Brazil
Ana Carolina Calçado Lopes Martins, Associação Wylinka, Brazil
Tina Stutzman, ECOVEC, Brazil
Danilo Cançado Peixoto Pires, Associação Wylinka, Brazil
Elimar Pires Vasconcellos Renato da Silva Lacerda, Associação Wylinka, Brazil
Renato Ferreira Rodrigues de Macedo, Associação Wylinka, Brazil
Luz América Castiblanco, Associação Wylinka, Brazil

Chapter 7
Entrepreneurship Readiness in Turkey: Profiles from Istanbul-Kayseri-Van Provinces............ 114
Leyla Tulunay, Hacettepe University, Turkey
Semra Güney, Hacettepe University, Turkey
M. Kemal Öktem, Hacettepe University, Turkey

Chapter 8
Perceptions and Framing of Risk, Uncertainty, Loss, and Failure in Entrepreneurship............ 126
Kimberly M. Green, University of West Georgia, USA

Chapter 9
Strategic Entrepreneurial Orientation and Small Business Growth................................. 145
João J. Ferreira, University of Beira Interior (UBI), Portugal & NECE - Research Unit in
Business Sciences, Portugal
Mário L. Raposo, University of Beira Interior (UBI), Portugal & NECE - Research Unit in
Business Sciences, Portugal
Cristina I. Fernandes, NECE - Research Unit in Business Sciences, UBI, Portugal

Chapter 10
ICT and Building a Knowledge-Based Society in Egypt.................................................. 169
Nagla Rizk, The American University in Cairo, Egypt
Sherif Kamel, The American University in Cairo, Egypt

Chapter 11
Social Entrepreneurial e-Empowerment................................................................. 189
Alfonso C. Morales-Gutiérrez, ETEA-University of Cordoba, Spain
J. Antonio Ariza-Montes, ETEA-University of Cordoba, Spain
Noel M. Muniz, ETEA-University of Cordoba, Spain
Chapter 12
Properties of Knowledge Matter: A Re-Examination of the Glitz of Entrepreneurialism as a Change Paradigm for Higher Education

Mary A. Burston, La Trobe University, Australia

Chapter 13
Sustainability and Entrepreneurship: Fostering Indigenous Entrepreneurship in the Brazilian Amazon Region

Raul Gouvea, The University of New Mexico, USA

Section 2
Tools and Technologies

This section presents an extensive coverage of various tools and technologies available in the field of Economics that practitioners and academicians alike can utilize to develop different techniques. These chapters enlighten readers about fundamental research on the many tools facilitating the burgeoning field of Economics. It is through these rigorously researched chapters that the reader is provided with countless examples of the up-and-coming tools and technologies emerging from the field of Economics. With 14 chapters, this section offers a broad treatment of some of the many tools and technologies within the Economics field.

Chapter 14
Enabling IT Innovation through Soft Systems Engineering

Marcel Jacques Simonette, Universidade de São Paulo, Brazil
Edison Spina, Universidade de São Paulo, Brazil

Chapter 15
Collaborative Research (CR): To Reduce Transaction Cost in Open Innovation

Amiram Porath, College for Academic Studies, Israel
Hakikur Rahman, University of Minho, Portugal
Isabel Ramos, University of Minho, Portugal

Chapter 16
Social Media Crowdsourcing: Supporting User-Driven Innovation by Generating Ideas

Parul Singh, Indian Institute of Foreign Trade, India

Chapter 17
Crowdsourcing for Transcultural Marketing and Innovation

Rauno Rusko, University of Lapland, Finland

Chapter 18
Environmental Turbulence and Complexity and the Optimal Degree of Internal Open Innovation for MNCs

J. Piet Hausberg, LUISS Guido Carli, Italy & University of Hamburg, Germany
Alfredo Valentino, LUISS Guido Carli, Italy
Luca Sabini, LUISS Guido Carli, Italy
Chapter 19
Innovation Network in IT Sector: A Study of Collaboration Patterns Among Selected Foreign IT Firms in India and China .......................................................... 321
Swapan Kumar Patra, Jawaharlal Nehru University, India

Chapter 20
The Development of Mobile Service Applications for Consumers and Intelligent Networks .... 344
Rebecca De Coster, Brunel University, UK
Abdulrhman Albesher, Brunel University, UK

Chapter 21
Open Social Innovation........................................................................................................ 361
Teresa Cristina Monteiro Martins, Universidade Federal de Lavras, Brazil
Paulo Henrique de Souza Bermejo, Universidade Federal de Lavras, Brazil

Chapter 22
An Empirical Analysis of Innovation Success Factors Due to ICT Use in Japanese Firms .......... 381
Hiroki Idota, Kinki University, Japan
Teruyuki Bunno, Kinki University, Japan
Masatsugu Tsuji, University of Hyogo, Japan

Chapter 23
A Case Study of Progressive Formation of Accounting Cloud Services in Japan .................. 406
Yutaka Mizuno, Nagoya Institute of Technology, Japan
Nobutaka Odake, Nagoya Institute of Technology, Japan

Chapter 24
A Guide to Online Applications for User Involvement in Living Lab Innovation ...................... 426
Asbjørn Følstad, SINTEF ICT, Norway
Amela Karahasanović, SINTEF ICT, Norway & University of Oslo, Norway

Chapter 25
Incremental and Radical Service Innovation in Living Labs.................................................. 445
Seppo Leminen, Laurea University of Applied Sciences, Finland & Aalto University, Finland
Mika Westerlund, Carleton University, Canada

Chapter 26
Chaos-Based Cryptography for Voice Secure Wireless Communication................................. 460
Sattar B. Sadkhan Al Maliky, University of Babylon, Iraq
Rana Saad, University of Babylon, Iraq

Chapter 27
ICT: A Resource for Bricolage in Social Entrepreneurship.................................................. 494
Preeta M. Banerjee, Brandeis University, USA
Section 3
Frameworks and Methodologies

This section provides in-depth coverage of conceptual architecture frameworks to provide the reader with a comprehensive understanding of the emerging developments within the field of Economics. Research fundamentals imperative to the understanding of developmental processes within Economics are offered. From broad examinations to specific discussions on methodology, the research found within this section spans the discipline while offering detailed, specific discussions. From basic designs to abstract development, these chapters serve to expand the reaches of development and design technologies within the Economics community. This section includes 10 contributions from researchers throughout the world on the topic of Economics.

Chapter 28
The Entrepreneur as Strategist and Improviser: Subject of Activity and Object of Understanding ................................................................. 510
   Kiril Todorov, University of National and World Economy, Bulgaria

Chapter 29
Users’ Involvement in the Innovation Process through Web 2.0: A Framework for Involvement Analysis in a Brazilian Automotive Company ................................................................. 536
   Sergio Ricardo Mazini, São Paulo State University, Brazil
   José Alcides Gobbo Jr., São Paulo State University, Brazil

Volume II

Chapter 30
Mapping the Knowledge Supply Chain to Foster Innovation ................................................................. 562
   Nicola Bellantuono, Politecnico di Bari, Italy
   Pierpaolo Pontrandolfo, Politecnico di Bari, Italy
   Barbara Scozzi, Politecnico di Bari, Italy

Chapter 31
Contextual Intelligence: A Critical Competency for Leading in Complex Environments ............ 579
   Matthew R. Kutz, Bowling Green State University, USA
   Anita Bamford-Wade, Gold Coast University Hospital, Queensland, Australia

Chapter 32
Information Strategy as Enabler of Competitive Advantage ................................................................. 599
   Neeta Baporikar, University of Pune, India

Chapter 33
Open Business Intelligence for Better Decision-Making ................................................................. 611
   Jorge Bernardino, Institute Polytechnic of Coimbra, Portugal
Chapter 34
Entrepreneurship as a Survival-Seeking Strategy for Indigenous Communities: The Case of Indigenous Ecotourism SMEs in Mexico ................................................................. 629
Virginia Barba-Sánchez, University of Castilla-La Mancha, Spain
Ericka Molina-Ramirez, National Polytechnic Institute, Mexico

Chapter 35
Online Communities and Open Innovation: The Solar System Metaphor ................................................................. 652
Alberto Francesconi, University of Pavia, Italy
Riccardo Bonazzi, University of Lausanne, Switzerland
Claudia Dossena, University of Pavia, Italy

Chapter 36
Fostering Creative Transformations in Organizations with Chaos ................................................................. 667
Robert Pryor, Australian Catholic University, Australia
Jim Bright, Australian Catholic University, Australia

Chapter 37
Successful Internet Entrepreneurs Don’t Have To Be College Dropouts: A Model for Nurturing College Students to Become Successful Internet Entrepreneurs ................................................................. 687
Sonya Zhang, Cal Poly Pomona, USA

Section 4
Cases and Applications
This section discusses a variety of applications and opportunities available that can be considered by practitioners in developing viable and effective Economics programs and processes. This section includes 21 chapters that review topics from case studies, to best practices, and ongoing research around the globe. Further chapters discuss Economics in a variety of settings. Contributions included in this section provide excellent coverage of today’s IT community and how research into Economics is impacting the social fabric of our present-day global village.

Chapter 38
Applying Open Innovation Strategies to eGovernment for Better Public Services ................................................................. 703
Georgousopoulos Christos, INTRASOFT International S.A., Luxembourg
Ziouvelou Xenia, Athens Information Technology, Greece
Ramfios Antonis, INTRASOFT International S.A., Luxembourg
Kokkinakos Panagiotis, National Technical University of Athens, Greece
Anshu Jain, IBM, India
G. R. Gangadharan, IBM, India
Taher Yehia, Tilburg University, The Netherlands

Chapter 39
Relationship between Company’s Intellectual Capital and Performance: A Study of Indian IT Industry ................................................................. 728
Karam Pal Narwal, Guru Jambheshwar University of Science and Technology, India
Sushila Soriya, Central University of Rajasthan, India

Andreas Ahrens, Wismar University of Applied Sciences: Technology, Business, and Design, Germany
Olaf Bassus, Wismar University of Applied Sciences: Technology, Business, and Design, Germany
Jeļena Zaščerinska, Centre for Education and Innovation Research, Latvia

Chapter 55
Youth Entrepreneurship in Indian Scenario ...................................................................................... 1014

Neeta Baporikar, University of Pune, India
Chapter 56
Internet Entrepreneurship Education and its Role in Online Business: A Case from Iran ............ 1025
Mehdi Behboudi, Islamic Azad University, Qazvin Branch, Iran
Nazanin Jalili, Islamic Azad University, Qazvin Branch, Iran
Kobra Najafi, Islamic Azad University, Qazvin Branch, Iran

Chapter 57
Creativity with Institutionalization: Cooperatives as an Alternative Way of Starting a Creative Business – Cases from Finland ........................................................................................................ 1035
Riitta Kemppainen-Koivisto, University of Lapland, Finland
Katta Siltavirta, University of Lapland, Finland
Rauno Rusko, University of Lapland, Finland
Seppo Särkkä, University of Lapland, Finland

Chapter 58
The Social Role of University Entrepreneurship .............................................................................. 1055
Carmen Păunescu, Bucharest University of Economic Studies, Romania
Ramona Cantaragiu, Bucharest University of Economic Studies, Romania

Section 5
Issues and Challenges
This section contains 21 chapters, giving a wide variety of perspectives on Economics and its implications. The section also discusses new ethical considerations within transparency and accountability. Within the chapters, the reader is presented with an in-depth analysis of the most current and relevant issues within this growing field of study. Crucial questions are addressed and alternatives offered.

Chapter 59
Social e-Entrepreneurship, Employment, and e-Learning .......................................................... 1073
Mediha Tezcan, Anadolu University, Turkey

Chapter 60
Discovering the Nexus between Market Orientation and Open Innovation: A Grounded Theory Approach .................................................................................................................. 1088
Gul Denktas-Sakar, Dokuz Eylul University, Turkey
Cimen Karatas-Cetin, Dokuz Eylul University, Turkey
Omur Yasar Saatcioglu, Dokuz Eylul University, Turkey

Volume III
Chapter 61
Entrepreneurship Education at Mtech, University of Maryland .................................................... 1129
James V. Green, University of Maryland, USA
David F. Barbe, University of Maryland, USA
Chapter 62
The Practice of Open Innovation in Chinese Enterprises ........................................ 1154
   Jin Chen, Tsinghua University, China
   Yufen Chen, Zhejiang Gongshang University, China

Chapter 63
Chaotic Systems and Their Recent Implementations on Improving Intelligent Systems .......... 1167
   Utku Köse, Usak University, Turkey
   Ahmet Arslan, Selcuk University, Turkey

Chapter 64
A Standardized Marketing Audit Model for Entrepreneurship Education in Egypt .................. 1201
   Sherein H. Abou-Warda, Kafrelsheikh University, Egypt

Chapter 65
Managing Fisheries in Light of Complexity and Chaos Theories ..................................... 1221
   Manuel Alberto Martins Ferreira, Instituto Universitário de Lisboa (ISCTE-IUL), BRU-UNIDE, Portugal
   José António Candeias Bonito Filipe, Instituto Universitário de Lisboa (ISCTE-IUL), BRU-UNIDE, Portugal
   Manuel Francisco Pacheco Coelho, SOCIUS/ISEG-UTL, Portugal
   Maria Isabel Pedro, CEGIST/IST, Portugal

Chapter 66
Chaotic Essence inside the Organizational Reality ..................................................... 1234
   Ulas Cakar, Dokuz Eylul University Tınaztepe Yerleskesi, Turkey
   Ozan Nadir Alakavuklar, Dokuz Eylul University Tınaztepe Yerleskesi, Turkey

Chapter 67
Critical Review of Academic Entrepreneurship in India .................................................. 1251
   Neeta Baporikar, Ministry of Higher Education CAS-Salalah, Sultanate of Oman

Chapter 68
Culture-Based Creativity in the Regional Strategy of Development: Is Russia in Game? .......... 1275
   Oxana Karnaukhova, Southern Federal University, Russia

Chapter 69
Employability, E-Entrepreneurship, and Economic Recovery ........................................ 1294
   Teresa Torres-Coronas, Universitat Rovira i Virgili, Spain
   Maria-Aránzazu Vidal-Blasco, Universitat Rovira i Virgili, Spain
   Mario Arias-Oliva, Universitat Rovira i Virgili, Spain
   Ricard Monclús-Guitart, Universitat Rovira i Virgili, Spain
Chapter 70
Universities’ Role as Catalysts for Venture Creation

Thomas O’Neal, University of Central Florida, USA & Florida Economic Gardening Institute/GrowFL Program, USA
Henriette Schoen, University of Central Florida, USA & Florida Business Incubation Association, USA

Chapter 71
Mobbing and Chaotic Reflections in International Politics Documents

Tuğba Küçüktamer, Near East University, Turkey

Chapter 72
Sustainable Development in Business Education: The Role of Entrepreneurship as Pedagogy

Fernando Lourenço, Institute for Tourism Studies, Macao, China & Manchester Metropolitan University Business School, UK
Natalie Sappleton, Manchester Metropolitan University Business School, UK
Weng Si Lei, Institute for Tourism Studies, Macao, China
Ranis Cheng, University of Sheffield, UK

Chapter 73
Lessons Learned from Chilean Model of Innovation and Development

Juan Rock T., Universidad de Talca, Chile
Gordana Pesakovic, King University, USA

Chapter 74
Why and How Did Health Economics Appear? Who Were the Main Authors? What is the Role of ITCs in its Development?

Ana Pinto Borges, Universidade do Porto, & NIDISAG, Portugal
Erika Laranjeira, Universidade do Porto, Portugal

Chapter 75
Chaos and Complexity in Financial Statements

Fernando Juárez, Universidad del Rosario, Colombia

Chapter 76
Teachers’ Improvisation of Instructional Materials for Nigerian Home Economics Curriculum Delivery: Challenges and Strategies

Eyiuche Ifeoma Olibie, Nnamdi Azikiwe University, Nigeria
Chinyere Nwabunwanne, Federal College of Education (Technical), Nigeria
Dorothy Nkem Ezenwanne, Nwafor Orizu College of Education, Nigeria

Chapter 77
The Role of ICT in Supporting Transnational Diaspora Entrepreneurship

Leona Achtenhagen, Jönköping International Business School, Sweden
Bengt Henoch, Jönköping International Business School, Sweden
Quang Luong, Jönköping International Business School, Sweden
Chapter 78
Entrepreneurship Approach to Higher Education Policy Aspects ........................................... 1460
  Mukund Deshpande, University of Pune, India

Chapter 79
The Entrepreneurial Manager: Challenges in Forming Key Competencies .............................. 1499
  Kostadin Kolarov, University of National and World Economy, Sofia, Bulgaria

Section 6
Emerging Trends

This section highlights research potential within the field of Economics while exploring uncharted areas of study for the advancement of the discipline. Introducing this section are chapters that set the stage for future research directions and topical suggestions for continued debate, centering on the new venues and forums for discussion. A pair of chapters on the usability and effectiveness research makes up the middle of the section of the final 10 chapters, and the book concludes with a look ahead into the future of the Economics field. In all, this text will serve as a vital resource to practitioners and academics interested in the best practices and applications of the burgeoning field of Economics.

Chapter 80
Diaspora Entrepreneurship: New Directions in Enterprise Development .................................. 1519
  Sanya Ojo, RDBS, University of East London, UK

Chapter 81
Software Engineering and New Emerging Technologies: The Involvement of Users for Development Applications for Tablets.............................................................................................. 1541
  Sergio Ricardo Mazini, University Center Toledo Araçatuba (UNITOLEDO), Brazil

Chapter 82
Web-Based Services and Future Business Models ............................................................... 1564
  Valentina Ndou, University of Salento, Italy
  Pasquale Del Vecchio, University of Salento, Italy
  Giuseppina Passiante, University of Salento, Italy
  Laura Schina, University of Salento, Italy

Chapter 83
Government 2.0: Innovation for E-Democracy........................................................................ 1577
  Malgorzata Pankowska, University of Economics in Katowice, Poland

Chapter 84
The Future of Library Services in the Digital Economy: A Case Study of the Copperbelt University Library.................................................................................................................. 1596
  Matuka Chipembele, Copperbelt University, Zambia
Chapter 85
The Involvement of New Ideas in Products and Services Innovation: A Technological Approach
José Monteiro, Instituto Nacional de Engenharia e Computadores do Porto, Portugal
José Duarte Santos, Polytechnic Institute of Porto, School of Accounting and Administration, Portugal
Fernando Almeida, University of Porto & INESC TEC, Portugal

Chapter 86
A New Space for Biotechnology Innovation? Comparison of Physical and Virtual Collaboration in Early Drug Discovery
David Tamoschus, Bayer Vital GmbH, Germany

Chapter 87
Modify and Adapt: Global Higher Education in a Changing Economy
Kenneth E. Lane, Southeastern Louisiana University, USA
Pamela Lemoine, Columbus State University, USA
Tina M. Tinney, Northshore Technical Community College, USA
Michael D. Richardson, Columbus State University, USA

Chapter 88
Mobile Health Technology in the US: Current Status and Unrealized Scope
Tridib Bandyopadhyay, Kennesaw State University, USA
Bahman Zadeh, Kennesaw State University, USA

Chapter 89
The Open Innovation Paradigm: Can Digital Storytelling Generate Value for the Educational Field?
Luca Ganzerla, Ca’ Foscari University of Venice, Italy
Cinzia Colapinto, Ca’ Foscari University of Venice, Italy
Elena Rocco, Ca’ Foscari University of Venice, Italy
