Table of Contents

Foreword .............................................................................................................................................. xv

Preface ................................................................................................................................................ xvii

Section 1
Resource Management Optimal Management of Human Resources and Skills for Balanced Costs and SLA Attainment

Chapter 1
Capacity Planning and Management of IT Incident Management Services based on Queuing Models 1
>Ta-Hsin Li, IBM T. J. Watson Research Center, USA
>Juhnyoung Lee, IBM T. J. Watson Research Center, USA

Chapter 2
Modeling and Optimization of Complex Service Delivery Systems ................................................... 33
>Yixin Diao, IBM T. J. Watson Research Center, USA
>Aliza Heching, IBM T. J. Watson Research Center, USA

Chapter 3
Organizational Models for Service Delivery .......................................................................................... 53
>Gargi B. Dasgupta, IBM Research, India
>Shivali Agarwal, IBM Research, India
>Renuka Sindhgatta, IBM Research, India

Chapter 4
Optimization of Service Development Strategy in a Global Environment ......................................... 86
>Nianjun Zhou, IBM T. J. Watson Research Center, USA
>Wesley M. Gifford, IBM T. J. Watson Research Center, USA

Chapter 5
Improving Application Management Services through Ticket Data Clustering ................................ 119
>Ying Li, IBM T. J. Watson Research Center, USA
Chapter 6
   Rong Liu, IBM T. J. Watson Research Center, USA
   Shivali Agarwal, IBM Research – India, Bangalore, India
   Renuka R Sindhgatta, IBM Research – India, Bangalore, India
   Juhnyoung Lee, IBM T. J. Watson Research Center, USA

Section 2
Operations Management Optimizations of Service Operations - Incident, Problem, and Change Management

Chapter 7
Tuning up IT Services using Monitoring Configuration Analytics ........................................... 179
   Liang Tang, Florida International University, USA
   Chunqiu i Zeng, Florida International University, USA
   Tao Li, Florida International University, USA
   Larisa (Laura) Shwartz, IBM T. J. Watson Research Center, USA
   Genady Ya. Graharnik, St. John’s University, USA

Chapter 8
Using Visual Analytics to Diagnose Productivity and Quality Issues on IT Service Pools .......... 207
   Victor Cavalcante, IBM Research, Brazil
   Heloisa Candello, IBM Research, Brazil
   Claudio Pinhanez, IBM Research, Brazil
   Alan Braz, IBM Research, Brazil
   Franklin Amorin, IBM Research, Brazil
   Nelson Nauata, IBM Research, Brazil

Chapter 9
Optimization Model for IT Change Management .................................................................. 233
   Yixin Diao, IBM Thomas J. Watson Research Center, USA
   Daniela Rosu, IBM Thomas J. Watson Research Center, USA
   Leila Zia, Stanford University, USA

Chapter 10
Using Machine Learning and Probabilistic Frameworks to Enhance Incident and Problem Management: Automated Ticket Classification and Structuring ............................................. 259
   Anca Sailer, IBM, USA
   Ruchi Mahindru, IBM, USA
   Yang Song, Microsoft, USA
   Xing Wei, Inmobi, USA
Section 3
Process Management Optimization of Process Management using Innovative, IT Services-Specific Models

Chapter 11
A Mashup-Based Approach to Optimize Human Performance in IT Service Management .............. 300
Carlos Raniery Paula dos Santos, Federal University of Rio Grande do Sul, Brazil
Lisandro Zambenedetti Granville, Federal University of Rio Grande do Sul, Brazil
David Loewenstern, White Pages, USA
Larisa Shwartz, IBM T.J. Watson Research Center, USA
Nikos Anerousis, IBM T.J. Watson Research Center, USA

Chapter 12
A Service-Oriented Algebra for Optimizing the Management of Service Requests ....................... 337
Roman Vaculín, IBM Research, USA
Yi-Min Chee, IBM Research, USA
Daniel V. Oppenheim, IBM Research, USA
Lav R. Varshney, University of Illinois at Urbana-Champaign, USA

Chapter 13
Predictive Analytics for Business Processes in Service Management ......................................... 366
Yurdaer N. Doganata, IBM T. J. Watson Research Center, USA
Geetika T. Lakshmanan, IBM T. J. Watson Research Center, USA
Merve Unuvar, IBM T. J. Watson Research Center, USA

Chapter 14
Optimizing Cloud Storage Management Services ........................................................................ 404
Gabriel Alatorre, IBM Research Almaden, USA
Sandeep Gopisetty, IBM Research Almaden, USA
Divyesh Jadav, IBM Research - Almaden, USA
Bryan Langston, IBM Research Almaden, USA
Nagapramod Manadgere, IBM Research Almaden, USA
Ramani Routray, IBM Research Almaden, USA
Heiko Ludwig, IBM Research Almaden, USA

About the Contributors .................................................................................................................. 453

Compilation of References ........................................................................................................... 430
