Table of Contents

Foreword ........................................................................................................................................... xvi

Preface ............................................................................................................................................. xviii

Acknowledgment ............................................................................................................................ xxvi

Section 1
Transformative Learning and Curriculum Basics

Chapter 1
Transformative Learning: Theory and Practice for Faculty and Students ............ 1
Colleen M. Halupa, A.T. Still University, USA & LeTourneau University, USA

Chapter 2
Transformative Curriculum Design ............................................................................................. 40
Colleen M. Halupa, A.T. Still University, USA & LeTourneau University, USA

Section 2
Transformation and Technology

Chapter 3
Hybrid, Online, and Flipped Classrooms in Health Science: Enhanced Learning Environments ................................................................. 105
Lynda Tierney Konecny, A.T. Still University, USA

Chapter 4
Technology in Transformative Learning Environments ................................. 126
Michael Hamlin, Touro University Worldwide, USA
Section 3
Pedagogy in the Health Sciences

Chapter 5
Pedagogy, Andragogy, and Heutagogy
Colleen M. Halupa, A.T. Still University, USA & LeTourneau University, USA

Chapter 6
Curriculum Design for Interprofessional Education in the Preclinical Health Sciences
Barbara Lynn Joyce, Oakland University William Beaumont School of Medicine, USA
Nelia Afonso, Oakland University William Beaumont School of Medicine, USA
Jill Stefaniak, Old Dominion University, USA
Victoria C. Lucia, Oakland University William Beaumont School of Medicine, USA
Stephanie Swanberg, Oakland University William Beaumont School of Medicine, USA

Chapter 7
Promoting Complex Learning through Relevant Learning Experiences for the Health Sciences
Jill E. Stefaniak, Old Dominion University, USA
Barbara L. Joyce, Oakland University William Beaumont School of Medicine, USA

Section 4
Medical Education

Chapter 8
Transformative Learning in Osteopathic Medical Education
Patricia S. Sexton, A.T. Still University, USA
Neal R. Chamberlain, A.T. Still University, USA

Chapter 9
A Longitudinal Study of Facilitating Medical Students’ Stepwise Transformation to Distance Learners
Fanny Pettersson, Umeå University, Sweden
Anders D. Olofsson, Umeå University, Sweden
Section 5
Nursing Education

Chapter 10
Problem-Based Learning in Transformative Nursing Education................. 277
  Renee Yarbrough-Yale, John Peter Smith Hospital, USA

Chapter 11
A User Friendly Guide to Successful Implementation of Care Mapping: A
Big Picture Tool................................................................................................. 296
  Carrie Ann Arena-Marshall, University of Texas at Arlington, USA &
  Tarrant County College, USA

Section 6
Miscellaneous

Chapter 12
Transforming Education in Health Care Administration and Opticianry ....... 312
  Warren G. McDonald, Methodist University, USA & A. T. Still
  University, USA

Chapter 13
Building Soul and Measuring Flow in the Learning Environment............ 326
  Donna Allen, A.T. Still University, USA

Glossary ............................................................................................................. 339

Compilation of References ....................................................................... 346

About the Contributors .............................................................................. 377
