# Table of Contents

**Foreword** ............................................................................................................................................. xvi

**Preface** ............................................................................................................................................. xviii

## Section 1
### Transport Mode Specific Decision Support Systems

**Chapter 1**
An Optimization-Based Decision Support Framework for Robust Airline Crew Pairing Process........ 1
*Buğent Soykan, Old Dominion University, USA*
*Serpil Erol, Gazi University, Turkey*

**Chapter 2**
An Artificial Neural Network Model as the Decision Support System of Ports............................... 36
*Can Elmar Balas, Gazi University, Turkey*

**Chapter 3**
Efficiency Analysis of Turkey’s Transportation System Using Decision Support Model: Data Envelopment Method ................................................................................................................... 61
*Adnan Sozen, Gazi University, Turkey*
*Fatih Cipil, Turkish National Police, Turkey*

**Chapter 4**
Determination of Work Zone Capacity Using ELM, MPMR and GPR .............................................. 93
*Sangeeta Roy, Vit University, India*
*J. Jagan, Vit University, India*
*Pijush Samui, Vit University, India*

**Chapter 5**
The Evolution of Logistics Hubs and a Conceptual Framework for Logistics Hubs Location Decisions ........................................................................................................................................... 112
*Serpil Erol, Gazi University, Turkey*
*Aykut Süreyya Duyguvar, Turkish Military Academy, Turkey*
Section 2
Decisions in Urban Transportation

Chapter 6
A Web Based Decision Support System (DSS) for Individuals’ Urban Travel Alternatives.............. 145
Ebru V. Ocalir-Akunal, Gazi University, Turkey

Chapter 7
Modeling the Change of Urban Spatial Structure: Use Interzonal Travel Data to Estimate Urban Growth and Expansion by Hierarchical Cluster Analyses ................................................................. 168
Darcin Akin, Gediz University, Turkey
Serdar Alasalvar, Istanbul Greater Metropolitan Municipality, Turkey

Chapter 8
Analytical Hierarchy Process (AHP) based Decision Support System for Urban Intersections in Transportation Planning................................................................. 203
Yetis Sazi Murat, Pamukkale University, Turkey
Turan Arslan, Uludag University, Turkey
Ziya Cakici, Pamukkale University, Turkey
Cengiz Akçam, General Highway Directorate, Turkey

Chapter 9
Understanding Accessibility: Accessibility Modeling With Geographical Information Systems (GIS) ..................................................................................................................... 223
Kivanc Ertugay, Selcuk University, Turkey
Sebnem H. Duzgun, Middle East Technical University, Turkey

Section 3
Sustainability/ Environmental Risks of Transport

Chapter 10
Sustainable Transport System: Transport On-Demand ................................................................. 259
Maria Spichkova, RMIT University, Australia
Margaret Hamilton, RMIT University, Australia

Chapter 11
Smart Technologies for Sustainable Mobility................................................................................ 288
Ozge Yalciner Ercoskun, Gazi University, Turkey

Chapter 12
Integrating Spatial Planning of Protected Areas and Transportation Infrastructures .................. 311
Mihai Răzvan Niță, University of Bucharest, Romania
Mihăiță Iulian Niculae, University of Bucharest, Romania
Gabriel Ovidiu Văncău, University of Bucharest, Romania
Chapter 13
Multi-Objective Optimizer for Multimodal Distribution Networks: Operating Cost, Carbon Footprint and Delivery Time .................................................................................................................................................. 330
  Mauro Gamberi, University of Padova, Italy
  Marco Bortolini, University of Bologna, Italy
  Francesco Pilati, University of Padova, Italy
  Alberto Regattieri, University of Bologna, Italy

Chapter 14
A Literature Survey for Hazardous Materials Transportation .............................................................................................................................................................................. 371
  Serpil Erol, Gazi University, Turkey
  Zafer Yılmaz, Turkish Military Academy, Turkey

Chapter 15
A Tool for GIS Based Risk Analysis for Transportation of Dangerous Goods on Road (the RAGISADR): A Case Study for Fuel Products ...................................................................................................................................... 394
  Serhan Karabulut, Turkish Land Forces, Turkey
  Ebru V. Ocalir-Akunal, Gazi University, Turkey

Compilation of References .............................................................................................................................................................................. 416

About the Contributors .............................................................................................................................................................................. 466
