# Table of Contents

Preface .................................................................................................................................................. xix

Acknowledgment ............................................................................................................................... xxxii

**Chapter 1**  
An Entrepreneurial Approach to Cloud Computing Design and Application: Technological Innovation and Information System Usage ................................................................. 1  
*Vanessa Ratten, La Trobe University, Australia*

**Chapter 2**  
Using Cloud Computing for E-Government: A New Dawn ................................................................. 15  
*Thamer Al-Rousan, Isra University, Pakistan*  
*Shadi Aljawarneh, Jordan University of Science and Technology, Jordan*

**Chapter 3**  
Supply Chain in the Cloud: Opportunities, Barriers, and a Generic Treatment ................................. 24  
*Goknur Arzu Akyuz, Atilim University, Turkey*  
*Mohammad Rehan, Atilim University, Turkey*

**Chapter 4**  
System Benchmarking on Public Clouds: Comparing Instance Types of Virtual Machine Clusters ........................................................................................................................................ 37  
*Sanjay P. Ahuja, University of North Florida, USA*  
*Thomas F. Furman, University of North Florida, USA*  
*Kerwin E. Roslie, University of North Florida, USA*  
*Jared T. Wheeler, University of North Florida, USA*

**Chapter 5**  
Approaches to Cloud Computing in the Public Sector: Case Studies in UK Local Government .......... 51  
*Jeffrey Chang, London South Bank University, UK*  
*Mark Johnston, Julian Campbell Foundation, UK*

**Chapter 6**  
A Mechanism for Securing Hybrid Cloud Outsourced Data: Securing Hybrid Cloud ....................... 73  
*Abdullah El-Haj, University of Jordan, Jordan*  
*Shadi Aljawarneh, Jordan University of Science and Technology, Jordan*
Chapter 7
Optimal Resource Provisioning in Federated-Cloud Environments ........................................ 84
Veena Goswami, KIIT University, India
Choudhury N. Sahoo, KIIT University, India

Chapter 8
Towards Future IT Service Personalization: Issues in BYOD and the Personal Cloud .................. 102
Stuart Dillon, University of Waikato, New Zealand
Florian Stahl, University of Münster, Germany
Gottfried Vossen, University of Münster, Germany

Chapter 9
User Preference-Based Web Service Composition and Execution Framework .......................... 118
Bassam Al-Shargabi, Isra University, Jordan
Omar Sabri, Isra University, Jordan

Chapter 10
Cloud Security Engineering Concept and Vision: Concept and Vision ..................................... 139
Shadi Aljawarneh, Jordan University of Science and Technology, Jordan

Chapter 11
Fairness-Aware Task Allocation for Heterogeneous Multi-Cloud Systems ................................ 147
Sanjaya Kumar Panda, Indian School of Mines Dhanbad, India & VSS University of Technology Burla, India
Roshni Pradhan, VSS University of Technology Burla, India
Benazir Neha, VSS University of Technology Burla, India
Sujaya Kumar Sathua, VSS University of Technology Burla, India

Chapter 12
Submesh Allocation in 3D Mesh Multicomputers Using Free Lists: A Corner-Boundary Approach with Complete Recognition Capability ............................................................ 171
Saad Bani-Mohammad, Prince Hussein Bin Abdullah College for Information Technology, Al al-Bayt University, Jordan
Ismail Ababneh, Prince Hussein Bin Abdullah College for Information Technology, Al al-Bayt University, Jordan
Motasem Al Smadi, Prince Hussein Bin Abdullah College for Information Technology, Al al-Bayt University, Jordan

Chapter 13
Mahesh Raisinghani, Texas Woman’s University, USA
Efosa Carroll Idemudia, Arkansas Tech University, USA
Meghana Chekuri, Texas Woman’s University, USA
Kendra Fisher, Texas Woman’s University, USA
Jennifer Hanna, Texas Woman’s University, USA
Chapter 14
Bio-Inspired Private Information Retrieval System over Cloud Service Using the Social Bees’ Lifestyle with a 3D Visualisation

Hadj Ahmed Bouarara, Tahar Moulay University of Saida, Algeria
Reda Mohamed Hamou, Tahar Moulay University of Saida, Algeria
Amine Abdelmalek, Tahar Moulay University of Saida, Algeria

Chapter 15
Performance Management on Cloud Using Multi-Priority Queuing Systems

A. Madankan, Yazd University, Iran
A. Delavar Khalfi, Yazd University, Iran

Chapter 16
An Efficient E-Negotiation Agent Using Rule-Based and Case-Based Approaches

Amruta More, Maharashtra Institute of Technology, India
Sheetal Vij, Maharashtra Institute of Technology, India
Debajyoti Mukhopadhyay, Maharashtra Institute of Technology, India

Chapter 17
Domain-Based Dynamic Ranking

Sutirtha Kumar Guha, Seacom Engineering College, India
Anirban Kundu, Netaji Subhash Engineering College, India
Rana Dattagupta, Jadavpur University, India

Chapter 18
An Approach on Cloud Disk Searching Using Parallel Channels

Saswati Sarkar, Adimas Institute of Technology, India
Anirban Kundu, Netai Subhash Engineering College, India

Chapter 19
Data Intensive Cloud Computing: Issues and Challenges

Jayalakshmi D. S., M. S. Ramaiah Institute of Technology, India
R. Srinivasan, S. R. M. University, India
K. G. Srinivasa, M. S. Ramaiah Institute of Technology, India

Chapter 20
A Key-Based Database Sharding Implementation for Big Data Analytics

Sikha Bagui, University of West Florida, USA
Loi Nguyen, Development and Technology Center (NETPDTI), USA
