Acknowledgment

The editor would like to acknowledge the help of all the people involved in this Book project and, more specifically, to the authors and to the reviewers that took part in the review process. Without their support, this book would not have become a reality. The editor is really grateful.

First, the editor would like to thank each one of the authors for their contributions. My sincere gratitude goes to the chapter’s authors who contributed their time and expertise to the development of this book.

Second, the editors wish to acknowledge the valuable contributions of the reviewers regarding the improvement of quality, coherence, and content presentation of chapters. Most of the authors also served as referees; we highly appreciate their double task.
