# Table of Contents

Foreword ........................................................................................................................................... xvi

Preface.................................................................................................................................................. xix

**Section 1**  
Applications of Immersive Learning Environments

**Chapter 1**  
Eight Years of Utilizing Virtual Worlds for Education: A View from the Trenches ................................................................. 1  
*Stefan Schutt, Victoria University, Australia*  
*Dale Linegar, Oztron Media, Australia*

**Chapter 2**  
Teacher Perceptions of the Practicality and Effectiveness of Immersive Ecological Simulations ....................................................... 22  
*Shari J. Metcalf, Harvard University, USA*  
*Amy M. Kamarainen, Harvard University, USA*  
*Cailean B. Cooke, WestEd, USA*  
*Selen Turkay, Harvard University, USA*  
*Tina Grotzer, Harvard University, USA*  
*Chris Dede, Harvard University, USA*

**Chapter 3**  
Students as Designers of Virtual World Learning Environments ............... 46  
*Lisa Jacka, Southern Cross University, Australia*  
*Kate Booth, Southern Cross University, Australia*

**Chapter 4**  
Teacher-Created Augmented Reality Experiences: An International Perspective ................................................................................. 66  
*Patrick O’Shea, Appalachian State University, USA*  
*Daniel Curry-Corcoran, Newport News Public Schools, USA*
Chapter 5
Using Massively Multiplayer Role Playing Games (MMORPGs) to Support Second Language Learning: A Case Study of the Student Journey ................. 87
  Rebecca Strachan, Northumbria University, UK
  Isara Kongmee, Northumbria University, UK
  Alison Pickard, Northumbria University, UK

Section 2
Personal Learning Environments

Chapter 6
Participation and Interaction in Learning Environments: A Whole-Network Analysis ................................................................. 111
  Oskar Casquero, University of the Basque Country, Spain
  Manuel Benito, University of the Basque Country, Spain
  Jesús Romo, University of the Basque Country, Spain
  Ramón Ovelar, University of the Basque Country, Spain

Chapter 7
Trajectory of an Institutional PLE in Higher Education Based on an e-Portfolios System ............................................................. 132
  Jesús Salinas, Universitat de les Illes Balears, Spain
  Victoria I. Marín, Universitat de les Illes Balears, Spain

Chapter 8
Applying E-Portfolio Evaluation Criteria to the Blackboard LMS E-Portfolio ............................................................................. 157
  Gary F. McKenna, University of the West of Scotland, UK
  Gavin J. Baxter, University of the West of Scotland, UK
  Thomas Hainey, University of the West of Scotland, UK

Chapter 9
Revisiting the Effects and Affordances of Virtual Manipulatives for Mathematics Learning ...................................................... 186
  Patricia S. Moyer-Packenham, Utah State University, USA
  Arla Westenskow, Utah State University, USA

Section 3
Identity, Community, and Citizenship

Chapter 10
Identity, Citizenship, and Moral Constructs from the Virtual Self ............... 217
  Stewart Martin, University of Hull, UK
Chapter 11
Facilitating Communities of Practice in Online Immersive Learning Environments ............................................................. 238

Krista Terry, Appalachian State University, USA
Amy Cheney, Appalachian State University, USA
Les Bolt, Appalachian State University, USA
Terry McClannon, Appalachian State University, USA
Robert L. Sanders, Appalachian State University, USA

Section 4
Emerging Research Methodologies

Chapter 12
A Research Lens for Studying Power in Learning Games: Critical Ciné-Ethnography .......................................................... 267

Scott Joseph Warren, University of North Texas, USA
Jonathan S. Gratch, State University of New York at Oneonta, USA

Chapter 13
Design-Based Research with AGILE Sprints to Produce MUVES in Vocational Education ...................................................... 291

Todd Cochrane, Nelson Marlborough Institute of Technology, New Zealand
Niki E. Davis, University of Canterbury, New Zealand
Julie Mackey, University of Canterbury, New Zealand

Compilation of References ........................................................................................................... 314

About the Contributors ........................................................................................................... 361

Index ........................................................................................................................................... 372
