Acknowledgment

The editors would like to acknowledge the help of all the people involved in this project and, more specifically, to the authors, reviewers and editorial advisory board members that took part in the review process. Without their support, this book would not have become a reality.

First, the editors would like to thank each one of the authors for their contributions. Our sincere gratitude goes to the chapter’s authors who contributed their time and expertise to this book.

Second, the editors express profound appreciation to the reviewers and editorial advisory board members for their thoughtful reviews, critiques, and suggestions, which helped the authors to improve quality, coherence, and content presentation of the chapters. Most of the authors also served as referees; we highly appreciate their double task.
