Preface ............................................................................................................................................. xviii

Acknowledgment .............................................................................................................................. xxiii

## Section 1
Mitigating Challenges in Elderly Population

### Chapter 1
Challenges in Developing Applications for Aging Populations .......................................................... 1

*Drew Marie Williams, Marquette University, USA*

*Md Osman Gani, Marquette University, USA*

*Ivor D Addo, Marquette University, USA*

*AKM Jahangir Alam Majumder, Marquette University, USA*

*Chandana P Tamma, Marquette University, USA*

*Mong-Te Wang, Tunghai University, Taiwan*

*Chih-Hung Chang, Hsiuping University of Science and Technology, Taiwan*

*Sheikh Iqbal Ahamed, Marquette University, USA*

*Cheng-Chung Chu, Tunghai University, Taiwan*

### Chapter 2
Finding a Smart Technical System for Mitigating the Elderly’s Driving Accidents: System Development for Safe Driving for the Elderly .......................................................................................................................... 22

*Sebin Jung, General Motors Korea, Korea*

### Chapter 3
Supporting Active and Healthy Aging with Advanced Robotics Integrated in Smart Environment ................................................................................................................................................. 46

*Raffaele Esposito, Sant’Anna School of Advanced Studies, Italy*

*Laura Fiorini, Sant’Anna School of Advanced Studies, Italy*

*Raffaele Limosani, Sant’Anna School of Advanced Studies, Italy*

*Manuele Bonaccorsi, Sant’Anna School of Advanced Studies, Italy*

*Alessandro Manzi, Sant’Anna School of Advanced Studies, Italy*

*Filippo Cavallo, Sant’Anna School of Advanced Studies, Italy*

*Paolo Dario, Sant’Anna School of Advanced Studies, Italy*
Chapter 4
Hand Exercising Exoskeleton: An Aging Assistive Device for Rehabilitation ........................................... 78
Soumya Kanti Manna, College of Engineering & Management, India
Prasanna Kumar Lenka, National Institute for the Orthopaedically Handicapped, India
Subhasis Bhaumik, Indian Institute of Engineering Science & Technology, India

Chapter 5
Cognitive Fitness, Assessment, and Cognitive Rehabilitation of Older Population: From MMSE to Computerized and VR Based Tools........................................................................................................................................... 97
Unai Diaz-Orueta, Nesplora Technology & Behavior, Spain

Section 2
Optimizing ICT Technologies for Aging Society

Chapter 6
User-Centered Design of Wearable Assistive Devices for the Aging Population................................. 130
Philip Kinsella, Swinburne University of Technology, Australia
Paul Stoddart, Swinburne University of Technology, Australia
Charlie Ranscombe, Swinburne University of Technology, Australia

Chapter 7
Elderly Monitoring and AAL for Independent Living at Home: Human Needs, Technological Issues, and Dependability ................................................................. 154
Fabio Veronese, Polytechnic University of Milan, Italy
Hassan Saidinejad, Polytechnic University of Milan, Italy
Sara Comai, Polytechnic University of Milan, Italy
Fabio Salice, Polytechnic University of Milan, Italy

Chapter 8
ICT-Enabled Communication Tools for the Elderly: A Proximity-Based Social Communication Tool........................................................................................................... 182
Hassan Saidinejad, Polytechnic University of Milan, Italy
Fabio Veronese, Polytechnic University of Milan, Italy
Sara Comai, Polytechnic University of Milan, Italy
Fabio Salice, Polytechnic University of Milan, Italy

Chapter 9
Wired and Wireless Distributed e-Home Healthcare System................................................................. 207
Booma Devi Sekar, University of Macau, Macau
JiaLi Ma, University of Macau, Macau
MingChui Dong, University of Macau, Macau
Chapter 10
Empowering Patients in Self-Management of Parkinson’s Disease through Cooperative ICT Systems

Erika Rovini, Sant’Anna School of Advanced Studies, Italy
Dario Esposito, Sant’Anna School of Advanced Studies, Italy
Carlo Maremmani, Local health authority, Massa & Carrara, Italy
Paolo Bongioanni, Azienda Ospedaliero-Universitaria Pisana, NeuroCare onlus, Italy
Filippo Cavallo, Sant’Anna School of Advanced Studies, Italy

Section 3
Elderly Healthcare

Chapter 11
Evolving Concepts for Use of Stem Cells and Tissue Engineering for Cardiac Regeneration

Jahnavi Sarvepalli, Indian Institute of Technology Madras, India
Rajalakshmi Santhakumar, Indian Institute of Technology Madras, India
Rama Shanker Verma, Indian Institute of Technology Madras, India

Chapter 12
Ventricular Assist Device and Its Necessity for Elderly Population

Md. Shamsul Arefin, Swinburne University of Technology, Australia
Nasser K. Awad, Swinburne University of Technology, Australia
Chandra Prakash Rathore, Oracle India Private Limited, India
Anupam Shukla, ABV-Indian Institute of Information Technology and Management Gwalior, India
Yosry S. Morsi, Swinburne University of Technology, Australia

Chapter 13
Assistive Technology for Heart Monitoring of Elderly People through Speech Analysis

Kavita Thakur, Pt. Ravishankar Shukla University, India
Anjali Deshpande, M. M. College of Technology, India
Arun Shrihari Zadgaonkar, Dr. C.V. Raman University, India

Chapter 14
Parkinson’s Disease Detection with Gait Recognition using Soft Computing Techniques

Anupam Shukla, ABV-Indian Institute of Information Technology and Management Gwalior, India
Chandra Prakash Rathore, Oracle India Private Limited, India
Neera Bhansali, Florida International University, USA

Chapter 15
Computer Aided Diagnosis System for Breast Cancer Detection

Arun Kumar Wadhwani, Madhav Institute of Technology and Science, India
Sulochana Wadhwani, Madhav Institute of Technology and Science, India
Tripty Singh, Amrita Vishwa Vidyapeetham, India
Chapter 16
Quantum Computing Based Technique for Cancer Disease Detection System.......................... 396

Setu Kumar Chaturvedi, Technocrats Institute of Technology, India
Milan Jain, Technocrats Institute of Technology, India

Compilation of References ............................................................................................................ 417

About the Contributors ................................................................................................................. 478
