# Table of Contents

## Preface

Preface .................................................................................................................................................. xxvi

## Volume I

### Section 1

**Fundamental Concepts and Theories**

This section serves as a foundation for this exhaustive reference tool by addressing underlying principles essential to the understanding of business intelligence. Chapters found within these pages provide an excellent framework in which to position business intelligence within the field of information science and technology. Insight regarding the critical incorporation of global measures into business intelligence is addressed, while crucial stumbling blocks of this field are explored. With 14 chapters comprising this foundational section, the reader can learn and choose from a compendium of expert research on the elemental theories underscoring the business intelligence discipline.

### Chapter 1

Text-Driven Reasoning and Multi-Structured Data Analytics for Business Intelligence ................. 1  
Lipika Dey, Innovation Labs, Tata Consultancy Services, India  
Ishan Verma, Innovation Labs, Tata Consultancy Services, India

### Chapter 2

Implementing Business Intelligence in Contemporary Organizations .............................................. 33  
Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand

### Chapter 3

Overview of Business Intelligence through Data Mining................................................................. 49  
Abdulrahman R. Alazemi, Kuwait University, Kuwait  
Abdulaziz R. Alazemi, Kuwait University, Kuwait

### Chapter 4

Overview of Predictive Modeling Approaches in Health Care Data Mining .................................... 73  
Sunita Soni, Bhilai Institute of Technology, India
Chapter 5
Understanding the Influence of Business Intelligence Systems on Information Quality: The Importance of Business Knowledge ................................................................. 96
  Aleš Popovič, University of Ljubljana, Slovenia & ISEGI, Universidade Nova de Lisboa, Portugal
  Jurij Jaklič, University of Ljubljana, Slovenia & ISEGI, Universidade Nova de Lisboa, Portugal

Chapter 6
An Enterprise Ontology Based Conceptual Modeling Grammar for Representing Value Chain and Supply Chain Scripts......................................................................................... 119
  Wim Laurier, Université Saint-Louis, Belgium
  Geert Poels, Ghent University, Belgium

Chapter 7
Trust-Based Knowledge Management System Building .................................................. 138
  Andrea Bencsik, Széchenyi István University of Győr, Hungary & Selye J. University Komarno, Slovakia
  Irma Rácz, Széchenyi István University of Győr, Hungary

Chapter 8
We Have Good Information for You: Cognitive Authority and Information Retrieval on the Web... 160
  Filipe Roseiro Côgo, Federal University of Technology at Paraná (UTFPR), Brazil
  Roberto Pereira, University of Campinas (UNICAMP), Brazil

Chapter 9
Big Data and Service Science.......................................................................................... 180
  Tu-Bao Ho, Japan Advanced Institute of Science and Technology, Japan
  Siriwon Taewijit, Japan Advanced Institute of Science and Technology, Japan
  Quang-Bach Ho, Japan Advanced Institute of Science and Technology, Japan
  Hieu-Chi Dam, Japan Advanced Institute of Science and Technology, Japan

Chapter 10
Information Systems Innovations Using Competitive Intelligence .................................. 197
  Phathutshedzo Nemutanzhela, Tshwane University of Technology, South Africa

Chapter 11
Business Intelligence, Knowledge Management, and Customer Relationship Management
  Technological Support in Enterprise Competitive Competence........................................ 216
  Ming-Chang Lee, National Kaohsiung University of Applied Science, Taiwan

Chapter 12
Competitive Advantage and Automated Sharing of Tacit Knowledge ............................... 234
  Michael A. Chilton, Kansas State University, USA
  James M. Bloodgood, Kansas State University, USA
Chapter 13
Biological and Medical Big Data Mining ................................................................. 246
  George Tzanis, Aristotle University of Thessaloniki, Greece

Chapter 14
Rules Extraction using Data Mining in Historical Data ........................................... 263
  Manish Kumar, IIIT, Allahabad, India
  Shashank Srivastava, IIIT, Allahabad, India

Section 2
Development and Design Methodologies

This section provides in-depth coverage of conceptual architecture frameworks to provide the reader with a comprehensive understanding of the emerging developments within the field of business intelligence. Research fundamentals imperative to the understanding of developmental processes within business intelligence are offered. From broad examinations to specific discussions on methodology, the research found within this section spans the discipline while offering detailed, specific discussions. From basic designs to abstract development, these chapters serve to expand the reaches of development and design technologies within the business intelligence community. This section includes 15 contributions from researchers throughout the world on the topic of business intelligence.

Chapter 15
A Perturbation Method Based on Singular Value Decomposition and Feature Selection for Privacy Preserving Data Mining .............................................................................. 281
  Mohammad Reza Keyvanpour, Alzahra University, Iran
  Somayyeh Seifi Moradi, Ports and Maritime Organization, Iran

Chapter 16
Business Intelligence Strategy: A Utilities Company Case Study ................................ 305
  Paul Hawking, Victoria University, Australia
  Carmine Sellitto, Victoria University, Australia

Chapter 17
Alignment of Knowledge Sharing Mechanism and Knowledge Node Positioning ........... 318
  Mei-Tai Chu, La Trobe University, Australia
  Rajiv Khosla, La Trobe University, Australia

Chapter 18
Implementation of Mining Techniques to Enhance Discovery in Service-Oriented Computing ...... 338
  Chellammal Surianarayanan, Bharathidasan University, India
  Gopinath Ganapathy, Bharathidasan University, India

Chapter 19
Predictive Analytics and Data Mining: A Framework for Optimizing Decisions with R Tool ....... 359
  Ritu Chauhan, Amity University, India
  Harleen Kaur, Hamdard University, India
Chapter 20
Infrastructures of Knowledge Sharing Countrywide .................................................. 375
  Leila Nemati-Anaraki, Iran University of Medical Sciences, Iran

Chapter 21
A Hybrid Analysis of E-Learning Types and Knowledge Sharing Measurement Indicators: A
Model for E-Learning Environments ........................................................................ 395
  Davood Qorbani, University of Tehran, Iran
  Iman Raeesi Vanani, University of Tehran, Iran
  Babak Sohrabi, University of Tehran, Iran
  Peter Forte, France Business School, France

Chapter 22
The Role of Knowledge Sharing on Organisational Innovation: An Integrated Framework .......... 406
  Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand

Chapter 23
Data Mining Models as a Tool for Churn Reduction and Custom Product Development in
Telecommunication Industries .................................................................................. 430
  Goran Klepac, Raiffeisenbank Austria, Croatia

Chapter 24
A Layered Parameterized Framework for Intelligent Information Retrieval in Dynamic Social
Network using Data Mining ....................................................................................... 458
  Shailendra Kumar Sonkar, National Institute of Technical Teacher's Training and Research,
  India
  Vishal Bhatnagar, Ambedkar Institute of Advanced Communication Technologies and
  Research, India
  Rama Krishna Challa, National Institute of Technical Teacher's Training and Research,
  India

Chapter 25
Lessons from the Private Sector: A Framework to Be Adopted in the Public Sector .............. 476
  Jamie O’Brien, St. Norbert College, USA

Chapter 26
BISC: A Framework for Aligning Business Intelligence with Corporate Strategies Based on
Enterprise Architecture Framework ............................................................................. 501
  Atieh Dokhanchi, Shahid Beheshti University, Iran
  Eslam Nazemi, Shahid Beheshti University, Iran

Chapter 27
Evaluation of Clustering Methods for Adaptive Learning Systems .................................. 519
  Wilhelmiina Hämaläinen, University of Eastern Finland, Finland
  Ville Kumpulainen, University of Eastern Finland, Finland
  Maxim Mozgovoy, University of Aizu, Japan
Chapter 28
Application of Data Mining and Analysis Techniques for Renewable Energy Network Design and Optimization .......................................................... 543
   Tianxing Cai, Lamar University, USA

Chapter 29
Applications of Data Mining in Software Development Life Cycle: A Literature Survey and Classification............................................................... 558
   Naveen Dahiya, MSIT, India
   Vishal Bhatnagar, AIAC&T&R, India
   Manjeet Singh, YMCAUST, India
   Neeti Sangwan, MSIT, India

Volume II

Section 3
Tools and Technologies

This section presents an extensive coverage of various tools and technologies available in the field of business intelligence that practitioners and academicians alike can utilize to develop different techniques. These chapters enlighten readers about fundamental research on the many tools facilitating the burgeoning field of business intelligence. It is through these rigorously researched chapters that the reader is provided with countless examples of the up-and-coming tools and technologies emerging from the field of business intelligence. With 15 chapters, this section offers a broad treatment of some of the many tools and technologies within the business intelligence field.

Chapter 30
Integrating Business Intelligence Services in the Cloud: A Conceptual Model......................... 572
   Volker Herwig, University for Applied Sciences at Erfurt, Germany
   Kristof Friess, University for Applied Sciences at Erfurt, Germany

Chapter 31
   Swee-Mei Chin, Multimedia University, Malaysia
   Su-Cheng Haw, Multimedia University, Malaysia
   Fang-Fang Chua, Multimedia University, Malaysia

Chapter 32
Information Retrieval Technologies and the “Realities” of Music Information Seeking ............. 612
   Charilaos Lavranos, Ionian University, Greece
   Petros Kostagiolas, Ionian University, Greece
   Joseph Papadatos, Ionian University, Greece

Chapter 33
A Formative Evaluation of Rendezvous: A Platform for Knowledge Sharing and Entertainment..... 632
   Alton Y.K. Chua, Nanyang Technological University, Singapore

Chapter 42
ConChi: Pattern Change Mining from Mobile Context-Aware Data ................................................................. 798
Luca Cagliero, Politecnico di Torino, Italy

Chapter 43
Social Networks Discovery Based on Information Retrieval Technologies and Bees Swarm Optimization: Application to DBLP ........................................................................................................... 821
Yassine Drias, USTHB, LRIA, Algeria
Habiba Drias, USTHB, LRIA, Algeria

Chapter 44
Effectiveness of Visualization for Information Retrieval through Ontologies with Entity Evolution: The Impact of Ontology Modeling ........................................................................................................... 841
Akrivi Katifori, National and Kapodistrian University of Athens, Greece
Costas Vassilakis, University of Peloponnese, Greece
George Lepouras, University of Peloponnese, Greece
Elena Torou, National and Kapodistrian University of Athens, Greece

Section 4
Utilization and Application

This section discusses a variety of applications and opportunities available that can be considered by practitioners in developing viable and effective business intelligence programs and processes. This section includes 18 chapters that review topics from case studies to best practices and ongoing research. Further chapters discuss business intelligence in a variety of settings. Contributions included in this section provide excellent coverage of today’s IT community and how research into business intelligence is impacting the social fabric of our present-day global village.

Chapter 45
A Case Study of a Knowledge-Sharing Web-Based Platform for Energy Education ........................................... 869
Mei-Chen Chang, National Science and Technology Museum, Taiwan
Yao-Ming Chu, National Kaohsiung Normal University, Taiwan

Chapter 46
The Importance of Visualization and Interaction in the Anomaly Detection Process ........................................... 880
Maria Riveiro, Informatics Research Centre, University of Skövde, Skövde, Sweden

Chapter 47
Detection of Non-Technical Losses: The Project MIDAS ......................................................................................... 898
Juan I. Guerrero, Universidad de Sevilla, Spain
Íñigo Monedero, Universidad de Sevilla, Spain
Félix Biscarri, Universidad de Sevilla, Spain
Jesús Biscarri, Universidad de Sevilla, Spain
Rocío Millán, Universidad de Sevilla, Spain
Carlos León, Universidad de Sevilla, Spain
Chapter 48
A Comparative Study on Medical Diagnosis Using Predictive Data Mining: A Case Study............ 923
Seyed Jalaleddin Mousavirad, University of Kashan, Iran
Hossein Ebrahimpour-Komleh, University of Kashan, Iran

Chapter 49
Knowledge Sharing for Improving Effectiveness of University-Industry Collaborations ............... 955
Leila Nemati-Anaraki, Islamic Azad University, Iran
Azadeh Heidari, Islamic Azad University, Iran

Chapter 50
From Project’s Information Management to Project-Based Organizational Learning: The Role of Knowledge Sharing.......................................................................................................................... 973
Maria Almeida, University of Porto, Portugal
António Lucas Soares, University of Porto, Portugal

Chapter 51
A Study on a Combined Model in Business Intelligence for Improving Electronic Insurance .......... 994
Mahdi Bazargani, Islamic Azad University, Iran
Elnaz Namazi, Islamic Azad University, Iran

Chapter 52
Enablers and Barriers of Knowledge Sharing for Offshore Outsource ISD Project:
A Case Study....................................................................................................................................... 999
Hans Solli-Sæther, BI Norwegian Business School, Norway
Jan Terje Karlsen, BI Norwegian Business School, Norway

Chapter 53
Assessing the Usefulness of Testing for Validating and Correcting Security Risk Models Based on Two Industrial Case Studies........................................................................................................ 1016
Gencer Erdogan, SINTEF ICT, Norway & University of Oslo, Norway
Fredrik Seehusen, SINTEF ICT, Norway
Ketil Stølen, SINTEF ICT, Norway & University of Oslo, Norway
Jon Hofstad, EVRY, Norway
Jan Øyvind Aagedal, Accurate Equity, Norway

Chapter 54
Recognising Influences on Attitudes to Knowledge Sharing in a Research Establishment: An Interpretivist Investigation.................................................................................................................. 1038
Penny Hart, University of Portsmouth, UK

Chapter 55
A Proposal to Study of Cross Language Information Retrieval (CLIR) System Users’ Information Seeking Behavior .................................................................................................................. 1059
YooJin Ha, Clarion University, USA
Chapter 56
Predictive Analytics of Social Networks: A Survey of Tasks and Techniques................................. 1080
  Ming Yang, Kansas State University, USA
  William H. Hsu, Kansas State University, USA
  Surya Teja Kallumadi, Kansas State University, USA

Chapter 57
On The Reuse of Past Searches in Information Retrieval: Study of Two Probabilistic Algorithms ........................................................................................................................................ 1117
  Claudio Gutiérrez-Soto, Université de Toulouse, France & Universidad del Bio, Chile
  Gilles Hubert, Université de Toulouse, France

Volume III

Chapter 58
A Literature Survey for Hazardous Materials Transportation .............................................................. 1138
  Serpil Erol, Gazi University, Turkey
  Zafer Yılmaz, Turkish Military Academy, Turkey

Chapter 59
Resource Scheduling Techniques in Utility Computing: A Survey ..................................................... 1159
  Inderveer Chana, Thapar University, India
  Tarandeep Kaur, Thapar University, India

Chapter 60
Information Extraction from Microarray Data: A Survey of Data Mining Techniques ....................... 1180
  Alessandro Fiori, Institute for Cancer Research and Treatment, Italy
  Alberto Grand, Institute for Cancer Research and Treatment, Italy
  Giulia Bruno, Politecnico di Torino, Italy
  Francesco Gavino Brundu, Politecnico di Torino, Italy
  Domenico Schioppa, University of Torino Medical School, Italy
  Andrea Bertotti, University of Torino Medical School, Italy

Chapter 61
Roles of Culture for Knowledge Sharing in Asian Virtual Teams: A Case Study............................. 1212
  Jinghuai She, Capital University of Economics and Business, China
  Xi Zhang, Tianjin University, China
  Patricia Ordóñez de Pablos, University of Oviedo, Spain
  Weiguang Wang, Chinese Academy of Sciences, China

Chapter 62
Applying the K-Means Algorithm in Big Raw Data Sets with Hadoop and MapReduce .................. 1220
  Ilias K. Savvas, TEI of Larissa, Greece
  Georgia N. Sofianidou, TEI of Larissa, Greece
  M-Tahar Kechadi, University College Dublin, Ireland
Section 5
Organizational and Social Implications

This section includes a wide range of research pertaining to the social and behavioral impact of business intelligence around the world. Chapters introducing this section critically analyze and discuss trends in business intelligence. Also investigating a concern within the field of business intelligence is research which discusses the effect of user behavior on business intelligence. With 17 chapters, the discussions presented in this section offer research into the integration of global business intelligence as well as implementation of ethical and workflow considerations for all organizations.

Chapter 63
From Tf-Idf to Learning-to-Rank: An Overview ................................................................. 1245
  Muhammad Ibrahim, Monash University, Australia
  Manzur Murshed, Federation University Australia

Chapter 64
On Trust, Knowledge Sharing and Innovation ................................................................. 1293
  Isabel Martins, Australian College of Kuwait, Kuwait
  Ana Martins, Xi’an Jiaotong-Liverpool University, China
  Orlando Petiz Pereira, University of Minho, Campus de Gualtar, Portugal

Chapter 65
Insights into the Search Behavior of Non-Medical Professionals Based on Task Difficulty and an Evaluation against New Generation Medical Information Retrieval Strategies .................. 1314
  Anushia Inthiran, Monash University, Malaysia
  Saadat M. Alhashmi, Abu Dhabi University, UAE
  Pervaiz K. Ahmed, Monash University, Malaysia

Chapter 66
Employing Individuals’ Social Capital to Create Value in the Public Sector Organisations .......... 1340
  Mahmood Ghaznavi, Massey University, New Zealand
  Salman Iqbal, Massey University, New Zealand
  Paul Toulson, Massey University, New Zealand

Chapter 67
Customer Relationship Management and Data Mining: A Classification Decision Tree to Predict Customer Purchasing Behavior in Global Market .................................................. 1362
  Niccolò Gordini, University of Milan – Bicocca, Italy
  Valerio Veglio, University of Milan – Bicocca, Italy

Chapter 68
Determinants of Knowledge Sharing Behaviour among Academics in United Arab Emirates ........ 1402
  Huda Alami Skaik, International Islamic University Malaysia, Malaysia
  Roslina Othman, International Islamic University Malaysia, Malaysia
Chapter 69
The Influence of Individual Characteristics on Knowledge Sharing Practices, Enablers, and Barriers in a Project Management Context............................................................. 1419
   Laila N. Marouf, Kuwait University, Kuwait
   Omar E. M. Khalil, Kuwait University, Kuwait

Chapter 70
Predicting Student Academic Performance: Role of Knowledge Sharing and Outcome Expectations.................................................................................................................. 1445
   M.M. Haris Aslam, University of Management and Technology, Pakistan
   Ahmed F. Siddiqi, University of Management and Technology, Pakistan
   Khuram Shahzad, University of Management and Technology, Pakistan
   Sami Ullah Bajwa, University of Management and Technology, Pakistan

Chapter 71
Multi-Group Moderation Analysis for Relationship between Knowledge Sharing Orientation and Business Performance........................................................................................................ 1463
   Sandeep Vij, DAV University, India
   Rayees Farooq, Lovely Professional University, India

Chapter 72
Chinese Cultural Values and Knowledge Sharing ................................................................. 1482
   Alan K.M. Au, The Open University of Hong Kong, Hong Kong
   Matthew C.H. Yeung, The Open University of Hong Kong, Hong Kong

Chapter 73
Knowledge Sharing, Social Relationships, and Contextual Performance: The Moderating Influence of Information Technology Competence ................................................................. 1491
   Jianping Peng, Sun Yat-sen University, China
   Jing Quan, Salisbury University, USA
   Guoying Zhang, Midwestern State University, USA
   Alan J. Dubinsky, Midwestern State University, USA & Purdue University West Lafayette, USA

Chapter 74
HRM Practices and Knowledge Sharing Behaviour: Lessons from Pakistani Knowledge Intensive Firms .............................................................................................................. 1507
   Salman Iqbal, University of Central Punjab, Lahore, Pakistan
   Paul Toulson, Massey University – Manawatu, New Zealand
   David Tweed, Massey University – Manawatu, New Zealand

Chapter 75
Effect of Knowledge Sharing and Supply Chain Management on Organizational Performance...... 1524
   Korhan Arun, Namik Kemal University, Turkey
Chapter 76
Knowledge Management Practices and the Focus on the Individual

Isabel Rechberg, University of Kent, UK
Jawad Syed, University of Huddersfield, UK

Chapter 77
Business Intelligence in the Music Industry Value Chain: Ensuring Sustainability in a Turbulent Business Environment

Hanne Russ, University of Massachusetts Boston, USA
Jean-Pierre Kuilboer, University of Massachusetts Boston, USA
Noushin Ashrafi, University of Massachusetts Boston, USA

Chapter 78
Face-to-Face Matters: Inspirations from the Human Library

Corey Jackson, Syracuse University, USA
Yun Huang, Syracuse University, USA
Abby S. Kasowitz-Scheer, Syracuse University, USA

Chapter 79
Organizational Barriers and Facilitators in Embedding Knowledge Strategy

Neeta Baporikar, Ministry of Higher Education, CAS - Salalah, Sultanate of Oman

Section 6
Managerial Impact

The 10 chapters within this section present contemporary coverage of the social implications of business intelligence, more specifically related to the corporate and managerial utilization of information sharing technologies and applications, and how these technologies can be extrapolated to be used in business intelligence. Equally as crucial, chapters within this section discuss how leaders can utilize business intelligence applications to get the best outcomes from their governors and their citizens.

Chapter 80
Knowledge Sharing between Local Government and Rural Remote Communities in Tanzania: Technology Strategies and Cultural Practice Can Work Together

Chantal Philips, University of Guelph, Canada
Wulystan P. Mtega, Sokoine University of Agriculture, Tanzania
Arja Vainio-Mattila, Huron University College, Canada

Chapter 81
Quantifying Education Quality in Secondary Schools

Marco Spruit, Utrecht University, The Netherlands
Tiffany Adriana, Utrecht University, The Netherlands

Chapter 82
Social Networks and Employee Knowledge Sharing and Performance: A Chinese Case Study of a State-Owned Enterprise

Jianping Peng, Sun Yat-sen University, China
Jing Quan, Salisbury University, USA
Chapter 83
Knowledge Sharing Barriers in Procurement: Case of a Finnish-Based Construction Company.... 1684
   Irina Atkova, University of Oulu, Finland
   Marika Tuomela-Pyykkönen, University of Oulu, Finland

Chapter 84
Knowledge Management Practice at a Bulgarian Bank: A Case Study................................. 1702
   Mahmood Hussain Shah, University of Central Lancashire, UK
   Nevena Rahneva, University of Central Lancashire, UK
   Rizwan Ahmed, Lahore School of Economics, Pakistan

Volume IV

Chapter 85
Mind Training for Innovation: Building Foundations for Creativity in the Workplace............... 1719
   Julia Connell, University of Technology, Sydney, Australia
   Charlotte Thaarup, Creative Transformations, Australia

Chapter 86
Police Knowledge Management Strategy .................................................................................. 1739
   Petter Gottschalk, BI Norwegian Business School, Norway

Chapter 87
The Roles of Knowledge Management and Organizational Innovation in Global Business ....... 1759
   Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand

Chapter 88
Knowledge Integration in Problem Solving Processes: A Case Study - Perceptions of Workers .... 1784
   Maria José Sousa, Instituto Universitário de Lisboa, Portugal & Universidade Europeia,
   Lisboa, Portugal

Chapter 89
QoS Oriented Enhancement based on the Analysis of Dynamic Job Scheduling in HPC .......... 1800
   Reshmi Ravendran, SBM College of Engineering and Technology, India
   D. Shanthi Saravanan, PSNA College of Engineering and Technology, India

Section 7
Critical Issues

This section contains 13 chapters, giving a wide variety of perspectives on business intelligence and its implications. Within the chapters, the reader is presented with an in-depth analysis of the most current and relevant issues within this growing field of study. Crucial questions are addressed and alternatives offered along with theoretical approaches discussed.

Chapter 90
Data Mining and Business Intelligence: A Comparative, Historical Perspective..................... 1819
   Ana Azevedo, Algoritmi R&D Center/University of Minho, Portugal & Polytechnic Institute
   of Porto/ISCAP, Portugal
Chapter 91
Exploration of Soft Computing Approaches in Itemset Mining .................................................... 1830
   Jyothi Pillai, Bhilai Institute of Technology, India
   O. P. Vyas, Indian Institute of Information Technology, India

Chapter 92
Rethinking Knowledge Sharing Barriers: A Content Analysis of 103 Studies ...................... 1857
   Simon Cleveland, Nova Southeastern University, USA
   Timothy J. Ellis, Nova Southeastern University, USA

Chapter 93
A Comprehensive Relational Model of Factors Influencing Knowledge Sharing: An Empirical Study .......................................................... 1881
   Shang Shanshan, Shanghai International Studies University, China

Chapter 94
Modeling the Metrics of Individual, Organizational and Technological Knowledge Sharing Barriers: An Analytical Network Process Approach .......................................................... 1906
   B. P. Sharma, Motilal Nehru National Institute of Technology, India
   M. D. Singh, Motilal Nehru National Institute of Technology, India

Chapter 95
   Ahmad Vazehi Ashtiani, University Malaya, Malaysia
   Sharmila Jayasingam, University Malaya, Malaysia

Chapter 96
An Investigation of BI Implementation Critical Success Factors in Iranian Context .................. 1935
   Ahad Zare Ravasan, Allameh Tabataba’i University, Iran
   Sogol Rabiee Savoji, MehrAlborz University, Iran

Chapter 97
Comparison of Linguistic Summaries and Fuzzy Functional Dependencies Related to Data Mining .......................................................... 1952
   Miroslav Hudec, University of Economics in Bratislava, Slovakia
   Miljan Vučetić, University of Belgrade, Serbia
   Mirko Vujošević, University of Belgrade, Serbia

Chapter 98
   Mohammed Nasser Al-Suqri, Sultan Qaboos University, Oman
   Rahma Mohammed Al-Kharusi, Sultan Qaboos University, Oman
Emerging Trends

This section highlights research potential within the field of business intelligence while exploring uncharted areas of study for the advancement of the discipline. Introducing this section are chapters that set the stage for future research directions and topical suggestions for continued debate, centering on the new venues and forums for discussion. A pair of chapters on space-time makes up the middle of the section of the final 10 chapters, and the book concludes with a look ahead into the future of the business intelligence field. In all, this text will serve as a vital resource to practitioners and academics interested in the best practices and applications of the burgeoning field of business intelligence.

Chapter 103
The Data Machine: Identification in the Age of Data Mining .............................................. 2068
Nicholas A. Hanford, Rensselaer Polytechnic Institute, USA

Chapter 104
Pattern Based Feature Construction in Semantic Data Mining ........................................... 2084
Agnieszka Lawrynowicz, Poznan University of Technology, Poland
Jędrzej Potoniec, Poznan University of Technology, Poland

Chapter 105
How Web 2.0 Shapes Patient Knowledge Sharing: The Case of Diabetes in Italy .................. 2123
Chiara Libreri, Università Cattolica del Sacro Cuore, Italy
Guendalina Graffigna, Università Cattolica del Sacro Cuore, Italy
Chapter 106
Business Intelligence for Healthcare: A Prescription for Better Managing Costs and Medical Outcomes ................................................................. 2146
  Jack S. Cook, SUNY Brockport, USA
  Pamela A. Neely, SUNY Brockport, USA

Chapter 107
Data Profiling and Data Quality Metric Measurement as a Proactive Input into the Operation of Business Intelligence Systems ........................................ 2171
  Scott Delaney, Hydro Tasmania, Australia

Chapter 108
Adaptive Intrusion Detection Systems: The Next Generation of IDSs......................................................... 2189
  Hassina Bensefia, Mohamed El Bachir El Ibrahimi University, Algeria
  Nassira Ghoualimi-Zine, Badji Mokhtar University, Algeria

Chapter 109
Beyond the Back Room: The Role of Metadata and Catalog Librarians in Digital Humanities ...... 2220
  Lisa M. McFall, Hamilton College, USA

Chapter 110
Metadata in Serbia: Describing Library Collections, Towards a More Semantic Web ..................... 2242
  Adam Sofronijevic, University of Belgrade, Serbia
  Natasa Dakic, University of Belgrade, Serbia
  Jelena Andonovski, University of Belgrade, Serbia

Chapter 111
Information Systems in Healthcare with a Special Focus on Developing Countries ...................... 2256
  Ahed Abugabah, American University in the Emirates, UAE
  Osama Afarraj, King Saud University, Saudi Arabia
  Louis Sansogni, Griffith University, Australia

Chapter 112
Biologically Inspired Techniques for Data Mining: A Brief Overview of Particle Swarm Optimization for KDD ......................................................................................................................... 2275
  Shafiq Alam, University of Auckland, New Zealand
  Gillian Dobbie, University of Auckland, New Zealand
  Yun Sing Koh, University of Auckland, New Zealand
  Saeed ur Rehman, Unitec Institute of Technology, New Zealand

Index ........................................................................................................................................................................ xxix
