# Table of Contents

Foreword .......................................................... xxiv

Preface .......................................................... xxvi

Acknowledgment .................................................. xxxii

## Section 1  
Theoretical Research

### Chapter 1  
Beyond Fun: Pintrich, Motivation to Learn, and Games for Learning

1  
*Mario M Martinez-Garza, Vanderbilt University, USA*
*Douglas B Clark, Vanderbilt University, USA*
*Stephen S Killingsworth, Vanderbilt University, USA*
*Deanne M. Adams, University of Notre Dame, USA*

### Chapter 2  
Design and Implementation of an MMO: Approaches to Support Inquiry Learning with Games

33  
*Louisa Rosenheck, MIT, USA*
*Susannah Gordon-Messer, MIT, USA*
*Jody Clarke-Midura, Utah State University, USA*
*Eric Klopfer, MIT, USA*

### Chapter 3  
Games and Their Embodied Learning Principles in the Classroom: Connecting Learning Theory to Practice

55  
*Sam von Gillern, Iowa State University*

### Chapter 4  
Game Design Frameworks and Reality Guides

85  
*Tomi “bgt” Suovuo, University of Turku, Finland*
*Ilmari Lahti, University of Turku, Finland*
*Jouni Smed, University of Turku, Finland*

</table>
Chapter 14
An Examination of Pre-Service Teachers’ Attitudes towards Game-Based Learning................. 294
   Phu Vu, University of Nebraska at Kearney, USA
   Scott Fredrickson, University of Nebraska at Kearney, USA
   Patricia Hoehner, University of Nebraska at Kearney, USA
   Jane K. Ziebarth-Bovill, University of Nebraska at Kearney, USA

Section 3
Discipline Cases

Chapter 15
Using a Live Simulation to Teach Human Anatomy and the Diagnostic Process to High School Students................................................................. 307
   Debra C. Burkey Piecka, Wheeling Jesuit University, USA
   Manetta Calinger, Wheeling Jesuit University, USA

Chapter 16
Using Video Gameplay to Measure Achievement for Students with Disabilities: A New Perspective to Grading and Achievement Reporting ................................................................. 326
   Benjamin Gallegos, University of Central Florida, USA
   Michelle T. Kepple, University of Central Florida, USA
   Caitlyn A. Bukaty, University of Central Florida, USA

Chapter 17
The Creation of a Rubric for the Evaluation of Language Teaching and Learning Videogames ...... 353
   Douglas A. Agar, Macquarie University, Australia
   Philip J. Chappell, Macquarie University, Australia

Chapter 18
Can Pre-Service Teachers Create Digital Game-Based Activities without Coding Knowledge? ...... 380
   Phu Vu, University of Nebraska at Kearney, USA
   Martonia Gaskill, University of Nebraska at Kearney, USA

Chapter 19
Exploring the Impact of Free-Form and Structured Digital Games on the Player Experience of Kindergarten and Primary School Students................................................................. 394
   Sotiris Kirginas, University of Athens, Greece
   Dimitris Gouscos, University of Athens, Greece

Chapter 20
Mission HydroSci: Distance Learning through Game-Based 3D Virtual Learning Environments ................................................................. 421
   James Laffey, University of Missouri, USA
   Troy D. Sadler, University of Missouri, USA
   Sean Goggins, University of Missouri, USA
   Joseph Griffin, University of Missouri, USA
   Ryan Nicholas Babiuch, University of Missouri, USA
Chapter 21
Building Bridges: Teachers Leveraging Game-Based Implicit Science Learning in Physics

Section 4
Gaming Innovations

Chapter 22
The Use of Smart Toys in Learning Games

Chapter 23
Minecraft Schooling: Digital Learning for Junior Years

Chapter 24
Designing a Learning Analytic System for Assessing Immersive Virtual Learning Environments

Chapter 25
Navigating Through Virtual Worlds: From Single Characters to Large Crowds

Chapter 26
Game-Based Learning with the Leap Motion Controller

Chapter 27
A Future Focus of Gaming: Soft Skills
Compilation of References ............................................................................................................. 586
