Table of Contents

Preface.................................................................................................................................................. xv

Chapter 1
Green Synthesis of Metallic Nanoparticles Using Plant Compounds and Their Applications:
Metallic Nanoparticles Synthesis Using Plants ................................................................. 1
   Selvaraj Arokiyaraj, Seoul National University, South Korea
   Muthupandian Saravanan, Mekelle University, Ethiopia
   Rajaraman Bharanidharan, Pondicherry Centre for Biological Sciences, India
   Villianur Ibrahim Hairul Islam, Pondicherry Centre for Biological Sciences, India
   Mohamed Bououdina, University of Bahrain, Bahrain
   Savariar Vincent, Loyola College, Chennai, India

Chapter 2
Toxic Effects of Engineered Nanoparticles on Living Cells................................................. 35
   Manel Bouloudenine, Mohamed Chérif Messaâdia University, Algeria & LEREC Laboratory, Badji Mokhtar University, Algeria
   Mohamed Bououdina, University of Bahrain, Bahrain

Chapter 3
Bioinspired Nanoparticles for Efficient Drug Delivery System........................................ 69
   Basma Taqi Al-Najar, University of Bahrain, Bahrain
   Mohamed Bououdina, University of Bahrain, Bahrain

Chapter 4
Self-Assembled Biomimetic Scaffolds for Bone Tissue Engineering ................................. 104
   Ozan Karaman, İzmir Katip Celebi University, Turkey
   Cenk Celik, Ege University, Turkey
   Aylin Sendemir Urkmez, Ege University, Turkey

Chapter 5
Introduction to Bio-Inspired Hydrogel and Their Application: Hydrogels ............................ 133
   John Melnyczuk, Clark Atlanta University, USA
   Soubantika Palchoudhury, The University of Alabama, USA
Chapter 6
Synthesis, Characterizations, and Biological Effects Study of Some Quinoline Family

Messai Amel, Laboratoire d’Ingénierie et Sciences des Matériaux Avancés (ISMA) Institut des Sciences et Technologie Abbès Laghrour University Khenchela; 40000, Algeria

Chapter 7
Peroxovanadates and Its Bio-Mimicking Relation with Vanadium Haloperoxidases

Pranjal Saikia, Gauhati University (IST), India
Saitanya Kumar Bharadwaj, Pragjyotish College, India
Abu Taleb Miah, Gauhati University (IST), India

Chapter 8
A Bio-Inspired Phenomena in Cementitious Materials: Self-Healing

Onur Üzüm, Ege University, Turkey
Özge Andiç Çakır, Ege University, Turkey

Chapter 9
Impact of Electrospun Biomimetic Extracellular Environment on Proliferation and Intercellular Communication of Muscle Precursor Cells: An Overview – Intercellular Communication of Muscle Precursor Cells with Extracellular Environment

Touseef Amna, Chonbuk National University, South Korea
M. Shamshi Haasan, Chonbuk National University, South Korea
Myung-Seob Khil, Chonbuk National University, South Korea
Inho Hwang, Chonbuk National University, South Korea

Chapter 10
Engineered Gellan Polysaccharides in the Design of Controlled Drug Delivery Systems

Sabyasachi Maiti, Gupta College of Technological Sciences, India

Chapter 11
Bioinspired Materials and Biocompatibility

Muge Anil, Ege University, Turkey
Duygu Ayyıldız-Tamis, Ege University, Turkey
Seyma Tasdemir, Ege University, Turkey
Aylin Sendemir-Urkmez, Ege University, Turkey
Sultan Gulce-Iz, Ege University, Turkey

Chapter 12
Synthetic Approaches to Biology: Engineering Gene Control Circuits, Synthesizing, and Editing Genomes

Robert Penchovsky, Sofia University, Bulgaria
Martina Traykovska, Sofia University, Bulgaria
Compilation of References ................................................................. 354
About the Contributors ........................................................................... 434
Index........................................................................................................ 440
