Acknowledgment

The editors would like to acknowledge the help of all the people involved in this project and, more specifically, to the authors and reviewers that took part in the review process. Without their support, this book would not have become a reality.

First, the editors would like to thank each one of the authors for their contributions. Our sincere gratitude goes to the chapter’s authors who contributed their time and expertise to this book.

Second, the editors wish to acknowledge the valuable contributions of the reviewers regarding the improvement of quality, coherence, and content presentation of chapters. Most of the authors also served as referees; we highly appreciate their double task.

Finally, the editors will like to sincerely acknowledge our IGI Global book project development representative and the entire editorial management team. Without their timely advice and professional guidance this project would not have been able to manage the tight planned editing project schedule. Above all we thank God almighty for making it a success.
